

The Pacific Commercial Advertiser

Issued Every Morning, Except Sunday, by the

HAWAIIAN GAZETTE COMPANY

At No. 318 Merchant Street.

W. N. ARMSTRONG, EDITOR

THURSDAY, SEPTEMBER 20, 1894.

The fact that Mr. Logan, the editor of the Bulletin, which is a strong and vicious opponent of the Republic, has taken the oath to support the Republic, may or may not have any significance. It, perhaps, means that he believes, on the whole, that the Republic will stand. Whether or not he intends to keep the obligations of the oath remains to be seen. We are bound, in the first instance, to believe in his sincerity, and if he is sincere, it means that the Republic has another supporter. He may be an "advanced thinker" in the royalist ranks.

MR. EMMELUTH'S GRAVE CHARGE.

Mr. Emmeluth's threat, in discussing the matter of the water supply contract, that if the Government did not abandon its "shyster methods," it would meet another Waterloo such as the Thurston Administration met in 1890," demands some action, at once, by the Government. It is a serious charge, because it involves the capacity, and the integrity of Government officials. Mr. Emmeluth should be required to line up for battle now, and not hereafter. If there is to be "Waterloo," let us have it now, and settle the question as to who has the best pull on the "Waterloo."

Mr. Emmeluth is a member of the Advisory Council, and an honest man, and is bound to protect the honor of the Government.

If his charges against the Interior Department are correct, there should be changes made in that department, at once. If on the other hand, on investigation, it is shown that Mr. Emmeluth has been making foolish, untrue, libelous and extravagant statements, let us know it, and know what sort of a man we have for one of the lawmakers.

It is extremely important, in the present condition of affairs, that the purity of the administration of the public offices be maintained. "Shytering methods," charged by Mr. Emmeluth, may include bribery, and they may rank with the crime of smuggling opium, or highway robbery.

Mr. Emmeluth is an honest man, and has done the country great service. A charge, therefore, made by him, becomes especially serious. For if it is true, we may as well hand over the Government to the dethroned dynasty. Our charge against that dynasty was that of general "shytering."

AN ABUSIVE PRESS.

The question is often asked, why does the Government permit the opposition press to persistently use seditious language, and abuse the members of the Government?

In no European country would it be permitted for a moment; not even in England, where there is almost unlimited freedom of the press. In the United States, during the civil war, such language was not allowed, even in the strongholds of loyalty, where seditious language could do no harm.

While we believe that the Executive has been constantly urged to close the seditious press, it has hesitated to do so, as it was, and is, unwilling to use the efficient power at its command in a way which might appear to be arbitrary.

It is the opinion of some that this constant use of seditious language does the Republic more good than harm. It is excellent testimony to its solidity, that it stands, calmly and quietly, while the squirt-guns of abuse play on it. Only a government, which is quite certain of its ability to meet emergencies, can take this attitude.

Besides the members of the Government are very kind, and wish to promote the happiness of even the meanest inhabitant. If some of those who are not pure natives, are dreadfully vexed about the abject political condition of the pure native race, to which they do not belong, and can really relieve the anguish of their souls by dosing themselves every day with the castor oil of personal abuse, why should not the Government allow it? If their walk through this vale of tears is made more comfortable by it, why stop it?

Mrs. McGinniss was abusing her neighbor, Mrs. O'Flaherty, across the garden fence. "If it plases your sowl," said the gentle Mrs. O'Flaherty, "to be afther abusing me, ye can do it, and o'ill put me cat up to listen to ye." The office cat of the ADVERTISER is at the disposal of the Government.

WINES AND LIQUORS

AT AUCTION:

On Saturday, Sept. 22

AT 11 O'CLOCK A. M.,

At my Salesroom, I will sell at Public Auction

19 Cases Assorted Wines!

LOT OF

20 shares of stock Kahuku Plantation Company or less.

10 shares of stock Kahuku Plantation Company or less.

5 shares of stock Kahuku Plantation Company or less.

JAMES F. MORGAN, Auctioneer.

3789-td

September 18, 1894.

If the wet season has begun and will continue until about the time it usually ends the result will be marvelously beneficial to the sugar planters. Last year in Hamakua there was but six inches of rain in six months; this year it starts in a little better. The ground has been dampened and the prospects a few days ago were favorable. If there is one section of the country that needs rain Hamakua is the one. There are some fine plantations in the district and in the days when the conditions were favorable and the rainfall all that could be desired they paid their owners handsomely. Nowadays the rain comes from the North-east, salutes the landsman and then goes on to Hilo.

