WHAT OF THE FUTURE.

A strong feeling prevails that the
attitude of England, in encouraging
Russia with the thought of a warm
water outlet through the Bosporus will
some day prove a serious trouble to
England. Time alone can tell.

It is well understood that Russia has
long and persistently sought an outlet
to warm water, but owing to the oppo-
sition of England she has never been
allowed to pass war vessels through the
strait past Constantinople, the capitol
of Turkey.

Germany has always opposed the au-
bitions of Russia in acquiring a warm
water seaport. Since England has in-
directly stated that Russia will be al-
lowed free passage of the straits from
the Black Sea to the Mediterranean,
Russia seems practically assured of
that coveted outlet, for which she has
employed every diplomatic move possi-
ble and has even gone to war with
Turkey for. The present war means
more to Russia than most persons are
aware.

The present population of Russia is
128,000,000. The vast area of that
large empire is sufficient to hold half
the population of the world and feed
them. In the future Russia will be in
a position to make and maintain very
strong demands when she secures the
warm water outlet that she now seems
sure of. In the event Russia acquires
Constantinople and the Turk is ex-
pelled from Europe, as is expected, the
power of the bear will be second only
to England if not her equal. In some
respects Russia will far surpass Eng-
land when it comes to war. Since the
failure of Napoleon it has been admit-
ted that such a thing as successfully
invading Russia is out of the question
because of weather conditions. Russia
knows this and should the time ever
come that England and Russia are pit-
ted against each other in war, Russia
will have an advantage of great mo-
ment in that alone.

England may see the day when she
will very much regret that Russia was
ever allowed the opening to warm
water. Germany will not cease to re-
member England with bitterness after
the lapse of a century and should the
time ever come when by combining
with Russia, England could be worsted
and brought to her knees it would be a
tempting and sweet morsel for the
Teuton to join with the bear and give
the tail of the lion such a twist as it
has never had in all history.

Thus it may transpire that England
will see when too late that the great-
est mistake ever made by the Briton
was when he insured the warm water
port to Russia while fighting Germany.

Mayor W. J. Pugh, of Monterey,
comes out in the Monterey News with
a very sensible article on cleaning up
the town for the prevention of disease
as well as for general appearances.
The same admonitions would apply just
as well for Crossville.

We do not intend this as a hidden
thrust at Mayor Johnson for we are
well aware that no citizen of our town
has a higher appreciation of cleanliness
and order than he and no one would
go farther to beautify and keep our
town in a sanitary condition.

The point is, we should all take
sufficient pride in our town to keep our
premises in as neat a condition as
possible and above all look carefully to
the sanitary condition since that ap-
plies directly to the health of our fam-
ilies.

FAMILY AVOIDS
SERIOUS SICKNESS

By Being Constantly Supplied With
Thedford's Black-Draught.

McDuff, Va.—"I suffered for several
years," says Mrs. J. B. Whittaker, of
this place, "with sick headache, and
stomach trouble.

Ten years ago a friend told me to try
Thedford's Black-Draught, which I did,
and I found it to be the best family medi-
cine for young and old.

I keep Black-Draught on hand all the
time now, and when my children feel a
little bad, they ask me for a dose, and it
does them more good than any medicine
they ever tried.

We never have a long spell of sick-
ness in our family, since we commenced
using Black-Draught."

Thedford's Black-Draught is purely
vegetable, and has been found to regu-
late weak stomachs, aid diges'on, re-
lieve indigestion, colic, wind, nausea,
headache, sick stomach, and similar
symptoms.

It has been in constant use for more
than 70 years, and has benefited more
than a million people.

Your druggist sells and recommends
Black-Draught. Price only 25c. Get a
bottle to-day. N. C. 123

Indications now point strongly to the
entrance of both Italy and Greece into
the war game against Germany and
Austria. If that does come it will
mean a hard time for the Teuton, but
he is capable of both giving and ac-
cepting hard knocks without boasting
or complaining.

It is claimed Sparta is to have a
third paper. It will be issued by
Brown Brothers with E. C. Barber as
editor. They are all capable men, but
it would seem the field is fully occu-
ped now.

ARE YOU RHEUMATIC?—TRY
SLOAN'S.

If you want quick and real relief
from rheumatism, do what so many
thousand other people are doing—
whenever an attack comes on, bathe
the sore muscle or joint with Sloan's
Liniment. No need to rub it in—just
apply the liniment to the surface. It
is wonderfully penetrating. It goes
right to the seat of trouble and draws
the pain almost immediately. Get a
bottle of Sloan's Liniment for 25c of
any druggist and have it in the house—
against colds, sore and swollen joints,
lumbago, sciatica and like ailments.
Your money back if not satisfied, but
it does give almost instant relief. 1.

DEATH OF EDITOR'S BROTHER

Brief History of the Life of One of
God's Noblemen.

Nimrod Clay Bishop was born at
Centerburg, Ohio, on September 25,
and died at his home in Iantha, Mis-
souri, Feb. 21, 1915, at the age of 73
years, 4 months and 26 days. Mr.
Bishop's father was a physician and in
1852, moved to central Illinois, where
he established a large practice as a
country doctor. His stepmother had
been a high school teacher in a young
ladies' seminary, and schools in Illinois
being few, a school was established in
Dr. Bishop's home, where Mrs. Bishop
laid the most excellent foundations for
future citizenship in all who came long
under her care.

The writer has often heard Mr.
Bishop say, "My stepmother took a
family of seven children on her hands
and then had eight of her own, but I
never saw her do an un ladylike act or
utter a coarse word." Trained under
such ideals, the result was in Mr.
Bishop, an absolutely strong character
in all that makes for kindness, gen-
erosity and absolute honesty.

He later pursued his education at
Lombard University at Galesburg,
Illinois, where he took up the study of
law. Mr. Bishop began teaching at
an early age, finishing his first term
of school in Shelby county, Missouri,
on his sixteenth birthday. He altern-
ated between teaching and attending
school until 1865 when he married
one of his pupils, Miss Auleanna Win-
slov, of Bradford, Illinois. To this
union three children were born: Carl,
the oldest, dying when one year old;
Alice Gertrude, now Mrs. Fred Sibey
of Vinalia, California; and Nina May,
now Mrs. M. Morris, of Bath, Illinois.
The first Mrs. Bishop died in February,
1883, and five years later Mr. Bishop
married Miss Alice H. Peet, of Bur-
lington, Pennsylvania. To this union
was born one son who died in infancy.

Mr. Bishop was a United States Ex-
press agent for forty years. Twenty
years at Havana, Illinois, and twenty
at Marshall, Missouri. He moved to
Barton county on February 21, 1910,
his death occurring just five years from
that date.

He was a member of the Cumberland
Presbyterian church at Marshall, Mo.,
for many years, but withdrew from
that body and became a charter mem-
ber and director of the Christian
Science society of that place in 1907.
After moving to Iantha the regular
Christian Science services as outlined
