

and the pleasant entertainment their hostess had provided for them.

Two very heavy hail storms occurred during the day on the 24th inst. at the Halfway House on the Volcano road. Mauna Loa is heavily covered with snow; rather unusual at this time of the year.

Mr. and Mrs. Forrest of Paukaa Plantation invited a number of their friends to a social dance on the 21st, which was eagerly responded to by our young people and enjoyed till the small wee hours warned them another day had come.

Mr. and Mrs. Austin invited Miss Judd and a number of her friends to play euchre, Monday evening, the 23d inst. A very enjoyable evening was the result.

Last week at the Hilo Boarding School, while Mr. Terry was putting up the ice machine recently imported by him, a pipe that had been threaded too deep making it weak, broke, letting the ammonia escape; some of it coming in contact with Mr. Terry's hand, and arm blistered him in a frightful manner, as it also did his two native assistants. At last reports they were all doing well, and nothing serious was expected from their injuries.

ALONG THE WATER FRONT.

Owing to rough weather along the coast the steamer Kinau has been unable to discharge her freight or take any sugar. Her Hilo passengers and freight were landed at Waiakeia.

For a week past we have had no sailing vessels in port.

The schooner Weatherwax from San Francisco is outside bound in 26th.

The bark Annie Johnson is the next vessel expected, looked for any day.

HONOKAA, April 26.—The Waialeale arrived here on Tuesday with a small mail and no newspapers, except a few Californian and Eastern.

The Hawaii is at Mahukona with her foremast damaged, she having experienced some very bad weather coming up. The only mishap, however, was the accident to the mast.

The Kilauea Hou is expected at Paauhau today or tomorrow with freight and Honolulu newspaper mail.

Heavy rains have fallen for three days, and the roads are in a pretty bad condition. Honokaa Sugar Company is still grinding, and the water in the cisterns and reservoirs at Kukuhaele and Piianai is plenty and promises to continue.

Some time ago, while a Chinaman and three Japanese carpenters were working on a cane flume at the crossing of the Hakalau gulch, some planks gave way and precipitated two of the workmen, the Chinese and one Japanese, from the dizzy height into the water ponds of the Hakalau gulch. They immediately sank and disappeared. Some days after the body of the Japanese was recovered, but to this day the Chinaman's body has not been found.

The total number of registered voters here was 31 at 7:30 on Saturday evening, April 21st. Of these 50 are Portuguese, nearly all homestead farmers, seven native Hawaiians, Government officials, and eighteen of other nationalities. All the Government officials and employees registered, except the Hamakua Road Supervisor, Mr. Henry Hall, a rank royalist, and the Captain of the Hamakua Police, William Green. The latter says he will resign at the end of this month.

Influential royalists did all they could to keep the natives away and it is to be regretted that they almost entirely carried their own way.

Mr. Wilson left here for Honolulu via Kawaihae last week, having succeeded in disposing of all the goods in the store.

Mr. James Horner and wife left here for Honolulu through Kawaihae, today. They will board the Kinau at the latter place.

The school attendance at the Government school here on the opening day after the Easter vacation numbered seventy-five boys and girls, nearly all Portuguese. The school board, however, employs as teacher a Kanaka who speaks nothing but Hawaiian.

KOHALA, April 25.—The concert at Kohala Seminary on Saturday night was a great success. It was held in the large school room, and there was sufficient audience to just comfortably fill the room. The programme was varied in character, some assistance being given by outsiders. It was of a suitable length, and the audience did not have a moment's unhappiness. The children's exercises and choruses were all excellent, and perhaps the pleasantest piece of all was the native song, "Ainahu," by the Girl's Glee Club. Miss Maud Wight, Mrs. J. Hind and Mrs. C. S. Kynnersley graciously presided at the piano, and Mr. H. Kempster and Mr. A. Tibbs sang to an appreciative audience. Mrs. J. Hind sang, and Mr. Shorey accompanied with a flute obligato. Mrs. Bond's recitation was well received. The net proceeds of the evening were in the neighborhood of \$100.

There have been many social gatherings of late. Mrs. Kay gave a large dinner party on Tuesday. On Wednesday evening Mrs. Dr. Wight entertained a large party as a farewell in honor of her daughter, Miss Clara Wight, who goes for a long visit to friends in England. A pleasant event of the evening was the presentation of a gold-headed cane to Rev. Mr. Abud by his admiring friends. Mr. Kay did the honors of the occasion in a neat speech, and the surprised recipient replied with much feeling. The invitations were out for a moonlight picnic by Mrs. O. Kempster, but unfortunately the rain prevented it. Miss Hall gave a dance on Friday night, which in spite of the rain was well attended. On Tuesday evening of this week Mrs. C. S. Kynnersley gave a large farewell party in honor of her parents, the Rev. and Mrs. Abud, who after a six months' stay with us depart for their English home by this steamer.

Through the energetic efforts of Mr. Dahl and his colleagues the music hall is approaching completion. It will probably be formally opened May 24th by a grand ball.

Miss H. Wilder is a guest at the residence of Mr. C. Wight at Mahukona. The number of registered voters somewhat exceed 150, and leaving out the Portuguese there are more natives than foreigners.

Lately there has been plenty of rain. Grinding is pretty well over, and some planting has already been done.

The last meeting of the Literary Circle was held at the residence of Mr. Tulloch. There was no definite subject, the various members writing their papers and selecting their readings from favorite authors.

