

ALL COURTS IN SESSION

"Slaves" Appear Before Judge Estee.

CASE OUSTED BY HUMPHREYS

Supreme Court Heard Arguments in Sand Case Yesterday. New Suits Are Filed.

The Supreme Court was occupied yesterday morning with the case of the Territory vs. Liliuokalani and John Wilson, in which the defendants appeared from an order restraining them from taking sand from Waikiki beach at low water mark.

FEDERAL COURT.

The "slaves" indicted by the Federal grand jury were brought into court yesterday and arraigned by their true names. There were twelve altogether, charged with violating the adultery and fornication sections of the Edmunds act, and they made a queer showing of Honolulu's cosmopolitan population.

Those charged with the lesser crime were H. Yamaguchi and Kudo, Chung Ah Ki and Asa Watanabe, Frank Ricafort and Julia Aparicio, Chung Pui and H. Koesaki and Aparicio. The bail in each case was fixed at \$1,000.

W. M. Campbell, the contractor, and Ohta, the Japanese sub-contractor, who were indicted for violation of the eight hour labor law relating to government contracts, were arraigned yesterday and both entered pleas of not guilty.

Judge Gear was occupied on the Supreme Court bench yesterday morning but he held a brief session in the afternoon.

Judge Humphreys performed his first official act yesterday by removing Dan H. Case as court stenographer, a position he has held since July, 1898.

Honolulu, Oahu, October 31, 1901. Hon. A. S. Humphreys, First Judge, First Circuit Court:

Dear Sir:—Not being conscious of having neglected my duties as official court reporter I do not feel that I can, in justice to myself, resign as you have this morning requested.

You stated you would take action in the matter yourself at 12 o'clock if I did not, and I feel that will be the better course to follow. I do not do this to antagonize you, as I have no such desire, but simply the course that my judgment has dictated.

Respectfully yours, D. H. CASE.

Judge Humphreys thereupon issued the following order:

In the Circuit Court of the First Judicial Circuit of the Territory of Hawaii, at Chambers.

THIS LADIES' GOWN 75c. Made of a good quality muslin; effectively trimmed with embroidery. All sizes. Send for Catalogue of Ladies', Children's and Infants' Wear. I. MAGNIN & CO. 915-922 Market St. San Francisco, Cal.

Order Removing Daniel H. Case, Esq., from the Position of Stenographer: It is ordered that Daniel H. Case, Esq., be and he is hereby removed from the position of stenographer in this court.

And it is further ordered that the clerk of this court do certify and serve a copy of this order upon said Daniel H. Case, Esq., forthwith. Done at chambers, this 31st day of October, A. D. 1901.

A. S. HUMPHREYS, First Judge.

Both papers were filed as a part of the court record. Mr. Case was reappointed by Judge Humphreys a year ago. The Chief Justice is required by the statute to approve the appointment, but it is silent on the question of removal.

It is reported around the Judiciary building that the reason as given by Judge Humphreys for the removal of Mr. Case is that he made out a transcript of the minutes of the Bar Association meeting where charges preferred were against the judge. Mr. Case is secretary of the Association and as such prepared the report of the meeting.

It is not known who is to succeed to the position of court stenographer, but an Arizona man named Williams is, it is said, slated for the job. With both courts in session next week two and perhaps three stenographers easily could be utilized. A good many of the employes about the court rooms are wondering where the lightning will strike next. Judge Humphreys has so far made no appointment of a clerk of courts, to which he is entitled under the act of the recent legislature.

NEW SUITS. The first suit under the section of the Organic Act relating to fisheries was begun yesterday by the Campbell Estate vs. the Territory of Hawaii. Plaintiffs allege that if the citizens of the United States are allowed to take mullet from the waters at Pearl Harbor they will suffer great pecuniary loss.

The judgment obtained by C. H. Brown against the plumber's trust was attached in Circuit Court yesterday by the Pacific Hardware Co., claiming \$10,65 for merchandise sold to defendant in the past two years. Brown is the principal defendant and T. F. Davison and the other plumbers against whom the judgment was obtained in Federal court are named as garnishees.

STEWART MAKES A KICK. Yesterday morning before the Supreme Court commenced Judge Gear heard the motion of T. McCants Stewart to allow him access to the grand jury minutes in the case of Wm. Davis, indicted for assault. Before Stewart began his argument Judge Gear stated that he did not consider the motion favorably, as the grand jury secrets should be kept inviolate. Stewart remarked that in such a case there was no use for him to argue, and that it was very embarrassing to attorneys to have a case prejudged. The argument was ended by the adjournment of court.

