COMMERCIAL.

Ewa shares closed at 28 3/4 asked. There has been a request during the past week for a few shares of this stock at 28 3/4, the closing bid remaining at that figure. About a thousand shares of Ewa could be easily placed at 28.

Waialua continues firm at 108. The decline of the past few days in this stock is due to the crop falling short of Manager Goodale's estimate of 16,000 tons, by some 3,000, owing to the wet weather which has materially reduced the average value of the cane, the heavy downpour keeping the ground in an almost waterlogged condition. The president of the Waialua Sugar Company gives it as his opinion that the depreciation is a false one, and that the stock should be worth par value plus the interest on the investment since the inception of the company, amounting to from \$10 to \$15 a share. The value of the stock thus calculated would be about twelve points higher, or 120.

Oahu Sugar Company stands at 150. Manager Ahrens expects this year's crop to reach 20,000 tons, this amount being his original estimate.

The drop in Honokaa from 31 bid to 22 bid, is supposed to be accounted for by the expected decrease in dividends from 30 per cent to 15 per cent on the first of next month, owing to the crop falling below the original estimate.

Waimea, 87 1/2 bid, 90 asked, and a few shares for sale at the latter figure.

Waikuku, 375 asked, with none on the market.

Pioneer, 100 bid, with a few shares obtainable at 101.

Peepeekeo, 180 asked.

Koloa, 150 bid, 165 asked. Manager McLane reports good prospects of acreage results and a dividend next year.

Ookala closed at 17 1/2, with 17 1/2 bid, only a few shares being available.

Paia, 250. Kona, 50 asked.

ANOTHER NEW BUILDING.

A two-story brick building is to be erected on Maunakea street for the use of a Chinese firm. The building will be from plans prepared by Howard & Train, architects, and will be built of brick, to be painted and trimmed with cement. It is a two-story structure of ninety-seven feet frontage, the basement to be constructed with the object of dividing it into warerooms. The first floor will be occupied by stores, and the second divided into large connecting rooms which can be turned into halls or rented as living rooms, as desired.

LARGE FAMILY HOTEL.

A scheme for a large family hotel capable of accommodating 150 to 200 people, is now under advisement. The structure is to be built somewhere on the plains, the exact locality not being divulged.

There will be a large central building in the colonial style, constituting the hotel proper, in which will be the dining-room, with seating capacity for seventy-five persons, with an elaborate bathhouse service also connected with the building. Twelve cottages of varying design, but conforming with the general scheme of colonial structure, will surround the main structure, the latter being two and a half stories high. The plans are most attractive, and were prepared by Howard & Train.

FINANCIAL MATTERS.

The leading stockbrokers consider the present depression in monetary matters as only temporary, and believe that a short time will see local investors willing to invest their money in dividend-paying stocks.
