Few Cities in India.

There are few cities in India. Its
stupendous population consists of
farm laborers. India is one vast farm
—one almost interminable stretch of
fields. It is a beautiful country—beau-
tiful rivers, beautiful mountains. It is
a land of abundant life. The jungles
are full of animals, the air is alive
with birds and fowls of almost all
kinds, the waters are alive with fish.
Vegetable life is abundant and varied