Forests are known to attract the rain clouds and Hamakua was once blessed with an abundance of trees. A few years ago the people began cutting down the timber and before they were stopped there was scarcely enough left to supply lumber for a cabin. The suffering through this falls not alone upon the plantation: the residents in the villages must go with a short supply for toilet purposes and their clothing has to be sent to Honolulu to be laundried. We remember that less than a year ago the fortunate owner of a well was dispensing the water at five cents a gallon.

Honokaa is a nice little place and the residents are progressive enough to be up with the times; they want water but they have not yet hit upon a plan for getting it. We have canvassed the situation quite thoroughly and know that the water from the spring at the gulch near the landing can be forced to the village by simply using a series of Aermotors. These would not only pump as great a supply as a steam engine but it would do it at a very little cost either for the plant in the beginning or in maintaining it afterward. The Aermotor consumes no fuel, just a little free air and the water flows like water. The 16 foot Aermotor, either pumping or geared is in use in several public and private institutions, as well as on plantations and it has always given satisfaction. The only power used by the Water Works Co., of Waimea, Kauai, is a 16 foot Aermotor. The promoters of the scheme have no trouble in collecting their water rates because they give the consumers an abundance of water. There are plenty of villages on the islands that could be supplied in the same way and as long as the well or stream lasted there would be no danger of running short. We don't get the statements we make regarding the wonderful possibilities of the Aermotor from our imagination; we have demonstrated in many different places that the galvanized Steel Aermotor will do all that is advertised for it and more than can be done by any wooden mill of larger diameter. The Steel Aermotor has other advantages over wooden mills; being lighter it will run in less wind; being constructed of galvanized steel it will not rot away and cause the bolts to drop out. The Aermotor is galvanized after it is put together so that there is no part unprotected.

Another advantage is in the fact that we have every size Aermotor and pump in stock and we can deliver them on thirty minutes notice. Can you get these advantages with other windmills.

THE HAWAIIAN HARDWARE CO., 307 FORT STREET, HONOLULU.

"If It's Hires' It's Good."

When folks drink more Hires' Rootbeer than all other rootbeers combined, there must be something in Hires', and there is—delicious flavor and public confidence.

Undoubtedly the reason of the popularity of Hires' Rootbeer is, because it surpasses all other preparations for making a delightful home-beverage. It is very easily prepared, and if the plain directions are followed, it will always be good. Every member of the family, from the baby to the grandfather, can enjoy this excellent summer drink. Children especially delight in Hires' Rootbeer. Its preparation interests them, and its use does them good. In thousands of homes, "Hires' Rootbeer that mother made," will be among the happiest recollections of childhood.

What others say will carry conviction:

A DOCTOR IS SURPRISED WITH THE RESULTS.

"About three months ago I bought a package of your Rootbeer, and after making it according to directions, I found it a very delicious beverage. Not only this, but I was so much pleased with it that I gave it to some of my patients, and was much surprised with the result. I have now used about 12 dozen. Dr. M. A. Somers, Plano, Ill."

SAYS ITS GOOD FOR DYSPEPSIA.

"I find great relief in drinking your Rootbeer, as I have been troubled with dyspepsia, and should feel very sorry if I could not keep myself supplied with it. I drink it when it is fermented. R. F. Scott, 2519 Meredith st., Philadelphia."

NEVER FOUND ITS EQUAL.

"I have used your Rootbeer for seven years, and have found it a superior article. I have sampled other rootbeer, but have never found any to equal Hires'. I have so much faith in it that I have persuaded ten different families to use it. Mrs. R. Stevenson, 1027 Lincoln Ave., Chicago."

This is typical weather for rootbeer drinking. Drink all the other beverages and you will die of disappointment if you don't try Hires'.

Just sample some once when rightly made, and we know the result—you will endorse Hires'.

It is doing more to advance practical temperance than many people realize. It is used and recommended by the most cautious and conservative temperance people. The most scrupulous abstainer can enjoy it and recommend it to others as an agreeable and healthful substitute for the strong drink which he opposes.

Storekeepers will find Hires' the only Rootbeer extract that has a good sale and can be recommended to their patrons. We give elegant pictorial advertising matter with each order. Liberal discount to the trade.
