CHINESE TO STAY

Will Be No Exodus From Colony Here to the States.

SO SAYS MR. GOO KIM FUI

Not Active Politicians—Do Not Expect to be Discriminated Against. Work and Reward.

Mr. Goo Kim Fui, the Chinese Commercial Agent has for a great many years been the head of the colony of his countrymen here. He is a man esteemed by all who know him and in a business way is thoroughly identified with the Islands. He has stores and rice plantations and has at times been engaged in immigration enterprises. At the request of the Advertiser this representative man gives his views on the future relations of the Chinese to the local Government in its new connection.

First of all, Mr. Goo Kim Fui points to what has been done by the Chinese in the development of the country and emphasizes the fact that at all times they have been industrious and law-abiding citizens and always on the side of orderly and economical administration of Government. Goo Kim concedes that Hawaii has been kind to the Chinese, but insists that the Chinese have been of much direct benefit to the Islands. To them almost alone is due the position of the rice industry. They have been considered choice plantation laborers and have been prominent and successful as mechanics, small tradesmen and merchants of large operations.

The old and the young of the Chinese colony, says Goo Kim, have responded to all calls of the educational and religious missionaries. The workers amongst the Americans for higher civilization have had the heartiest co-operation of the older Chinese and the enthusiastic and earnest and constant attention of the young men and children. The Commercial Agent is well aware of and proud of the value to the community of the Chinese pure and the Chinese half-castes who have shown so much ability in so many directions here and who form an almost essential element.

"Of the future?" repeated Goo Kim. "We have been friendly to the Annexation Government often at the cost of both sentiment and business. We have always been friendly with the natives, but we have realized that well established Government on the lines of the rule in the United States was what was wanted. That seems to be coming and we think we have the right to ask for a share in the results which we have assisted in bringing about. We who are here do not want to be discriminated against. We do not expect to be by the people who know us. On the question of suffrage there is not much to say. All know that our people do not care for politics, but we do think that those of us entitled to the ballot under the old qualifications should have it under the new. Yes I understand that those born here are in the same light as other people born here, but we are suspicious of the men who always make a cry against Chinese because they do not know us.

"I do not think our people will care to go from Hawaii to the United States so long as conditions remain about the same here. They could not do so well in the States. The Chinese who have been in the Islands many years consider their home in Hawaii for all time. They do not think of going back to China.

"It looks to me as though the planters would have to get more Chinese laborers, but may be they must get along without them, for Annexation, as I understand it, stops Chinese from coming any more. May be the Chinese colony will be smaller here in time because other colonies will be so much larger, but we will always work for the best interests of the country and with the best people. We look to Mr. Dole and the men who have been with him in the Government the past five years to always give us consideration, because since the Monarchy was abolished these men have always listened to our appeals and have always given us good advice."

"Sylves."

A letter was received on the Mariposa the other day from the well known young wheelman D. G. Sylvester who left the Islands some time ago to try his fortune in San Francisco. It is to a young friend to whom he confides the news that he is in the best

of health and is getting fat. "There is no place like San Francisco," says the scorcher, "it is nice and cool, some evening I go for a walk up Market street, other time I go to Golden Gate Park on foot. I'm going in the races down here in Sacramento, September 14th. I'll go in 20 miles which will be club race. I'm a member of the Bay City Wheelmen."

Sylvester gives his address as 441 Golden Gate Avenue and sends his aloha to his friends and admirers—male and female, on Punchbowl or on the plains. He is employed in a bicycle repair shop at good wages.

Mohican to Leave.

Rear Admiral Miller received no special telegrams by the Doric on Friday. The list of promotions which was published in the Coast papers of the 13th inst. was interesting reading for some of the officers on board the Philadelphia. The death of Rear Admiral Kirkland (at Vallejo) was sad news to Rear Admiral Miller to whom he was a very near and dear friend. Orders came for the sailing of the Mohican for San Francisco which will take place as soon as the necessary preparations can be completed, probably by tomorrow.

RECEPTION GIVEN TO THE COMMISSION.

Brilliant Gathering at Home of Mr. and Mrs. Sewall.

The reception by Minister and Mrs. Sewall on Saturday evening to the American members of the Commission, was one of the most elaborate social events of the season. It was held at the Minister's residence, Waikiki, beginning at 8 o'clock and closing about 10:30. For the occasion the grounds were brilliantly lighted and the Legation was handsomely decorated with potted plants and flowers. A huge star of electric lamps hung above the pavilion, a hundred yards out over the surf, and two lines of Japanese lanterns were stretched along the walk to it. Another incandescent star surmounted the flagstaff in the front yard. Japanese lanterns were suspended thickly from the trees on the grounds, and there was a wide arch of them over the front gates.

