The proposed route will be only seven miles long and will connect with the Vandever and Clifty routes and will enable mail to reach people the same day it is posted whereas as it now is the mail must go to Cookeville and back via of Clifty, covering a distance of nearly 200 miles, and be three days reaching the person addressed. By the new route it will travel about ten miles and reach the person addressed the same day mailed at Crossville.

Mr. and Mrs. Thomas Flynn were up from Winesap last week.

Young Cadet Returns to West Point For His Last Work as a Senior; Splendid Record.

Cadet Arthur E. Akins left Thursday for West Point, New York, to complete his military training in that great government school. This being his last year as he is a member of the senior class. The young man is the son of Mrs. P. A. Brewer and has been passing the summer vacation here with his mother.

Through the efforts of friends he was awarded the cadet scholarship from New York City and the splendid record he has to his credit should make his friends and the people of this county generally feel a deep pride and interest in him.

At the end of his first term he stood at the head of his class and enjoyed the distinction of being one of eight who had 100 percent in attendance and 100 percent in conduct to his credit. The second term he stood at the head of his cadet class with the same honors, and the third term he had the same honors.

He was also accorded the honor of

being on the "Star Roll," because of having made a percentage of 100 in attendance, 98 in deportment and 85 in scholarship. The "Star Roll" entitled him to wear a star on his coat collar and have his name posted on the "Star Roll" in the school room.

In the first, second and third terms of his senior year, last year, he had the honor of being one who made not less than 276 points out of a possible 300 in attendance, conduct and scholarship. In the year of 1921-22 he stood third in his class for the year with an average of not less than 92 in attendance, conduct and scholarship for the entire year, which entitled him to not less than 828 points out of a possible 900. In addition he received a silver medal. On account of being small in stature and light in weight he was not able to make a showing in athletics.

It will be seen by the above that Cadet Akins has made a most enviable record thus far and there is ample reason to feel that he will continue to maintain his past splendid record to the day when he will graduate.

O. B. Rector left Monday for a business trip to Seatchie valley.

Dr. F. J. Upham is resting at home and gradually gaining his strength. It will be some weeks yet, before he will be able to attend to business.

T. M. Irish arrived from Knoxville Sunday and drove his wife and baby home. They had been here for a few weeks visiting her parents, Mr. and Mrs. Chas. Comstock.

Capt. T. F. Peck left for Nashville Monday.

Douglas Martin, wife and little son plan to leave today for their home at Friday Harbor, Washington. They will go via Knoxville and Cincinnati. Their visit here with relatives and friends has proved very pleasant to all. When Mr. Martin and family arrived it was hoped by their friends that they would make their home here permanently, but they felt it best to return to the Pacific coast again, much to the regret of their friends.

Many in the county will retain kindly memories of William Whitlock, who was for many years a member of the county court and one time its chairman. He has been living at Dayton for several years. He is now 88 years of age and is enjoying good health as he is free from the suffering that such a weight of years often brings. A recent letter from him informs us that he has grown boyish and bought an automobile, which he feels will enable him to go about with much greater ease than on foot. He had planned to visit his many friends in this county this fall, but finds his strength too small for the effort, much to his regret and that of his many friends here. He still retains a lively interest in the progress of this county and rejoices at every good thing that may come to the people of this section.

Mrs. Delia Mullen arrived Saturday from Alpine, Overton county, for a brief visit with Mrs. Mitchell, who is an old friend of hers. Mrs. Mullens returned home Sunday.

Anderson Eller has been confined to his bed for almost four weeks with typhoid. He is a man of small means and worked on the T.C. Section here for a living. His sickness has drained his resources to the last and last week J. M. T. Caudell carried around a paper requesting assistance for him and in a short time collected about \$45. He is regarded as a good citizen and every way worthy of the assistance rendered.

Fred Perry, who lives near Grapevine, just over the county line in Bledsoe county, was in town Saturday after a molasses making outfit. We learn that Mr. Perry is planning to make his molasses after the latest government process, which is said to produce a syrup as white and clear as spring water. His efforts will be watched with interest. Mr. Perry has improved the farm on which he lives until it is said to be in the best condition as to fertility, order and general neatness of any farm in either Bledsoe or Cumberland counties. Such a farmer as Mr. Perry has shown himself to be should not be content to live nearly 20 miles from a market and where school advantages are not the best. There is lots of room for such men as he within a few miles of Crossville, where both market and school advantages are better than where he now lives.

Mr. and Mrs. J. P. Anderson and little daughter, Beatrice, went to Rockwood Sunday afternoon to catch the fast train on the Q. & C. for Sanford, Florida, where Mr. Anderson will take up his duties as railroad engineer. The road he is working for recently wrote him requesting that he return as early as possible as his services were badly needed. Their stay here of several weeks has been one of marked pleasure to them as well as their many friends.

Roy Jackson was in Chattanooga and Whitwell last week visiting with friends.

J. W. Buttram has made a record crop of hay this year. From 22 acres he has cut and saved 77 loads of fine tame hay, in two cuttings. Can anyone in the county beat it? If so we would be glad to hear from them.

The special sale of aluminum ware at Bilbrey Brothers Saturday brought out the most enthusiastic lot of buyers that have been present at any sale in Crossville for a long time. It was with difficulty that the half dozen or more clerks could serve the eager throng. A very large and well-assorted display of aluminum ware was on hand and the low prices of 49 and 99 cents, for pieces that usually sell for once and a half to twice these prices, made the throng eager to secure the rare bargains. The sale was a pronounced success and so well pleased were Bilbrey Brothers that they may decide a little later to have another sale of aluminum ware along much the same lines.

WANTED CUT—50 cords of stove-wood within corporation. H. R. Webb The Cumberland Mountain School is coming along in fine shape with about 80 students, and they have turned away practically as many as they received. It is the aim of the school in particular to help those who are badly situated for acquiring an education more than to accept those who have means whereby they are able to attend any school of their choice. Such a policy is certainly very commendable and make of it in fact a school where the worth while poor are gladly helped.

CARRIED TO EXTREMES.—Little Pauline was very rough with her pet cat; deaf to all admonishments. Her mother decided to punish the child in the same way that she misused the cat. Pauline slapped the cat and her mother slapped her. Then she bit the cat and was promptly bitten in return. She thought a few minutes, put the cat on the floor and stepped on its tail. "Now mama what you going to do?"
