

IT IS A QUESTION OF STATE.

Mr. Reynolds Calls for Exhibition of Common Sense.

It would appear that the clear and plainly expressed opinion of your contributor a few days ago has raised a storm of comment simply because he, a decided royalist, should venture to criticize but to endorse over his own signature the action of the Board of Health, but at the same time presume to question the action of the president of that Board. Strange to say he, the president, does not look on me as an enemy, but like a man accepts my criticism.

Now, about the carpenter who cry down the action of the Board in falling in with my idea as to the straightening of Nuuanu stream from King street bridge to the wall opposite Pauoa stream near McGregor's place. My advocacy of this plan came from no considerations of property at stake in individual instances, but simply as a question of State, which I claim to be paramount to all other interests. Axes to grind, with me don't count!

There are at least twenty men employed making the back wall the Government has seen fit to propose and not one protests against the dirty job, therefore why all this opposition to the Government plans being carried out?

Let reasonable men look at reasonable things in a reasonable light. The question is one of tax payers, and I pay a good deal more year in and year out than those who for the sake of newspaper notoriety raise captious objection for what is for the good of the State.

Some have raised the serious question that the railroad wharf has been a menace to the general course of the stream and has thus raised all our present troubles! Well, admitted the fact, did it ever occur to these questionists that the Hawaiian Government of that day deliberately consented to the fact, and that by consent of the Legislature.

Some raise the question that this is an old plan now being acted upon. Well, bless me, can't the devil once in a while set a good example?

The franchise or lease to the railroad does not now figure in the question, because terms once made must be abided by, and the only question now to be considered is the one recommended by the Board of Health to the Government.

A good deal of fear for their own, or somebody else's health, seems to cut a figure just now, for fear some one should start up the cholera scare again because of the mud dug up and deposited on Leleoa flats. The best answer to that is for the objectionists to pass those same flats under present circumstances at any half-moon or full-moon tide! I don't know, but I think they would hail anything that would be an attempt at an improvement.

More could be said, but I think I have covered all the points raised. W. F. REYNOLDS.

South Sea Missionary Work.

Father Bontemps, superior of the Sacred Heart, left Sydney for the Gilbert Islands with nineteen missionaries, July 22d. He took with him 4000 copies of the Gospel of Matthew with illustrations and annotations, 3000 copies of a book of Bible stories with 100 illustrations, 3000 catechisms and hymn books, 1000 dictionaries and grammars of the Gilbert Islands language. It should be noted that the whole Bible has been translated by Rev. Dr. Bingham and thousands of copies put in circulation. Primers, arithmetics, geographies and Bible stories have been in use for many years. Mrs. Bingham has now ready a book of devotional meditations for every day of the month which the Hawaiian Gazette Company will soon print for the Hawaiian Board to send down by the next voyage of the Morning Star.

The Advertiser and the Reader.

Now that advertising has reached a point of commercial honor the advertiser is as important to the reader as the reader is to the advertiser. The latter spends hundreds of millions of dollars annually to tell the reader—the wide awake reader—just what he wants to know—what he should know. It is very kind of him to do this—generous, philanthropic. He is a public benefactor. We say it seriously. It is through him that the reader keeps in touch with progress, with the trend of prices, with inventions and improvements, and these mean something to the man who would spend his money wisely—mean something to the woman who would not be deceived in what she buys, and swindled in the price she pays.—Ex.

FEAT OF A BLOOMER GIRL.

Miss Annie Londonderry's Tour of the World.

BOSTON, Mass., Sept. 25.—Miss Annie Londonderry arrived in this city yesterday morning after a trip around the world on a bicycle. Miss Londonderry is nursing a broken arm, the result of a bad fall sustained in one of the Western towns.

On June 26, 1894, Miss Londonderry started on her trip around the world. She was given a good send-off by several hundred friends, who were at the State House when the start was made. Her trip, she says, was made upon a wager. She was to receive \$10,000 if she finished the journey in fifteen months, and she feels proud of the record she has made. On Thursday, September 12th, the journey came to an end in Chicago, fourteen days ahead of the time allowed.

In addition to the purse of \$10,000, which she says was handed over to her by the parties making the wager, Miss Londonderry also accumulated \$5000 from lectures given in several countries and also by participating in exhibitions of bicycle riding.

Her experience in riding a bicycle was very limited, having taken her first lesson on the day she was to begin her long journey. She soon mastered the wheel, however, and after a few days' riding had very little trouble in getting over the roads. During all of her long trip Miss Londonderry says she met with a royal reception, particularly in Paris, where she was given a grand reception and also made considerable money by lecturing.

Consumption and its Cure

To the Editor:—I have an absolute remedy for Consumption and all other Lung Troubles. By its timely use thousands of hopeless cases have been cured permanently without having Consumed any of the power that I consider it my duty to send to those who are suffering with this terrible disease. I will write for their copies and post office address. Sincerely, W. A. MORTON, M.D., 183 Bond Street, New York.

The Editorial and Business Management of this paper continues the announcement of the above proposition.

The Blues Cured.

Depression and mental depression are more likely than not the result of poor digestion, bodily infirmities or physical decline. A cheering food-medicine, such as

Angier's Petroleum Emulsion

will improve digestion, destroy disease germs, build up the general health, and thus remove the cause of depression. It has been aptly called "Bottled Energy." For throat and lung troubles, and all wasting diseases, it has no equal. 50 cts. and \$1.00.

Our books "Health" and "Beauty" sent free.

STRIKES

Great strikes as a rule entail much hardship and loss to both sides. Blacksmiths are always striking; they also employ strikers. We do not hear of many strikes in Honolulu, but one occurred here the other day—the clocks in Brown & Kubey's store struck because the knives and scissors made some cutting and sarcastic remarks about Brown's stamps being "stuck up" things. Come and see our stock and prices before buying elsewhere.

The Beauty

OF SOME PIANOS

Is only "case deep." It is much easier to make a handsome case than it is to put music into it. A tolerable mechanic can do one—the other requires the best thought of a musical artist. The

Kroeger Pianos

All handsomely, tasteful, durable cases, but in their factory constant, careful, studious attention is given to the production of a perfect and lasting tone. The beauty and honesty of a Kroeger begins with the varnish on the case and goes straight through to the iron plate that holds the strings. We'd like to show you the inside of a Kroeger.
