

Like the flight of the swiftest bird is the progress of a hacking cough into consumption. First cold, then a settled cough, then slow fever, night sweats, and hemorrhages. Don't neglect your cough. Stop it at once and drive away all thought of consumption. Begin as early as possible—the sooner the better—to take Ayer's Cherry Pectoral

most effective remedy for coughs of every kind and in every stage. One of the most annoying coughs is throat cough, where you have that constant tickling in your throat. It comes on worse at night, keeps you awake, and makes you have that smothered feeling in the chest. It hardly seems possible what one dose of Cherry Pectoral will do for this kind of a cough, it brings such marked relief.

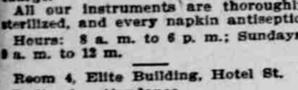

Put up in large and small bottles. When the cough gets down deep in the chest and the lungs are painful, put one of Ayer's Cherry Pectoral Plasters directly over the tender lung. It will draw out all the soreness.

IS CARTOON CONTEMPT? Judge Gear Cites Advertiser's Editor.

HUMPHREYS ALSO MIXES IN Takes Opportunity to Make Attack Upon Attorney General.

The publication of a cartoon in yesterday's Advertiser is held by Judge Gear to be contempt, and acting upon the motion of Attorney Biting, he issued a citation for the appearance of Walter G. Smith, as editor, in court at 9 o'clock this morning. The citation was issued shortly before 1 o'clock yesterday, returnable at 3, but service was not had in time for appearance in court at that hour, and continuance was then granted. In the meantime the case of William McCarthy, which is now on trial, was continued, Biting in his motion asking that the jury now sitting on the case be discharged, as having been prejudiced. Upon the opening of court yesterday morning, Mr. Biting presented a motion for continuance, based upon the following grounds:

"That this cause is set for trial before a jury which has been duly impaneled and sworn to try said cause, upon this the 12th day of March, A. D. 1902, and that this cause is now pending and in progress of trial in this court. That including the allegation in the first paragraph hereof contained and notwithstanding the prohibition of the Commercial Advertiser, published a ridiculous, absurd, libelous and unlawful cartoon, meant and intended to be suggestive and contemptuous of this honorable judge before whom this trial is pending, and tending and intending to prejudice the public respecting the trial of said cause and particularly against the honorable judge now presiding over the trial of this cause, and to obstruct and pervert the administration of justice; and That said publication is a knowing and malicious invention against the court, and was intended and is intended to bring said court into ridicule, contempt, discredit and odium."

Judge Gear took the view that the trial of the case having been started, the cartoon was contempt, and he quoted from the penal code relating to contempt of court. He said further: "Personally, I care nothing about the articles and pictures. They are a source of amusement to me. I took this oath to administer justice to the best of my ability and knowledge of law, and it is a matter of indifference to me how many true animadversions upon me are made. In the present instance McCarthy was released because there is no such crime as mayhem in the Hawaiian statutes. If he had been sentenced he could have been released on habeas corpus. There is no question about that, and if there is any one in Oahu jail serving for mayhem now, he may be released on habeas corpus. The decision was not only mine, but that of Judge Robinson sitting with me."

The court stated further that he had been misrepresented by the papers in their publishing that he had released the Williams boys, when in fact they had been acquitted by a jury. "Time after time," said the court, "the newspapers published comments upon, and wrongful reports of, cases in this court, in total disregard of the penal laws or of decency and right. This court administers law to the best of its ability and knowledge, and if there are errors, they are errors of judgment to which all courts are liable."

Judge Gear continued the matter until 11 o'clock in order to give Biting time to prepare the necessary affidavits and the jury was excused until 2 o'clock. Biting evidently didn't believe the matter of immediate importance, for it was 12 o'clock before he finally leisurely walked into court with the necessary papers, though Judge Gear had been impatiently waiting on the bench for nearly an hour. Judge Robinson and Judge Humphreys appeared with Judge Gear upon the bench when the matter was called up for the second time at 12 o'clock. Biting began to apologize for keeping the court waiting, when Gear interrupted, telling him to present his affidavit. Mr. Biting then began to read the affidavit reciting the trial of the first case against McCarthy, the conviction by a jury, and the subsequent action of Judge Gear in releasing him, on the ground that the crime of mayhem had no place in the Hawaiian statutes. The affidavit was based upon section 257 of the Penal Code of 1897. The affidavit closed with following specific charge: "That on this 12th day of March, A. D. 1902, at Honolulu, Island of Oahu,

(Continued on Page 12.)

