MEDICOS' GATHER

First Night Session at Y. M. C. A. Hall.

Address By Doctor McGrew. But Few Members Present.

The beginning of the second annual meeting of the Medical Association of Hawaii was held in the rooms of the Y. M. C. A. last night. Dr. McGrew occupied the chair as president of the association.

Those present were: Dr. J. S. McGrew, Dr. Alvarez, Dr. Wood, Dr. H. W. Howard, Dr. R. P. Myers, Dr. Andrews, Dr. Raymond, Dr. Stone of the U. S. S. Adams, Dr. Oliver of Molokai, Dr. Hessler of the U. S. S. Philadelphia, Dr. Mori, Dr. Moore, Dr. Kellogg and Dr. Sloggett.

Dr. Alvarez, secretary, read the minutes of the first annual meeting, which were adopted.

Dr. Howard read a letter from the Hollister Drug Company, as follows: "We beg to hand you herewith a box of cigars, which we hope you will find acceptable and conducive to scientific research."

The present was accepted with a vote of thanks, and immediately the room was filled with thick clouds.

Dr. McGrew addressed the association as follows:

"It is part and parcel of the by-laws that the president deliver an address. I will not have much to say, as there are others here who have papers to read. I do, however, wish to say a few words to you.

"My chief duty and pleasure on this occasion is to extend to you all, gentlemen, a cordial greeting. I feel highly honored to be placed in a position to meet you and to give you a fraternal welcome tonight.

"The underlying principle which actuates all true physicians is an emulation in works of disinterested benevolence—this you have evinced to-day by the sacrifice of your otherwise valuable time in, I hope, showing your devotion to the work of unfolding scientific truths and thereby adding generally to the stock of numeral treasures.

"I am sorry to know that there are several of our physicians who claim that their time is so occupied professionally, that they cannot attend our yearly gatherings. We are therefore deprived of many valuable reports of important cases that have come under their supervision during the past year. I feel that it is the duty of all members of the profession, on occasions like this to be present and aid in every way possible that interests of the profession.

"A new era brings all things new, the perfection of science brings a new era, and what follows in the profession is the improved knowledge in surgery—naval and military—medicine, obstetrics, gynaecology and their collateral branches. Thanks to a merciful Providence, surgery is delivered from the domain of chance. The practical surgeon of today is the master of the situation. He not only proposes, but disposes. It is the increased knowledge of the treatment of wounds that the true philosophy of surgery has been most evinced in recent times. To quote the language of one of our learned professors: 'Knowledge and ignorance, capacity and incapacity, care and carelessness, cannot occupy an equivalent relationship in surgery hereafter.' I may add the same can be said of all the other branches of the profession of today. Antiseptic surgery is doing its work, suffering humanity is to be freed from its deadly poisons; its application is in all cases valuable and the ubiquitous microbe is no more."

Dr. Alvarez as treasurer, reported \$81 received up to the year ending May 25, and \$31.20 expended, leaving a balance in the treasury of \$49.80.

The application of Dr. Kellogg was read and placed in the hands of Drs. Howard and Myers, as a committee appointed by the chairman.

Nominations for officers to serve during the ensuing year were left in the hands of the following Nominating Committee: Drs. Andrews, Wood and Raymond. A short recess was taken and the committee returned with the following nominations:

Dr. Andrews, president.

Dr. Howard, vice president.

Dr. Alvarez, secretary and treasurer.

Drs. Herbert and Myers, members of the Executive Committee.

The secretary was instructed to cast a unanimous ballot for all the above officers.

Dr. Andrews took the chair as president and after a few brief words of thanks for the honor conferred upon him, proceeded to announce the next business.

Dr. Wood, on behalf of the Board of Health, invited all members of the Medical Association to go to Molokai on the next regular semi-annual visit of the Board. Dr. Howard moved that the invitation be accepted, and that the thanks of the association be tendered the Board. Carried.

Dr. Alvarez gave a short talk on the communication of leprosy by insects, and other points, which he did not think deserved a paper. He spoke specially of mosquitoes.

Meeting adjourned until 8 o'clock this evening.

"IT IS THE BEST ON EARTH."

That is what Edwards & Parker, merchants of Plains, Ga., say of Chamberlain's Pain Balm, for rheumatism, lame back, deep seated and muscular pains. Sold by all druggists and dealers. Benson, Smith & Co., agents for H. I.

Pure, Rich Blood

is the soil in which roots life, health, strength, happiness. The soil of the blood can be drained or impoverished like any other soil, and can be fertilized and nourished in a similar way. You can get back the old spring and snap. You can enjoy labor by day and sleep by night. You can eat your food with the

Hearty Appetite

of health, if you only supply the blood with its lacking nutriment; vitalize it, or if you like, fertilize it. A large number of so called tonic remedies are disguised stimulants. Ayer's Sarsaparilla is not a stimulant but a nourishment. It feeds the blood and so enriches it, as well as purifies it. That is why physicians recommend

AYER'S Sarsaparilla

Beware of imitations. The name—Ayer's Sarsaparilla—is prominent on the wrapper and blown in the glass of each bottle.
