Better than the men where good things can be bought cheaply. This fact is likely largely accountable for the pre-dominance of women in the trade at this store.

We sell more shoes to women and children than to men.

It ought to be a hint to the men for they know women are shrewd buyers.

We do them perfectly; we do them quickly; we use up-to-date stationery and we charge only 'Frisco prices.

Do you want more convincing arguments? Plenty of them on file. Come and look them over; we'll take pleasure in explaining.

The Ruling Fad

Fac similes of your signature accurately engraved, no matter how badly or how well you write. No matter how many flourishes you affect, we'll portray it exactly as you write it.

The "Four Hundred" are using this style, which for the time being is superseding the plain script; yet for all that it must not be inferred that it is the only correct thing; as even a plain block letter has made its appearance.

Tastes and a leaning to "Fads" have much to do with ruling styles.

We stand ready to cater to your taste.

Our suggestion might help you some also; for you know we keep posted on correct things in that line.