BISHOP NICHOLS WILL COME WITH KNOWLEDGE

The American Church Representative Has Met and Heard Bishop Willis and Has Impressions.

(Special to the Advertiser.) SAN FRANCISCO, March 5.—The long drawn out controversy between Bishop Willis and the Second Congregation of St. Andrew's cathedral has deeply interested Episcopalians in California. When the bishop was here a few months ago his striking figure attracted much attention on the streets, and his peculiar costume caused much comment on the part of San Franciscans. It is believed here now that with Bishop Nichols in supreme command Bishop Willis will submit gracefully. Town Talk says:

Now that Bishop Nichols has been appointed to the Hawaiian diocese, his famous bon mot upon the Right Reverend Willis, the incumbent bishop of the Islands, would seem to become a matter of historic humor. Bishop Willis will be remembered as the tall, thin old gentleman who appeared before the Episcopal convention in knee breeches and enlaced calves, and gave a somewhat long and late-for-dinner talk on "What I have done for Honolulu and why you should not put me out of there," at the end of which talk it suddenly appeared to most of the convention that maybe he ought to be put out after all. They wondered how so fat a position could produce so lean a clergyman and feared lest the good man was starving himself to help the poor. Later in the day, Bishop Nichols was approached by a member from New Jersey:

"There is some rumor, Bishop," said the Eastern member, "of Bishop Willis resigning and of the Senate sending you to take his place. What do you think about it?" "What do I think about it?" exclaimed Bishop Nichols. Then he stopped and smiled. "I'm afraid," he said, "that that will not be a case of 'Barkis is willin'," but more probably, of 'Willis is barkin'."

And Willis has barked with a vengeance. CAPTAIN POND. Word comes from the East that Captain Charles F. Pond, of the United States Navy, will soon be stationed here in charge of the Naval Training School on Goat Island. The Navy Department has decided upon his appointment as executive officer of the station, although no public announcement of the fact has yet been made. Captain Pond is now at Washington, D. C., but is expected here in a few days. He has been in the navy twenty-five years, and his valuable services at Honolulu are of course familiar to all readers of the Advertiser.

LECTURE ON HAWAII. M. H. Flint is still talking about Hawaii before large audiences. Flint will be well remembered in Hawaii, as the United States postal inspector, who had charge of the Americanizing of the Hawaiian postal system, and who made many friends while in Honolulu. He is a fluent talker, and having been much

ROBERTS QUILTS TRUST LEADERS Disagrees as to Policy With President Schwab and Resigns.

NEW YORK, March 4.—Dissatisfaction with the business policy of the United States Steel Corporation, in so far as it is directed by President Chas. M. Schwab, caused the resignation today of Percival Roberts Jr. from membership on the executive committee. His withdrawal was accepted, but a successor was not named. The officials of the steel trust and other members of the executive committee endeavored not only to conceal the real reasons for the resignation, but the news was suppressed in the report of the proceedings given out for publication. Roberts has not resigned his membership in the board of directors, but it is not probable that the present steps will be followed ultimately by his retirement from active participation in the control of the United States Steel Corporation. Roberts represented a total capitalization of \$80,000,000. The following statement was authorized by Mr. Roberts tonight: "The reason for the step I can give only in a general way and it was this: For some time I have not agreed with Mr. Schwab regarding certain features of the policy of the corporation which he supports. I regret that I am unable to say more than to base my resignation on the comprehensive ground of failure to agree with the ideas of the president of the corporation and certain phases of the policy of the executive committee. I have not resigned from the directorate. Whether or not I shall resign from the board is a question not to be discussed at present."

impressed by what he saw in Hawaii, he framed an interesting lecture, which, illustrated with lantern slides, he delivers whenever opportunity offers. An evening or so ago he described the beauties of Hawaii to a hall full of people at the Los Angeles Young Men's Christian Association. THE FISH EXPERTS. It is evident that Dr. Gilbert, who heads the piscatorial commission to Hawaii, and who is one of the most distinguished ichthyologists in America, was not liked by the students of Stanford University, at which he has a chair. One of the cleverest graduates of Stanford is Will Irwin, now on the editorial staff of the Chronicle. Irwin writes on Dr. Gilbert in the News Letter as follows: Dr. Gilbert of Stanford University has gone to study the fishes of Hawaii, and there is a great sigh of relief coming up from Palo Alto. Perhaps this is the cause of the great winds that have been sweeping through the city this week and threatening to blow the Donahue fountain into the bay. Be that as it may, I am glad for the students and sorry for the fishes. This medieval inquisitioner and intuitive spy has so long stirred up ill feeling in every community he has entered that I should not be at all surprised that I should find him got wind of his coming and migrate in a body to Labrador or Alviso slough, or some other out-of-the-way body of water where Gilbert is not. When I reflect that the study of fishes is the specialty of Dr. Gilbert of Stanford, I lift a little silent prayer of thanksgiving that I am not a fish.

