### BARNES' MILL ON ROCKY RIVER.

THE subscriber would announce to his patrons, and the public generally, that his well-known Mill on Rocky River has been recently thoroughly overhauled and repaired and is now in excellent condition for grinding. With three good runners, and superior bolting-cloths, smut machine, and other appliances, he is able to grind promptly, and at the same time to guarantee satisfaction in the yield. With abundance of water, he can grind day and night, and thus relieve his patrons from any fear of disappointment. He will be constantly at the mill, and will give his personal attention to the grinding of all grain with which he may be entrusted. Thankful for past patronage, he can appeal to his old friends with the assurance of being able to merit its continuance.
