Another Bank Failure.

New York, Aug. 11.—The Wall Street bank closed its doors this morning owing to the irregularities of its cashier. It will remain closed until its matters are investigated. The president is Thomas W. Evans, cashier, John P. Dickinson. The bank is situated at No. 15 Broad street, and is a state bank. When the last annual statement was issued in September, 1883, the figures were, paid up capital, \$500,000; surplus, \$65,197; undivided profits, \$47,736. The capital stock is \$500,000, and will probably be paid in full. It is likely thirty per cent. will be paid by the end of this week. The cashier's shortage is stated to be \$200,000, and the bank has \$50,000 of bad debts.

The Wall Street bank officers declare the suspension is due to irregularities of the cashier, John P. Dickinson, who has not been at his desk since Friday night.

The history of the bank is peculiar. It was organized two years ago by Wall street men during the agitation regarding the establishment of a stock clearing house, succeeding an old bank, with a capital of \$500,000. The organizers were prepared to do the clearing for the street, but the scheme fell through and the institution became purely a banker's bank. It has been regarded with suspicion, but having weathered the late storm it had come to be regarded as practically safe. During the recent flurry it asked for no accommodation at the clearing house, and its officers frequently made boasts of its strength.

WILL RESUME.

New York, Aug. 11.—It is stated that D. O. Mills and Charles J. Osborn decided to advance sufficient money to enable the Wall Street bank to resume tomorrow. Charles J. Osborn, one of the directors, says the loss to the bank cannot exceed the capital, \$500,000, and it is not likely to be so great, and the depositors will not have to submit to any delay in getting their money. There is no reason why fifty per cent. cannot be paid out at once.

NOT TO BE FOUND.

New York, Aug. 11.—The wife of John P. Dickinson, the defaulting cashier of the Wall Street bank, remained tonight at the house of her father, C. F. Simpson, Madison avenue. None of the family have seen Dickinson since Friday last, and he was then at the Oriental hotel, Coney Island. Where he is now Simpson said that neither he nor his daughter knew. The rumor that the firm of Dickinson Bros. was a heavy loser by the failure is denied tonight by Platt K. Dickinson, who says the firm is in no way affected.

The Earthquake.

LONG ISLAND CITY, August 12.—The earthquake yesterday caused the brick in two houses to fall. At East Norwich the Presbyterian church had its walls cracked from one to two inches in width extending from the roof to the foundation. The colored camp meeting in Fleet woods was broken up by the shock, all in attendance being on their knees at the time jumped up shouting and ran from the woods to their homes.

AT ROCKAWAY.

FAR ROCKAWAY, L. I., Aug. 11.—Another shock of earthquake was felt in the villages along the south side of Long Island this afternoon. It was not so heavy as yesterday, but sufficient to cause excitement. The court house was shook several seconds. Crockery, etc., on the hotel tables rattled and some fell over, making guests start from their seats. The shock was felt here about 12:30, and a few minutes later the big hotel on Rockaway beach was shaken, the doors and windows rattling loud enough to be heard a considerable distance. The open doors of other buildings were closed by force. Hempstead, South Oyster Bay, Long Beach, Woodbury and other places report similar experiences.

Blaine Invited Out to Dine.

BOSTON, August 11.—Jas. G. Blaine has been invited to dine with the Middlesex, Essex and Norfolk and the Massachusetts Republican clubs of this state, who are desirous of showing their high esteem for his public service and their devotion to the cause which he represents as the candidate of the Republican party for the presidency of the United States. Mr. Blaine answered as follows: "I am under obligation for the very kind invitation which you extend to me to meet the Massachusetts, Middlesex, Essex and Norfolk clubs at a public banquet in the city of Boston. I need not assure the gentlemen who compose these clubs of the very great pleasure it would give me to be their guest. I appreciate most fully the kindness intended and it is with sincere regret I find myself unable to indicate a leave them. I am sure, however, this festive occasion is not needed to deepen the interest of Massachusetts in the impending national contest and by my refusal no hospitality could add to my sense of kindness which I have received on so many occasions from citizens of your state. I am, gentlemen, with great respect, yours truly, J. G. BLAINE."

Blew Up.

MADISON, Ind., Aug. 11.—The propeller "Mamie Glass" exploded her boiler this morning in front of the city. Engineer Geo. Keller was instantly killed, being frightfully mangled and blown onto a raft of logs the Glass was towing. Joe Leighter was on the raft, a considerable distance from the boat and was knocked into the river and lost. He was married and has four little children. Commodore Wolfe was blown with the pilot house fifty feet in the air and broke his way out of the debris in the water. He is bruised but not seriously hurt. Two young men were on the raft, but escaped injury.

A Horrible Tragedy.

MUSCATINE, Ia., Aug. 11.—There was a horrible tragedy near Rochester, Cedar county, Saturday evening. Charles Ammerman, of Muscatine, and W. Riddle, of Rochester, a brother-in-law left Muscatine Saturday noon with their wives and a young child of each for Rochester. The party were in the same wagon and got into a family quarrel. Ammerman finally put Riddle and wife and child out and told them they could walk to Rochester. He afterwards returned and took in the wife and child. On passing Riddle the latter ordered him to stop, and upon their refusing fired at them with a double barreled shot gun. Ammerman was instantly killed, and the second shot shattered Mrs. Ammerman's arm. The team then ran away and Riddle's child was run over and had its arm broken. Riddle was arrested the same night and jailed at Tipton. There is strong talk of lynching. All parties are connected with old and respectable families in Muscatine and Cedar counties.

