**CHRONICLE TO BE REDUCED
 TO \$1.50 A YEAR.**

January 1 the Date But Old Subscribers
 Can Do Better Even Than That
 by Taking Advantage of
 This Special Offer.

Beginning with January 1, 1920, the
 subscription price of the Chronicle will
 be reduced to \$1.50 a year.

We are able to do this because of
 the increased amount of foreign ad-
 vertising that we are now getting,
 coupled with the outlook for next year
 which seems to promise more ad-
 vertising than has been usual in former
 years.

ADDITIONAL OFFER.

To all subscribers who are now in
 arrears we make this special offer: If
 you pay all that is due up to October
 1 of this year, at the \$2.00 rate, and
 then pay \$1.50 besides we will give you
 a receipt showing that your subscrip-
 tion is paid up to January 1, 1921. By
 paying 65 cents more you can get the
 Progressive Farmer for a whole year.

New subscribers who pay \$2.15 will
 get the Chronicle and Progressive
 Farmer both a full year, from the date
 they subscribe, or can get the Chroni-
 cle alone for one year by paying
 \$1.50 but will not be given the re-
 mainder of the present year free as is
 the case with old subscribers. Those
 who do not take advantage of this
 offer and are now subscribers will be
 charged at the regular \$2.00 rate until
 January 1, 1920. After that date they
 will be charged at the rate of \$1.50 a
 year.

To old subscribers this means three
 months free, provided they pay all
 arrearages and one year in advance,
 which is a saving of 50 cents. That is
 certainly worth saving.

Reasons!

Why you should use
 Cardui, the woman's
 tonic, for your troubles,
 have been shown in
 thousands of letters from
 actual users of this medi-
 cine, who speak from
 personal experience. If
 the results obtained by
 other women for so many
 years have been so uni-
 formly good, why not
 give Cardui a trial?

The Woman's Tonic

Mrs. Mary J. Irvin, of
 Cullen, Va., writes:
 "About 11 years ago, I
 suffered untold misery
 with female trouble, bear-
 ing-down pains, head-
 ache, numbness . . . I
 would go for three weeks
 almost bent double . . .
 My husband went to Dr.
 for Cardui . . .
 After taking about two
 bottles I began going
 around and when I took
 three bottles I could do
 all my work." E-80

PRINCE ALBERT
the national joy smoke

NEVER was such right-handed-two-
 fist ed smokejoy as you puff out of a
 jimmy pipe packed with Prince Albert!
That's because P. A. has the quality!

You can't fool your taste apparatus any more than you
 can get five aces out of a family deck! So, when you hit
 Prince Albert, coming and going, and get up half an hour
 earlier just to start stoking your pipe, you know you've got
 the big prize on the end of your line!

Prince Albert's quality alone puts it in a class of its own,
 but when you figure that P. A. is made by our exclusive
 patented process that cuts out bite and parch—well—you
 feel like getting a flock of dictionaries to find enough words
 to express your happy days sentiments!

 rain recently did some damages to corn
 which was shocked.

Women Dive for Shells in Japan.

The Japanese industry of making
 buttons, scarfpins, shirt studs, cuff
 links and the like from sea shells
 brought from the Indian ocean, the
 Philippines and the South Sea islands
 has made mighty strides these last few
 years. Millions of the shells are gath-
 ered from the ocean bottom by women
 divers, who work without the aid of
 any diving apparatus whatever.—From

SCHOOL MEETING'

Splendid Program Carried Out by En-
 thusiastic Lot of Workers.

An excellent program was carried
 out at the meeting of county and city
 teachers Saturday. There were ten
 numbers on the program and every
 speaker except one was present.

The only regrettable thing was the
 small attendance of rural teachers,
 who would have been greatly benefited
 by the demonstrations and talks given.
 Much credit is due the Pleasant Hill
 Academy, which was represented by
 six members of its faculty and a class
 of thirteen children.

Rev. Copp conducted the devotional
 service. Prof. C. E. Rogers, of the
 Tennessee Polytechnic Institute, gave
 a very practical and helpful talk on

the educational status of our county
 as, compared with other counties of
 the state, and gave a comprehensive
 outline of the qualifications necessary
 for successful teaching.

Dr. May Wharton presented the sub-
 ject of Health teaching in the schools
 in a most forcible way. She showed
 charts and booklets published by the
 Bureau of Education, for keeping
 records and giving health instruction.
 Prof. Rogers congratulated our county
 on having one so competent to give
 health talks to the teachers.

One of the most interesting features
 was a demonstration of primary song,
 games and handwork, given by Miss
 Olivia Leas, with a class of Pleasant
 Hill children.

Mrs. C. E. Keyes also gave a demon-
 stration with a group of first grade
 pupils, showing the preparation and
 presentation of a reading lesson.

The story phonic work dramatization
 and reading were all in line with the
 best in modern primary methods.

Other subjects ably discussed were
 "Music in the Schools", by Miss Ida
 Wray Bell, "School Management" by
 Prof. Frank March, and "Vocational
 Education" by Mrs. E. C. Albertson.
 Prof. Macbr said that the first requisit
 in controlling a school was self control
 on the part of the teacher.

Mrs. Albertson's talk was based on
 a large chart entitled "The Great For-
 ward Movement in Education," and
 emphasized the trend and the many
 advantages of making industrial edu-
 cation the foundation for all other
 school subjects.

The failure of our present school
 system in accomplishing results was
 shown, and the necessity of vocational
 training in the lower grades was
 urged.

Thirteen of the primary students of
 Pleasant Hill Academy, under the di-
 rection of the teacher, Miss Olivia
 Leas, were present to help enliven the
 occasion. They sang numerous songs
 and demonstrated some of their pri-
 mary methods of instruction. Their
 hand work was also shown. We regret
 that conditions over which we
 have no control prevents us from giv-
 ing a more extended report of what
 those little folks did for they showed
 remarkable aptness and evidence of
 bright and active minds. Following
 are the names of the little folks:

Those that took part were William
 Johnson, Clara Stanley, Woodrow
 Beam, Nannie Beam, Fred Beam,
 Ethel Anderson, Ollie Carr, Esko Carr,
 Herschel Suttle, Lena Dobson, Jessie
 Edwards, Flora Edwards, Beryl Stan-
 ley.