The receiving party consisted of Minister Sewall, Senator Cullom, Mrs. Sewall, Mrs. Cullom and Mrs. Ridgely. Senator Morgan arrived at 9 o'clock and joined the party. Hawaiian visitors were introduced by Attorney General W. O. Smith, President and Mrs. Dole, Minister and Mrs. Cooper, Minister and Mrs. Damon, W. C. Wilder and Mrs. Wilder and Mr. and Mrs. S. M. Ballou were among the number present with the receiving party. Among the first guests to arrive were Admiral Miller and staff, and officers of the Philadelphia and Mohican. Next were Col. Barber and Engineers' Corps, who had arrived in carriages from Camp McKinley. Immediately following them were officers of the N. G. H., who had arrived in busses from town. Then came the public. Several hundred of the best people of the city met the Commissioners.

The details of the reception were most excellent and were splendidly carried out. Refreshments were served on the lanais and grounds all evening. The flagstaff's band played immediately in rear of the house. Besides officials of the Cabinet and their wives, among the large number present were: British Consul Kenney, F. B. McStocker and wife, Geo. W. Smith and wife, Justice Frear, B. F. Dillingham, Dr. C. B. Wood and wife, the Misses Walker, J. A. Kennedy and wife, Prof. Alexander, Professor Pritchett, Governor Cleghorn, Maj. Bartlett and wife, Marshal Brown and wife, J. O. Carter and wife, H. Renjes and wife, Miss Carter, John Ena, wife and daughters, Vice Consul W. Porter Boyd and wife, E. C. Macfarlane, Geo. Macfarlane and wife, J. B. Atherton, Dr. and Mrs. McGrew, W. W. Hall and wife and many others.

THE COMMISSION.

Will Meet Today and Sail for Hawaii This Evening.

The Commission held another session Saturday and will sit again this morning. Up to now the discussion has been on general plans, much of the time being devoted to acquainting the American members with systems already in vogue here. There has been no audience with the ex-Queen, and will not be unless she asks the privilege of visiting the Commission.

The Commissioners will sail by the Claudine at 5 o'clock this afternoon for Maui and Hawaii. President Dole will not go. After seeing both islands to the south the party will arrive back in Honolulu a week from tomorrow.

LACES AND ORGANDIES.

Valencienne laces, 25c a dozen yards; fine French organdies, 5c a yard. The clearance sale will be continued one week longer and new goods, just received, per Warrimoo, will be added to the list of bargains. L. B. Kerr, Queen street.

A WAIKIKI BRANCH

The Telephone Exchange Will Have a Park Station.

MR. CASSIDY'S TRIP TO STATES

Will Investigate and Bring Material. Service to be Improved—in the South—Underground.

Waikiki is to have a telephone station. It will be a branch of the town exchange and will be located in the neighborhood of the terminus of the Tram line, near Kapiolani park. This is one of the matters that takes Mutual Superintendent Cassidy to the United States. Mr. Cassidy leaves next month and will be gone eight weeks. Besides buying for the new station he will investigate extensively for the benefit of the whole town service. Waikiki now has for each subscriber one grounded line. Under the new system there will be to Waikiki ten trunk lines of metallic circuit. This will be a vast betterment for the Waikiki-Honolulu service and will effect a considerable saving to the company, giving more numbers on the present town switchboard. It is believed that ten trunk lines will be ample for Waikiki, if not, more will be placed. At present there are about sixty and there have never at one time been more than eight connections, and frequently some of these connections are Waikiki people talking to each other. With the new station the service will be just as quick and, of course, a great deal more satisfactory than at present. This improvement is but a few months off.

From San Francisco Mr. Cassidy goes by the most direct route to New Orleans and there begins an inspection of the lines of the southern cities, in nearly all of which the system so long and so satisfactorily used here is a fixture. The systems of Atlanta, Birmingham and other places in that section have had to meet and overcome the difficulties which have impaired the service here and Mr. Cassidy can see just how this has been done. The superintendent after finishing in the South will go to New York City, Pittsburg, Philadelphia and finally Chicago. In the States a few years ago there was but one concern selling telephone appliances. Now there are twenty-one houses in various centers, all carrying complete stocks and many having foreign agencies. Many of the exclusive and "royalty" patents have expired quite recently and others are running out. Mr. Cassidy will look into the underground systems that are in use to a limited extent.

