

LOCAL NOTES.

No signs of the Rio Janeiro.

Congratulations, papa Mossman.

The Spreckels party left for Maui today.

The Waimanalo case is being heard today.

The Aikoku Maru may leave tomorrow for Japan.

The W. G. Hall left this morning for Maui and Hawaii.

Spies are getting numerous again. The republic is evidently wealthy.

The Miike Maru left today for Japan with over 600 Japanese passengers.

Remember Prof. Adelstein's musicale on the 17th inst. It will be a treat.

The old liberal party has been resurrected under the name of the "People's party."

Very few people have yet taken the oath to support the republic. Hardly any Hawaiians.

Messrs. Murray, Towse and Severin are evidently not in good odor among the working classes.

The community was pleased to see Hay Wodehouse around yesterday. In spite of his long illness he looks pretty well although his "supporters" are rather weak.

The stars and stripes on the flagstaff of the American League was displayed "in distress" this morning and on half mast. A bad omen!

Dr. Geo. Herbert has rented the McWayne premises on Alalea street. His office hours are from 9-11 a. m., 1-3 p. m., 7-8 p. m. Mutual telephone 424.

The Philadelphia troops were landed this morning. They were very quiet, for a change, and did their drill at Mr. Thurston's abortive fishmarket.

The library of the late Dr. Geo. Trousseau will shortly be put up for sale. Besides many valuable medical books the collection embraces a number of prominent works. Mr. L. J. Levey will hold the auction.

Mr. Clifford has taken some very good pictures of the circus at the palace on the Fourth inst. They distinctly show that there were a very slim crowd in attendance. It is rumored, that a certain high military (!) official has bought the negatives for \$250 and expects to make a fortune out of the patriots.

The stockholders in the Reciprocity Plantation are full of hopes! The inspectors found the plantation in a better condition than ever has been the case, and actually expect a crop next year of 1800 tons. When Mr. P. Rooney had charge of the plantation he took off 2200 and 2400 tons, and reduced the debt of the concern by nearly \$140,000. Last year the plantation turned out about 900 tons while the estimate was 1600 tons. Messrs. P. C. Jones, G. W. Wilcox and H. P. Baldwin are the "inspectors."

More Politics.

"The People's Party" is a new political organization. A large number of citizens who have felt that the people were left out in the cold under the new constitution have joined the organization and intend to make it as formidable and successful as was the Liberal party in 1892. The party approves of the republican form of government, but it decidedly objects to the new constitution. The officers elected to serve for the time being are: C. H. Luther, President; E. H. F. Wolters, 1st Vice-President; J. C. Quinn, 2d Vice-President; H. von Werthen, secretary. A statement in the *Advertiser* that a special motion had passed to bar Messrs. Murray, Towse and Severin from becoming members is incorrect. The gentlemen mentioned are not wanted, but nobody is prevented from joining the club, who can be elected as a member. The organization will have a wholesome effect and help to bring politics back in the old grooves. There should be no hesitation in joining the club.

The Pest.

The following dispatches from Hongkong to the official Japanese papers show how serious the "black death" is, even in the seaport Hongkong. The authorities here cannot exercise too much vigilance, and even the strictest measures against vessels coming from the West will be approved of.

"There were thirty-three new cases yesterday, and twenty-eight deaths."

Plague, Hongkong, slightly increasing; new cases 30; deaths 25. Today everything quiet.

"There have been forty-one new cases today and forty-eight deaths. The Government has authorized stronger measures being taken to stamp out the plague."

Three soldiers engaged in work disinfection caught plague, two more under observation. Returns last twenty-four hours: admissions thirty-three, deaths twenty-eight. Under treatment one hundred.

There are fifty-nine new cases reported today, and fifty-four deaths. There have been no deaths from plague among Europeans.

"Plague increasing. New cases 41; deaths 48; under treatment 114. New bye-laws passed Sanitary Board. Insanitary houses to be cleansed by Authorities. Buildings unfit for habitation to be condemned. One military officer, three soldiers inspecting slums, attacked by plague."

The Pest is still ravaging the Chinese quarters at Hongkong despite the rigid sanitary precautions taken by the authorities. The dire visitation is said to be explained in a perfectly satisfactory manner by the natives. *Feng-Shui* is responsible for it, and *Daily Press* learns that the Chinese are pretty unanimous in the belief that the Peak Tramway, of all things, is directly responsible not only for the outbreak of disease, but for bad times, depreciation of silver, and other woes, while the Praya reclamation must be held responsible for the recent water famine. Many grossly mischievous libels on the foreign doctors of Hongkong are rife in Canton, and some insulting post cards and placards

are in circulation among the Chinese. A wholesale exodus of Celestials from the Colony has been in progress for some days. The presence of H. M. S. Tweed opposite Taiping Shan has had a salutatory influence upon the Chinese residents in that quarter.

HAWAII'S "BLUE" LAWS

CONSTITUTION and LAWS

Framed by the Missionaries.

LAWS of the HAWAIIAN ISLANDS.

But laws respecting roads, fences, animals, and all such like things they may pass.

2. All private individuals also shall enjoy the same privilege. Any man may make a law which shall be applicable to his own premises, and if a man makes the law of his land, his yard or his house clearly understood before hand, that law is binding, and whosoever violates, shall pay the penalty according to the requirements of the law, though no such law can be at variance with the general spirit of the laws of the nation, nor can there be an oppressive law nor one of evil tendency.

These edicts having been passed by the Nobles, we have hereunto set our names this ninth day of November in the year of our Lord one thousand eight hundred and forty, at Lahaina, Maui.

(Signed) KAMEHAMEHA III.
KEKAULUOHI.

CHAPTER V.

OF POLICE OFFICERS AND CONSTABLES.

1. It shall be the duty of the several Governors to appoint constables and Peace officers for the protection of the people and villages. The Governor shall act in this thing according to his own discretion. If the village be large, there must be a greater number of constables. If the village be smaller, there may be a smaller number of constables, at the discretion of the Governors. If the Governor be embarrassed in any respect, and therefore think it best to appoint a new officer over any kind of business, he may do it at his discretion.

The badge of the constables shall be a little stick, made round, with the name of the King at the top of it. And it shall be his duty always to carry the badge, that he may be known as a constable. If he does not carry the badge, it will be improper for him forcibly to seize a man, lest it be thought that he is not a constable, and a quarrel ensue. In such a case the blame will attach to the police officer. But if he carry his badge and any one resist him and hurt him, then the blame will attach to the man, and the officer will be faultless.

2. It shall be the duty of the police officers to watch, spy out and detect criminals, carry them to, and deliver them up to the judges, who will bring them to trial. It shall be their duty to seize all persons who violate the laws, and in case of a quarrel or a mob, it shall be their duty to restore or demand peace, and seize the guilty persons. If any peace officer know of a person's committing a crime, and do not seize him nor make it known to the judge, he shall be punished to one half the amount which the criminal would have been. And if they merely hear of disorder or mischief, it shall be their duty to go and see, for the purpose of quelling it. If any one of them receive a bribe, and therefore conceal crime, he shall be fined to four times the amount of the bribe which he received; then if the bribe he received was one dollar, his legal fine shall be four dollars.

3. If any man, not being a police officer, shall carry the badge of one, he shall be fined five dollars. If a police officer shall seize a man entirely without grounds or without any reasonable ground of suspicion, he shall be fined ten dollars and pay all damages sustained by the person thus groundlessly seized. If a police officer attempt to seize a man and he resist, the man shall be fined ten dollars, even though he do not wound the officer. But if the officer be wounded by him he shall then be fined in the same manner as all others guilty of assault.
