

THE PACIFIC Commercial Advertiser. W. N. ARMSTRONG - EDITOR. WEDNESDAY MAY 31. DEWEY.

The nation has become Dewey-otic in its admiration of the commander of the fleet that destroyed Spain's naval power at Manila.

If the Admiral should land in San Francisco, and travel across the continent, he would find reminders of his name at every point. The pilot boat "Dewey" would take his vessel to her anchorage.

The New England Steam Baking & Candy Co., Hotel street, manufacture a full line of bread, pastry, cake, ice creams, sherbets, water ices, frozen drinks, hand made chocolates, cream candies and crystallized fruits.

On his arrival in Washington the "Dewey" march would play him from the station to his hotel, and when he left his hotel and approached the White House the President would receive him at the porch and point him to the words in large capitals upon a floating banner.

After he has retired from service Mr. Dillingham may be able to organize him into the Dewey Co. (Limited), and issue one hundred millions of paid up stock on him, with ninety-nine cents assessable.

THE SWEDES.

The U. S. Consul residing in Sweden informs the State Department that the wages of a Swedish laborer are \$48.24 per annum, although, in some places, they are as high as \$75.04.

Of the 325,446 farmers, 276,664 are their own masters, and work their own land. The Consul also states that "good help is scarce."

Although there has been an enormous emigration to the United States, a rate of wages at \$4 per month appears to be insignificant. To this should probably be added the value or cost of board.

Although the Consul states that good help is scarce, the rate of wages continues low for some reason which does not appear. Societies for promoting emigration to America are common, and assist the emigrants without violating the laws of the United States.

builders of States the Swedish farmers have no superiors. More quickly than the Italians or the Portuguese do they adopt Anglo-Saxon ways.

What is needed here is a class of laborers who will civilize slowly. The tendency of a rapid civilization here will be to destroy the present harmonious division of the profits of sugar-making between the laborer and the capitalist.

THE NEGRO WINS.

A jury of white men recently gave a verdict in favor of a negro against some white lynchers to the amount of \$50,000. This verdict, the Minneapolis Times says, is the beginning of a millennium.

The verdict of \$50,000 given to the negro in a civil suit indicates the desire of the whites to treat the negro justly.