Mr. Cassidy, who was formerly with the telephone company for a number of years, took charge again on the 1st of last February and on the 12th of the same month the office was gutted by fire. The fire was all on the inside and the operating room was wrecked and burned. Nothing escaped less than had scorching and the big switchboard was ruined entirely. A new switchboard that has been in use ever since and that is good for a long time yet was designed by Mr. Cassidy on the spot and was built right here, men working night and day until it was finished. Since that time not one dollar's worth of material, excepting what was on hand or could be had here, has been used in repairing or maintaining the plant at the central office. The rebuilt place has been the wonder of all telephone and electrical men who have seen it. In three months the company was compelled to spend \$8,000 and nearly all of it was in labor. This included rebuilding most of the lines on the Ewa side of Alakea street and over the Pali. Many outlying residence districts not heretofore touched have been reached by the system lately. There is a new line on Liliha street to the Insane Asylum, beyond Kamehameha school and through the rice fields beyond Liliha street. There has been done much emergency work in various quarters of the town.

It is the purpose of the company in sending Mr. Cassidy to the States to bring the system here right up to date, though all visitors declare the town has one of the best services in the whole world. The company is looking ahead to the possible use of electricity for power in street car lines and will make provision against interference or damage to the telephone.

There is a probability, rather it is "in the air" at this time, that the Mutual company will leave its present central exchange at the corner of Merchant and Alakea streets and get into the top story of some tall building up town.

The company has been offered a handsome figure for the present central station premises.

While Mr. Cassidy is in the States the superintendency will devolve upon Mr. Reeves, who is now away on a vacation.

Hamilton Murder Case.

In Judge Stanley's court Saturday morning W. D. Hamilton was found guilty of manslaughter in the second degree and recommended to the mercy of the court. Two jurors dissented. It is gathered that they favored a verdict of assault and battery, believing the shooting to have been purely accidental and not intentional. Attorney Davidson gave notice of a motion for a new trial. Sentence will be pronounced at 9 o'clock Wednesday morning. A strong address was made to the jury by Judge Davidson, who conducted the case throughout with marked ability.

THE TETAUTUA.

Captain Cook Writes of Her Safe Arrival in Tahiti.

The Tahitian schooner Tetautua, which put in near Punaluu, Hawaii, a few months ago in distress, has been heard from. After provisioning here she set sail again for her home in the South Seas. Pirate Captain John Cook went on her as "pilot." From him a Honolulu gentleman received the following letter by the Moana:

"Pahite, City of Papeete, July 18, 1898. "Friend Charley:—Arrived here safe and sound, after a passage of thirty-eight days. We stopped at Hoahelne Island one day to get provisions, and reached this place last night. Mail steamer leaves at 9 this morning. Do not know yet what I will do. Give my aloha to all my friends. "Yours truly, "JOHN W. COOK."

LIVE STOCK TRANSPORT.

Ship Tacoma Here With Mules for Manila.

The United States transport Tacoma, Capt. Davis, arrived in the offing last night, fifteen days from San Francisco, with two hundred and odd horses and mules for the troops in Manila. The Tacoma was towed out of San Francisco harbor at 10 o'clock on the morning of the 6th inst. and has had a good passage down.

The Tacoma will not go through the Ballingtag channel, but will meet a towboat sent by Major General Merritt from Manila and will be pulled through the San Bernardino straits to her destination. This was not generally known when she left San Francisco, and many sea-faring men spoke vigorously of the bad policy of letting her sail the dreaded channel. Lieut. Cameron, however, had sent a letter to Gen. Merriam by the Arizona, which will arrive before the windjammer, asking for a steamship to meet her in the straits of San Bernardino, between the islands of Luzon and Samar. This will shorten the journey by some weeks as otherwise she would be forced to take the Ballingtag route, on which she might meet with head winds and a current that defies navigation.

Cemetery Association.

At the meeting of the Oahu Cemetery Association held Saturday morning the following officers were elected: President, A. S. Cleghorn; Vice President, F. A. Schaefer; Secretary, David Dayton; Treasurer, George R. Carter. Trustees—Henry Waterhouse, H. M. von Holt and M. P. Robinson. The meeting was well attended.

Waverley Club.

The directors of the Waverley Club held their August meeting in their new quarters, Waverley block, Saturday evening. The Gulick library was reported received. It is a good collection of books and a valuable addition to the shelves of the club. The new rooms, while small, are very homelike and comfortable.

FOR A FEW
Days: More,
AT THE OLD QUEEN STREET STORE.

These Goods must be closed out within the next few Days and we feel confident that the prices attached, with quality considered, will do the work.
