**Bargain in Shoes.**

We hear the expression used constantly. So much so that in nine cases out of ten it really has no significance in connection with facts.

A bargain in shoes represents standard value, at the right price and at the right time.

The cheapest is not always the best neither is the best always the cheapest. Buy a good article and you will get satisfactory wear out of it in the long run. Buy a cheap article and it will keep you on the jump continually to duplicate, then you might buy shoes on this basis every week in the year and never get your money's worth. Turn over a new leaf and buy an honest shoe at an honest price. This is the kind of values we offer you.

**A  
Baby's  
Skin**

Is the most delicate of all delicate things, and is more subject to external influences than a grown person's.

The quality of the soap used in the baby's bath is of great importance, because it means a happy, healthy child or a fretful one, with skin full of irritation caused by the excessive alkali in the soap.

Curative-Skin Soap means much to the mother. It is as pure as it is possible to make a toilet soap. It will not cause skin blemishes, but possesses a soothing effect; it cleans but does not irritate. Try a cake. It is its own best advertisement. Made in America, too. Get it of
