McLEAN

Forty-Two Club. To satisfy the over-wrought nerves of those who have had "all work and no play," an open meeting was given the 42 club by Mrs. D. B. Veatch at the pretty home of Mrs. Emma Lafora on Wednesday evening, May 14.

Unlike the previous evening, the occasion was beautiful and the undaunted spirits of guests, before disappointed by cloud and storm, hied to the appointed place of amusement at an appropriate hour.

Dame Veatch in her charming manner ushered her guests to the roomy parlors where tables were in waiting for pleasure.

Four tables were filled and the merry peals of the bell announced the time for the game to begin, wherein the jolly gamblers progressed from table to table, Miss Luella Horton and Mrs. Richardson receiving highest scores, and were rewarded with a full blown peony, a gift from the flower garden of Mrs. Veatch.

Pentfully willed plates of lovely white loaf cake were placed before us and heaping dishes of delicious sherbet satisfied the most fastidious after which, it now being late, we wended our way to our various homes.

Mr. and Mrs. Clayborn Cash entertained a party of young people at their home on Saturday evening of last week.

Mrs. A. G. Richardson has returned from a visit to her parents at Liberty.

Mrs. S. O. Cook and little Miss Erin returned Monday from Shreveport, La., where they had been visiting relatives.

Miss Luella Horton has returned from Panama, where she taught in the public school during the term just closed.

A man living at Aurora, New York, had a severe attack of kidney and bladder trouble. Being a working man, not wanting to lose time, nor run up a heavy doctor's bill, he cured himself completely by using Foley's Kidney Pills. A year later he says: "It is a pleasure to report that the cure was permanent." He has had no return whatever of the pain, backache and burning. His name is J. A. Farmer, and he says: "Of course I recommend Foley Kidney Pills as a very effective cure for kidney and bladder trouble." Randall Drug Co.

Good Fruit Crop

McLEAN, Texas, May 20—Reports from all over the McLean vicinity are to the effect that the late frosts this spring, which for a time were thought disastrous for the fruit, did very little damage. Some of the budding fruit was killed, but it is considered likely that the increased size of that which remains will more than make up for the shortage.

This section is especially adapted to the culture of various fruits including peaches, apples, pears, apricots, grapes, cherries and all kinds of berries.

strawberries is coming more and more into favor and every year there are thousands of new trees of different kinds set out.

Born. Mr. and Mrs. A. L. Randall of 18-17 Pierce street are the happy parents of a girl baby, born on Sunday last.

WHY NOT HAVE THE BEST?

McCrory Thomas Hardware Co.
RELIABLE GOODS AT REASONABLE PRICES

—Not upon any one or two single devices does the Kitcheneed rely for its reputation, but upon a combination, a collection of features, each of which has been placed in this Cabinet after its usefulness has been demonstrated beyond the shadow of a doubt.

—Kitcheneed Joints are dovetailed; a method of jointing two edges, suggested by nature herself, in the jointing together of the sections of the human head and stronger than any ever devised entirely by man.

—Kitcheneed Sugar Bins are Glass, sanitary, easily cleaned and eliminated all possibility of acid poisoning always probable where metal is used.

—Kitcheneed Cooling Cabinets are a distinctive and exclusive feature; frosted metal and equipped with wire shelves. Surrounded by an air chamber on all sides it allows a free circulation of air and provides the only sanitary cooling cabinet made. It provides a separate convenient compartment for freshly baked pies and cakes which must not be kept in the same compartment with freshly baked bread.

—Kitcheneed All-Metal Flour Bin, lowers clear over the table top and filled with 50 pounds of flour assumes its normal position at the expense of energy sufficient to lift only five pounds. It is equipped with metal screw top cap at bottom to prevent entry of foreign substance.

—Kitcheneed Utensil Drawer: placed directly in center of cabinet over table top; three compartment; contents at the fingers' ends.

—Kitcheneed Table Tops are an exclusive feature; solid maple, 36 sections, one and one-quarter inch thick, tongue and grooved—4 and 5 bolts (not glue jointed), finished in white, perfectly smooth, round cornered, sanitary and durable.

—Kitcheneed Bread and Cake Box of non-rustable metal with sliding cover.

—Kitcheneed Crystal Glass Spice, Coffee and Tea Canisters and measuring cup with metal screw tops, sanitary, easily cleaned and contents always visible.

—Kitcheneed Center Dish Cabinet, white enamel cabinet below cooling cabinet; extra shelf in center of cabinet, large utensil drawers, utensil cabinet and racks complete the equipment of a Kitcheneed, with the exception of one other point that still further carries out the claim made for superiority.

—Kitcheneed Ant-proof casters; a caster made with a metal cup above the rollers; filled with powdered borax or water this cup prevents the entrance of ants or other insects into a Kitcheneed. Patented and another exclusive Kitcheneed feature.

—Kitcheneed material used in construction is the best: selected oak, finished with as great a care as would be given for use in dining, living, or bed-room, makes of a Kitcheneed, in appearance, as fine a piece of furniture as could be imagined.

—Our showing is large and visitors will find a Kitcheneed for every purse and every requirement, and courteous, anxious-to-please salesmen to wait upon their wants.
