"LITTLE DAN."

You see, the people at the postoffice soon recognize faces and names, and after a man or woman has appeared at the gen-eral-delivery window three or four times they are pretty well known. It is a real pleasure to hand out letters to some. while the clerks care little for the calls of others to get hold of their epistles.

One day a year or two ago a funny-looking little old woman, wearing faded garments, but having a tiny look motherly face, appeared at the window and asked for a letter. There was one for her, sent from a distanteity, and any one could have told that an unlearned boy directed the envelope. There was a little "d" in "Detroit" with a big "T" to end the word, and it seemed worsleeful that the letter ever reached its destina-

CARE OF THE INSANE.

Letter from Miss Dix.

The following letter from Miss Dix, the well-known philanthropist, has been sent us with a request to publish: Washington, March 2, 1875.

To Dr. W. P. Jones:
DEAR SIR-I look with great anxiety for results of legislation in Tennessee upon the great question of adequate, or at least increased provision for the insane. Teat the best interests of the State, and of the meane, will be as sured by the creation of additional hospitaes in East and West Tennessee. appears to embrace facts which may be clearly demonstrated. It might be supposed that the well conducted in stitution in the vicinity of Nashville, readily accessible to citizens of Central Tennessee, would indicate the fitness

The serious evils of transporting patients long distances are mixed and absolute, at all seasons of the year; often aggressing the malaly, or exhausting the patients, and greatly dis-tressing felends, while the cost of such conveyance often foots up heavy charges. Is it proved that this, in the end, or at any time, would assure a certain sav-ing to the State treasury? Should not this question be very closely measured? I approve economy at all times, wisery exercised. The civil rights agitation which naturally enough sprung up over the South immediately after the passage of the obnoxious measure, is gradually subsiding, and matters are fast assuming their former aspect. To the credit of the colored population be it said, not one in ten thousand of them took advantage of the law, to offensively assert their questionable rights, and bring about illfeeling between the races. A few cases occurred in this city, where one or two negroes went the rounds of the restaurants, and succeeded in closing up one. New, this is all over, nor is it likely to be repeated. There was no application for hotel accommodations, nor is it at all probable that there will be. One colous in the dress-circle at the theater, but he quietly desisted when gently