Investigating Soldiers' Homes. DAYTON, O., Aug. 11.—The Soldiers' Home Investigation committee has taken all the testimony for the prosecution, and today began the defense. Sergeants of the barracks testified that the men were not treated harshly; were not punished unjustly, and did not complain of personal punishment. None were sent to the 'dum' unjustly. The men often came in drunk; are sent quietly to bed, but if they remained over the pass limit were put on the dump for thirty days. Some officials were harsher than necessary, but very few. The liberty of the home grounds was given them, but they were not allowed a pass when once abused for several months.

He asserts that he was compelled to swear as he did by the crown solicitor Balton. Balton told him if he did not swear as he did he would be tried himself and surely be hanged. A brother-in-law of Casey's Philbin, by name corroborated Casey's statements, and declared that Balton induced him to perjure himself.

The Dead of the Expedition. NEW YORK, Aug. 8.—The Greeley expedition ships, Bear, Thetis and Alert, arrived at noon of Governor's Island. Secretary Lincoln, Generals Sheridan, Hancock and other army and naval officers with the troops received the bodies from the vessel, the forts firing a general salute.

The following is a list of the dead and places of burial: Lieutenant James E. Lockwood, Annapolis; Lieutenant Fred F. Kistlingbury, Rochester, New York; Sergeant Israel, Kalamazoo, Michigan; Sergeant David C. Balston, Harvard, Knox county, Ohio; Sergeant David Linn, Philadelphia; Sergeant William Cross, Washington; Corporal Joseph Ellison, Pottsville, Pa.; Private Wm. Whistler, Delph, Ind.; Private Wm. A. Private Henry will be buried tomorrow morning at Cypress Hill in the G. A. R. plot. The bodies of Henry and Schneider will be sent to Cypress Hill, the former to a vault to await orders from Germany, and the other for interment in the government plot. Dakota Politics. MINNEAPOLIS, Aug. 9.—A Journal special from Pierre says: Preparations are already being made in the way of perfecting facilities for the Dakota Republican territorial convention, which meets here on September 17. Advice are received here from all over the territory which lead to the belief that it will be the largest and most important convention ever held in Dakota. Primary are now being held in the various counties and intense interest is being taken in the canvass. The question of division will cut quite a figure in the convention if it shall and prove the paramount issue. Delegate Raymond is condemned for his failure to work in with either the Randall or the Morrison feature on the tariff question when the result of that was doubtful, to secure pledges from democrats in the interest of division. Whether these accusations are just or otherwise doesn't appear to modify the feeling that he is not so influential a man as is wanted in Washington. Pettigrew's friends claim that he could have taken advantage of this circumstance to better advantage. There is a growing feeling throughout South Dakota that Sam McMeisters of the Black Hills develops the potent influences the territory needs at the capital next session, and with the full support of the Hills he will prove a formidable candidate in the light of the opposition to Raymond and the sectional candidates who will be in the field. The Hills with all of their wealth have never yet had a delegate and this fact is regarded as quite an element of strength. Of course Pettigrew would be our candidate were it not for the fact that he absolutely declines. While he is not a candidate he is still a power in Southern Dakota, and his influence is sought and may be secured by the friends of McMeisters in the Hills. He is certainly for the man who can down Raymond.

Slaughter of Horse Thieves. HELENA, Aug. 9.—Messrs particulars have been received of another slaughter of horse thieves in the Musselshell region one hundred and fifty miles northeast of here last week by cowboys. While in pursuit of stolen horses, a log house was discovered in the timbers on the mountain side. It was secretly watched a day or two, during which time several parties of men came and went, some by day, others by night. Having in possession horses, evidently stolen, it becoming evident that it was a horse thieves rendezvous. The cowboys congregated, and last Monday night crawled up to the house and attacked fourteen horse thieves about the premises at the time, and nine were killed and five escaped. The cabin was set on fire and burned. No particulars yet received of Granville Stuart's cowboys with a band of horse thieves at the mouth of the Musselshell, but it is thought the fight must have occurred several days ago. The locality is over 200 miles from Helena with no telegraph communication. There never was a period in the history of this or any other territory where so much horse thieving was going on. The citizens are determined to stop it. Fully fifty thieves have been hanged or shot in the past month.

The last time they complained it was because I had captured the Democratic organization. Be it so. Then I have only let my captives loose. I have a great debt of gratitude to pay to the people of Massachusetts, but none to any democratic organization, state or national. In no campaign did I ever receive aid from a democratic national organization, nor did national democrats from outside states ever come here or say a word in my favor or in favor of the democratic party while I was the unanimous nominee. Whenever I have any use for the organization of Massachusetts democrats I will get it."

Asiatic Cholera. WASHINGTON, Aug. 9.—Frank H. Mason, United States consul to Marseilles, in a despatch to the state department relative to cholera in that place and Toulon, says it appears that notwithstanding all progress in medical science and very perfect arrangements for collecting and treating the stricken victims of the scourge, more than two-thirds of those attacked have died even during the first fortnight of the epidemic, when all sanitary conditions were most favorable. The almost immediate transmission of the disease from Toulon to Marseilles, and the enormous death rate of seventy per cent. in the earliest stages of the epidemic, seems to prove that sanitary science and medical skill have made but little substantial progress in dealing with Asiatic cholera.
