

Bedroom Set

FOR
\$35.00

With us means a well finished set of seven pieces in Solid ASH or OAK. It means a SET that will not have to be sent back in six months to be glued together.

Every Piece is Thoroughly Seasoned

The workmanship is perfect, and every joint as true as will be found in higher grade goods.

In these days when ladies' fashions rule the world, a cheval glass in a dressing case is indispensable. The full length figure may be seen and a lady can see at a glance whether her skirt hangs straight or not. Another feature of the Dressing Cases in these \$35 Sets is the hat box. The lady of the house can keep her evening hat without crushing it and entirely away from the dust.

The metal work on the Dressing Case and Wash Stand is of the latest design and is remarkable for the richness.

These Sets are superior to any ever shown in Honolulu and command higher prices elsewhere.

An Inspection invited.

LADYBIRDS VS. APHIS.

Professor Koebele Tells of the Pest at Kilauea Plantation.

Pest Will be Wiped Out in About a Week—Cane Retarded a Month or so.

Professor A. Koebele who in response to a call from Kilauea Plantation, left for that place on the Iwalani last week, returned on the same steamer Sunday after having spent several days in the investigation of the work of the aphis, a form of blight discovered to be playing havoc with the cane a short time ago.

A reporter of this paper called at the Arlington Sunday night and learned from Professor Koebele the following story which must needs prove of great interest to all those interested in sugar and the effect of various pests upon the cane:

"A report came to me from Kilauea, Kauai, a fortnight or more ago to the effect that the aphis had attacked the cane and I went up immediately to investigate.

"Manager Ewart took me to the cane fields and I noticed in some places that the leaves of the cane were dead or dying. Closer investigation showed that these leaves were black and that whole colonies of the aphis were upon them. Manager Ewart told me that they had retarded the growth of the cane about a month."

"We went to the places where the pests had been thickest in the beginning and it was found that the cane was in a perfectly healthy condition with the blight all gone. In place of these were myriads of lady birds.

"Throughout the whole plantation I found these lady birds, I should say from one to two hundred strong on each stalk.

"These insects mean business for they are waging effectual warfare against the blight, and before a week is over will completely wipe it out.

"There was nothing for me to do for my friends the lady birds are doing the work."

"Too much cannot be said in favor of the lady birds which were brought her about two years ago. They have proven the saving of the cane at Lihue, the second place on the island of Kauai that has been attacked on the aphis.

SMALL BLAZE.

Fire Department Called to Hustace Stables on South Street.

At about 12:30 p. m. Saturday an alarm of fire was turned in from the Hustace stables on South street near King.

Just a little while previous W. H. Hoogs, who was attending to some matters at the stables, noticed volumes of smoke arising from a large rubbish heap to the rear of the premises. The drivers of the drays were lounging about the yard, having just completed their noonday meal, and had not noticed the fire.

There was soon a big blaze which was urged on by the strong breeze, and there was imminent danger of the fire being communicated to the coal in the shed near by. The Portuguese laborers were set to work beating out the flames until the chemical engine arrived and got in its work. The flames were soon under control. The only damage done was the destruction of the rubbish pile.

It is thought that the fire was started by some boys playing with matches near the rubbish pile.

The Pitman and the Ear Trumpet.

A pitman entering a public house in Newcastle, where an old man was seated near the fire, accosted him with the customary salutation of "Gude mornin." The old man, however, paid no attention, and the pitman repeated his salute in a louder voice. This time his lungs had effect. The old man raised himself up, and taking from a capacious pocket a trumpet of peculiar construction put it to his ear. Our honest pitman stood amazed, but after waiting with the most anxious expectation for some moments while no sound came, he exclaimed, with a disappointed air: "Nay, man, it winna dea. Thou canna play wi' thy lug."—Household Words.

Curiosity Satisfied.

The following is told of an old lady who had had her hair cut off in a severe illness and wore a wig in its place: She was staying in a continental hotel and one day noticed a gentleman looking curiously at her hair. Soon after, on some excuse, he crossed the room to behind where she sat. She calmly got up, turned round, and lifting her hair from her head said, "Yes, sir; it is a wig."—New York Post.

The tear down childhood's cheek that flows is like the dewdrop on the rose, when next the summer breeze comes by and waves the bush, the flower is dry.—Scott

The simplest of many ways of eating an orange is to cut a deep slice from the top and scoop out the juice and pulp with a spoon.

ANOTHER MARRIAGE.

Miss Marguerite McGuire Becomes the Wife of J. J. Reynolds.

At the home of James McGuire in Kalia Saturday night, Miss Margaret McGuire was married to John J. Reynolds of the I. I. S. N. Co., by Rev. H. H. Parker of Kawaiahao. The ceremony was performed in the presence of the family and a few immediate friends only. Mr. and Mrs. Reynolds then went to Sans Souci, Waikiki, where they will spend their honeymoon.

W. W. DIMOND.

This is hot weather, food spoiling weather, unless the proper attention is given to refrigerator suggestions. There's all sorts of devices for keeping food fresh, good, bad or indifferent. Some of the named refrigerators are no better than dry goods boxes; the lining is not tight and the system of draught and air circulation is defective.

In the United States there were complaints against the Gurney, complaints we had not heard of here. When we were at the Coast a few weeks ago, we took the trouble to investigate and learned that the objections were all right, but they were against the Gurney Challenge refrigerator and not the Gurney Cleanable.

We sell the Cleanable; were appointed sole agents for the Hawaiian Islands and we don't sell any other. The Gurney Cleanable is lined with mineral wool, the greatest non-conductor known to science; the Gurney Challenge is lined with charcoal and is a cheap combination that is unservicable.

Foods are easily kept sweet and appetizing with a right refrigerator to help your Summer health is easier kept than regained. There are many refrigerators, some excellent ones but none equal the Gurney Cleanable. Profits are forgotten when we sell them.

Dr. W. W. Dimond.

What Is PURIFINE?

It is the new disinfectant which has superseded all other disinfectants, being a scientific compound, having no odor, yet possessing the qualities of a powerful disinfectant.

The automatic distributor should be placed in every house in Honolulu where odors and germs of disease exist. They are placed free of charge, taken care of and kept working day and night for \$1.00 per month. It's an innovation, but on scientific principles, and appeals to everyone of common sense. The idea is this: The distributor drops two drops a minute, day and night. Foul odors are killed, yet no disagreeable smell of carbolic acid or crude disinfectants takes its place. You don't know that a powerful disinfectant is being used if you judge by the lack of odor. But it's doing the duty—doing it well. Can we show you the "Ideal Automatic Distributor?" Our Mr. Washburn will call, if you'll telephone to