The foreign mail was received per steamer Hawaii on Tuesday. Our mail service has improved immensely during the past few months.

GALLAGHER AGAIN.

Peterson's Brutal Assault is Again Arrested.

Ben Gallagher, who so brutally assaulted Bert Peterson in the Hawaiian Hotel bar room Friday night, was arrested Saturday morning. A little after 4 o'clock that morning Captain Langley went to Gallagher's room and found him there, but with the door locked. Langley told him who he was, and said that he was wanted. Ben refused to get up and, not having a warrant, Langley could not break into the house.

A little after 9 o'clock Ben came down town and was arrested. Peterson had sworn out a warrant charging him with mayhem. Cecil Brown went on his bond for \$1000, and Ben immediately proceeded to build up a fearful and wonderful jag. During the afternoon he wandered into the Criterion saloon and saw Manuel Phillips standing at the bar. Without any warning he went up behind him and struck him on the back of the neck. Phillips turned around, and when he saw who his assailant was he promptly knocked him down. He then seized a heavy mallet that was on the bar, and was going to finish Ben up when some of his friends interfered. He had Ben arrested and charged with assault and battery. He was afterward released on depositing \$500 bail.

Before the Australia sailed Gallagher went down to the wharf. While there he went up to a reporter for the Bulletin and asked him if he was on the ADVERTISER staff. He replied that he was not, and Ben said it was a lucky thing for him that he wasn't, as "he was looking for the man that wrote him up." As three of the papers "roasted" him severely, he must be looking for three men. The Holomua, with its view of the case, will be safe.

C. B. Wilson and "Opium" Brown, who were present at the disgraceful affair, were also arrested on Saturday, and charged with being accessories before the fact. Their bail was fixed at \$1000 each, which was furnished.

Bert Peterson was out Saturday, but was not able to appear yesterday. He is badly bruised, and will feel the effects of Gallagher's brutality for many days. His ear, from which Ben bit a piece an inch and a quarter long, is very sore. He will push the case against Gallagher to its fullest extent. The case will come up this morning in the District Court.

Mrs. Mary E. O'Fallon of Piqua, O., says the Physicians are Astonished, and look at her like one

Raised from the Dead

Long and Terrible Illness from Blood Poisoning

Completely Cured by Hood's Sarsaparilla.

Mrs. Mary E. O'Fallon, a very intelligent lady of Piqua, Ohio, was poisoned while assisting physicians at an autopsy 5 years ago, and soon terrible sores broke out on her head, arms, tongue and throat. Her hair all came out. She weighed but 75 lbs., and saw no prospect of help. At last she began to take Hood's Sarsaparilla and at once improved; could soon get out of bed and walk. She says: "I became perfectly cured by Hood's Sarsaparilla and am now a well woman. I weigh 128 lbs., eat well and do the work for a large family. My case seems a wonderful recovery and physicians look at me in astonishment, as almost like one raised from the dead."

AMERICAN

Union Party of the Hawaiian Islands

For the promotion of the best interests of the people of all the Hawaiian Islands and for the organization of a party having only this object in view, the following is adopted as a declaration of the principles upon which the organization to be known as the "American Union Party" is to be established, and upon this platform we invite the co-operation of every friend of good government.

1st. REPRESENTATIVE GOVERNMENT.—The American Union Party is unalterably opposed to any form of monarchical government in the Hawaiian Islands, and declares its full allegiance to the Provisional Government, endorsing the proposal for a constitutional convention looking to the extension of popular representation in the Government.

2d. POLITICAL UNION.—We declare our leading principles to be the accomplishment of a political Union with the United States of America and the maintenance of a stable and honest Government.

3d. PUBLIC LANDS.—We favor such legislation as will promote the occupancy of all public lands, including those heretofore known as "crown lands," by small holders, and foster the development of varied industries, believing it to be of vital importance that "many acres" should be for "many men."

4th. CITIZENS' RIGHTS.—We declare that all citizens are equal before the law, and we are opposed to monopolies or privileged classes, favoring participation in the Government by every loyal citizen and declare for a liberal suffrage law that will, first of all, guarantee a vote to every man who rendered satisfactory service in the military or police departments of the Provisional Government.

5th. IMMIGRATION.—The evils of Asiatic immigration are so apparent that we declare in favor of its prohibition by positive and prudent methods, declaring in favor of such American, Portuguese or other European immigration as shall supply the necessary labor and furnish the country with permanent settlers.

6th. PUBLIC WORKS.—We favor the immediate establishment of a comprehensive system of public improvements that shall be of permanent value to the country and afford needed employment to the laboring classes, but we declare against importation of labor and material of any kind whatsoever for use on public works which can be obtained in the home market, and materials which must be obtained through local dealers in open competition.

7th. PUBLIC OFFICES.—We hold that no person should occupy any position of trust or profit under the Government who is not loyal to the same.

8th. PRISON LABOR.—We oppose the employment of prison labor in any mechanical pursuits.

9th. TAX SYSTEM.—We favor a revision of the tax system whereby all property, improved and unimproved, shall be taxed on an equitable basis.

10th. LABOR.—We declare that in the Constitution and in legislation thereafter the rights of the wage earner should be fully considered.

11th. EDUCATION.—We favor the enlargement of the scope of the free-school system to the end that a university course may be available to the youth of this country.

12th. TELEGRAPHIC LINES.—We favor the establishment of an inter-island as well as a foreign cable system.