COURT NOTES. Judgment was awarded plaintiff yesterday in the case of W. C. Achi vs. Keopulupu.

J. A. Thompson, master, filed a report yesterday approving the accounts of J. O. Carter, guardian for the Hardee minors. Charles Hardee, one of the minors, is now at work and has declined to receive any share of the income until two years time, when he becomes of age. The total receipts for the year were \$7,962.83 and disbursements were \$7,749.08.

Putting Up a Good Argument. The La Insular of America cigar is unlike any other 5-cent cigar as regards shape, quality and workmanship.

It has that Manila flavor and effect so desirable in the tropics. We give each dealer a guarantee whereby he may return the cigars any time within one year and receive purchase price paid in full. Dealer can't get stuck, can he? If out of town buyers return them we'll pay freight charges. Not much risk there either. But don't think that a cigar which we unconditionally back to this extent everywhere, is anything like the cigars made by manufacturers generally. It is altogether different.

It will cost the dealer a little more because it costs us more, but any dealer who has sold the La Insular of America will tell you it is his leader today.

The trade name is registered by us at Washington, D. C. The labels purchased by us of the lithographer and the cigars made under our personal supervision to order. It has taken one year to produce this brand. It is a perfect smoke.

UNDEVELOPED RESOURCES OF THE HAWAIIAN ISLANDS

The following interesting article on the "Undeveloped Resources of Hawaii" appears in the first issue of the Current Encyclopedia, published last July in Chicago:

It may be said that with the exception of the production of sugar, rice, firewood, fertilizers and live stock, and the promotion of irrigation, the development of the natural resources of the Hawaiian Islands has scarcely begun. If irrigation a good beginning has been made, but a great extension of it is very practicable. The same may be said about the production of fertilizers. Several of the small uninhabited islands in the northwestern part of the group have considerable quantities or phosphate guano.

One of these, Laysan Island, has been worked for several years by a local company under a lease from the Hawaiian government. The production of fruit, vegetables and farm products is capable of a large increase. This will be promoted both by a growing local demand, due to an increasing population, and by an improved market for some of these products on the mainland, under the influence of free trade.

The climate and soil of the Territory are most favorable for the growing of fiber plants, in which enterprise some experiments have already been made. There is reason to believe that factories for the manufacture of cordage and dress fabrics supplied with raw material from local production, may be profitable.

There seems to be no good reason why woollen factories for manufacturing the local product might not be profitably carried on. A shoe manufacturing enterprise, to consume the local production of hides, is now being organized in Honolulu.

There is an exotic plant, the acacia

Farnesiana (Kalu), which for many years has grown wild in the arid lands, the flowers of which are valuable for the manufacture of perfume. If such an enterprise should be established, it could be supplied with flowers to an almost unlimited extent.

It is highly probable that the cultivation of tobacco can be made very profitable. The plant seems to be greatly favored by both soil and climate, as it grows wild in several localities.

There is quite a large variety of indigenous trees in the Hawaiian forests, which furnish timber of great beauty and most suitable for the manufacture of furniture. The growth of such trees may be greatly promoted by protection and cultivation.

There is a large variety of fish of good quality in the waters washing the coasts of the Hawaiian Islands. At present, fishing is carried on by means of boats and native canoes, and in the shallow waters of the coral reefs without such means, for the supply of the local demand alone. A considerable portion of the fish caught is salted and dried for home consumption, also. Prices of fish in the larger towns is absurdly high. There seems to be a good opportunity for a considerable development of the Hawaiian fisheries, especially if an outside market could be found for a part of the product.

The principal articles of export to the United States alone during the ten months ending April, 1901, were:

Table with 2 columns: Item and Value. Brown sugar \$17,134,380; Coffee 293,496; Wool 38,992; Hides and skins other than fur 60,793; Fruits, green, ripe or dried 57,001; All other articles 250,700; Total \$17,862,535.

There was a great crowd in attendance at the Yale bicentenary. The principal address was given by Justice Brewer of the Supreme Court. A degree of LL.D. was conferred upon the President.

He is a resident of Brooklyn and has for years taken an active part in the public affairs of Brooklyn. He is 51 years of age. In the mayoralty campaign of 1897 he supported Seth Low, his present opponent, in his own office.
