LIQUID BREAD.
AN ABSOLUTELY PURE EXTRACT OF MALT.
A VALUABLE TONIC AND REMEDIAL AGENT.
INDICATED AND RECOMMENDED BY THE ENTIRE MEDICAL FRATERNITY.
Of all medicinal preparations that have been put upon the market in recent years, the extract of malt has proved itself one of the most valuable as a tonic of cerebral beverages. It has received the unqualified recognition and support of physicians, and is freely prescribed by them in many cases, especially where the nervous or physical systems have been impaired by disease or overwork. The house of "DAVID NICHOLSON," of this city, has recently introduced a pure malt extract of high character, made at their request and under their suggestions by Mr. Adolphus Beach, and which is popularly known as "NICHOLSON'S LIQUID BREAD." From its life-giving and health-restoring properties. A sample submitted to Dr. F. L. James was made the subject of a chemical analysis by him, and the result of his investigations are given in the appended certificate.
"F. L. JAMES, April 26, 1884.
"W. F. COLE, R. E. L., National Dispensary, 1244 Sir: Having submitted the Nicholson Malt Extract to examination, as requested, I take pleasure in reporting that I find it to be all that the proprietors claim for it. The results, as shown in the following summary, are necessarily only approximate, but are sufficiently accurate for all practical purposes.
"The specimens submitted consisted of an effervescent fluid, dark brown by direct and of a deep ruby color by transmitted light, resembling in general appearance and behavior a very superior article of porter. Its taste was, however, much milder and more pleasant than porter, being somewhat sweeter than beer, the sweetness masked and covered by a very pleasant bitter, derived evidently from hops. The specific gravity of a sample fresh from the bottle is 1.022 sp. gr. Amount of extractive matter in 20 cubic centimetres of the fluid is 5.36 grammes, or about 8 per cent. Amount of alcohol, per cent. is 2.84 per cent. The extractive matter is apparently identical with the "extractive matter" of Trommer, or of the German Pharmacopoeia. It consists almost entirely of malt sugar, dextrine, being free from fatty acids, etc. The fluid contains a very large amount of dextrine, as shown by the fact that it easily liquefies an equal bulk of gelatinous starch. This fact, its low percentage of alcohol, its effervescence, its delightful taste and odor, all combine to render Nicholson's malt extract as being a most nourishing beverage, and the best article of the sort that has ever come under my examination. Respectfully,
"FRANK L. JAMES, Ph. D., M. D."
