ALLEN'S PAIN DOCTOR.

A SPEEDY RELIEF AND CURE, for Lumbago, Pain in the Side, Back, Rheumatism, Neuralgia, Sore Throat, Diphtheria, Toothache, Burns, Bruises and Sprains, Nervous Headache, Stiffness of the Joints, and pains of any part of the body.

This compound has been but a short time before the public, and has already grown into great favor and repute, in nearly every instance, where it has been tried. There are cases so chronic and deep-seated as to baffie all human remedies, and the inventor of this compound does not claim for it any such infallibility, as to cure every disease under the sun. Such assertions of any human remedy, bear their own construction, even to the most simple-minded; but when pain can be cured and relieved by liniments and embrocations, this preparation will do it.

The Pain Doctor is not made up of roots or Indian remedies but is a "happy compound" of standard medicines, and, therefore, can be no humbug. The testimony of those who have given it a fair trial, will substantiate all its claims. It will keep any length of time, is easily applied, not at all disagreeable to the smell, and is sold at such a price as to be within the reach of all.

It should be kept in every family. It is worth double the price, to cure the ailments of children.

Give it a fair trial, and you will always keep it on hand, among the family medicines.

DIRECTIONS. Always shake well before using. As a general rule, apply freely the liniment with the pain of the hand, or a piece of cloth, rubbing briskly, until relief is afforded.

In cases of violent pain, the liniment may be warmed, and after rubbing freely, lay on a piece of flannel saturated with the compound.

For Sore Throat or Diphtheria, apply a bandage saturated with the Pain Doctor. Should the burning be too severe, as in the case of children, a little sweet oil may be added. For Corns or Bunions, pare gently with a sharp knife, and rub well morning and evening.

For Pains in the Bowels, rub freely the Abdomen.

For Toothache, apply into or next to the tooth, a piece of cotton saturated with the compound, and rub the part of the face opposite.
