A sailor belonging to the wrecked bark Tamerlane stated that four bodies were seen near the coast, but could not be recovered owing to the stormy weather. A meeting of the Chamber of Commerce was held yesterday, the first in the new room, which is now completed. No business of any importance was transacted.

The plank by which the sailors of the Tamerlane climbed ashore, collapsed a few minutes after they had landed. In two hours there was nothing left of the ship. SPECIAL BUSINESS ITEMS. The Brunswick Billiard Parlors are the handsomest in town. 2940-4f. I'll meet you at the Brunswick Billiard Parlors this evening. 2940-4f. An Open Letter. TO EVERYONE IN THE HAWAIIAN ISLANDS:—It is a well known fact that HALL'S STORE is situated on the corner of Fort and King streets Honolulu. It has been there ever since the year 1852, so that this central corner has long been known as HALL'S CORNER.

You want to know what is kept in this corner store? We can't begin to tell you, for if we printed the entire list we would crowd out our friends "Nemo," "Justice," "Taxpayer," "Citizen," and others, so they would not have a chance to say their little say, and that would hardly be fair these exciting times. But we will condense what we mean to say into so many lines and leave you to fill out the particulars. Well, A stands for Alcohol—we sell it for mechanical purposes, and have a good article. Anvils, Asphaltum in bbls., Augers, Axes, Axes, Axle Grease, and Anchors—not much alike, but then they all begin with A, and they have their different uses. Bags, paper, 1/2 to 12 lbs., and Benzine. The bags won't hold benzine, but we will give you a container that will. Baskets, Blueing and Blacking, all useful at home; baskets, because you must have something to carry your things in when you go on a picnic, and besides everyone needs a new soiled or clean clothes basket some time. James French Ball Blue needs no other introduction to the house wife. Blacking—Day & Martin's and Mason's shoe, and Miller's Harness. Bolts—machine, carriage, tire, door, etc. Borax; Brass, sheet and rod; Braces, Brooms, Brushes, Buckets, Buckles, Butts, and so on through the B's and C's and D's till we would fill the whole six pages of the paper you are reading, and you would be used up trying to carry in your head what we keep in stock, when all you have to do is to drop in any time and ask us what we don't keep, and we can tell you in a few moments. We will call your special attention to two lines that we carry, and then we will call it quits for this trip.

The first is the ELECTRICAL LINE. This has been growing with us, so that now we have had to move everything and everybody connected with it to new quarters just across King street, next to the Hamilton House. We can wire your house for Electric Bells or Lights, or we can furnish your house or mill with a complete plant, all set up and working, for lights or power. You can have our figures at any time on a job, no matter how small or how large. We carry the stock, have the workmen and can do the work promptly. We have just finished installing plants at Ewa Mill, Kahuiku Mill and Kanehameha Schools (the latter has not only the dynamo, but complete storage battery system as well), and we are all now hard at work on the plant which we are furnishing and setting up at Kahuiku. If this line interests you, drop in at the Electrical department and see what we have—and see the little motor running the lathe and charging portable storage batteries. No one will be on the sidewalk to push you in, and no one after you get in will insinuate that you ought to buy anything; but you can spend a few moments looking at everything we have, from the running motors and dynamos down to the different size electric lamps and fancy shades, and the good we will get from your visit will be that at some distant day, when you find you need a bell or lights put in your house, you will know just who to come to to get it done.

The other line we were going to mention is Ship Chandlery, but it's no use, we can't do it in this letter; time, space and a growing appetite prevent, but in the meantime remember we have first class goods, plenty of them and more on the way, and no one is in a position to quote you lower prices. Till next time, we remain Truly yours, E. O. HALL & SON, Corner Fort and King streets, Honolulu, H. I. 2939-137-1q.

"German Syrup" G. Gloyer, Druggist, Watertown, Wis. This is the opinion of a man who keeps a drug store, sells all medicines, comes in direct contact with the patients and their families, and knows better than anyone else how remedies sell, and what true merit they have. He hears of all the failures and successes, and can therefore judge: "I know of no medicine for Coughs, Sore Throat, or Hoarseness that had done such effective work in my family as Boschee's German Syrup. Last winter a lady called suffering from a very severe cold. She could hardly talk, and I told her about German Syrup and that a few doses would give relief; but she had no confidence in patent medicines. I told her to take a bottle, and if the results were not satisfactory I would make no charge for it. A few days after she called and paid for it, saying that she would never be without it in future as a few doses had given her relief."