IN NEED OF INSPECTORS

Commercial Men Discussing Health. NO REASON FOR ALARM JUST NOW Will Aid Attempt to Have Customs Moneys Used for Payment of Fire Claims.

Aid for the Board of Health in its work of sanitation will be furnished by the merchants of the city, if the plans of the Chamber of Commerce and the members of the Merchants' Association, which are to assist by means of inspectors, are carried out. The Chamber heard reports yesterday at its meeting which indicated that there was no fund in the control of the quarantine service for the work which is proposed here, and the committee further said that the conditions in the city are better than had been expected. There were about twenty members of the chamber present when J. B. Atherton called the meeting to order in the absence of both the president and the vice president. Mr. Atherton reported that the committee which had been appointed to look into sanitary matters had made an investigation, and recommended that there be no changes made in conditions, as the state of the public health was such that there is no necessity for alarm. The committee found that there was nothing which was absolutely and immediately necessary, except the providing the Board of Health with a half dozen more inspectors. The Board asked for twelve, and received an appropriation for six only. This made the work very heavy upon that number. To provide the full force there would be necessary an addition to the revenues of the Board of \$500 a month, and it was recommended that this amount be provided. There was some sentiment in favor of a tonnage tax, and others thought there would be nothing done beyond the asking for subscriptions to the amount named. Committeeman Smith, of the Merchants' Association, was present and endorsed the report of the committee. Mr. E. A. Schaefer said that care should be taken that there be careful and thorough inspections made of the city, and that there be funds for the use of the fumigating machines whenever they could be of service. The report of the committee was received and the committee continued, so that it might carry on the work of canvassing for the funds which might be needed for the service. A design for a seal for the Chamber was submitted by Viggo Jacobsen. Mr. Jacobsen has never had a seal, and the design submitted is one of classic mould. The figure of Mercury, copied from the bronze statue by Giovanni di Bologna, executed in the sixteenth century, occupies the center of the seal. This figure has been esteemed by artists as the perfection of manly grace. About the circumference of the seal are the words "Honolulu Chamber of Commerce." The lettering is in keeping, being much the same as that which is most in use in the United States, and which also appears on the new coins of the issue of King Edward. The design was referred to a committee composed of Messrs. Allen, Hall and Lowry. A letter was read from A. L. Morris having to do with the plan for advertising the Islands by means of lectures. The letter was laid on the table. A communication was read from Joseph G. Pratt, a member of the Court of Fire Claims, asking the Chamber to interest itself in the setting aside of a portion of the customs receipts of this port for the payment of fire claims. The Chamber will take steps to add its weight to efforts now being made to this end. Letters were received from William Haywood, accepting appointment as attorney for the Chamber, and from Secretary of the Territory Cooper, asking for information as to the history of the Chamber, and later thanking Secretary Spencer for the able account furnished by him. Colonel Allen called attention to the fact that Mr. Weedon, who lectured in the United States during the past summer was present, and Mr. Weedon made a report of what he had done. Mr. Atherton referred to the character of the work, and a vote of thanks was given to Mr. Weedon, and as well to Mr. Gorham Gilman, who delivered one lecture at Buffalo, with Mr. Weedon's slides.

REPORT AGAINST PANAMA ROUTE Senators Say the Obstacles to Sale Are Now Insurmountable. WASHINGTON, March 3.—At a meeting of the Senate sub-committee on Inter-oceanic Canals today an adverse report was ordered on the proposition of the Panama Canal Company to sell its rights and properties to the United States for \$40,000,000. This sub-committee is composed of Senators Morgan of Alabama, Pritchard of North Carolina, Mitchell of Oregon, Turner of Washington, Kittredge of South Dakota and Foster of Louisiana, all lawyers. The report states that the complications in the way of the transfer of the title to the United States are insurmountable. Pritchard, of the sub-committee, was absent, and Kittredge differed from his colleagues and reserved the right to make a minority report. The majority of the full committee, as is well known, favor the Nicaragua route, but the advocates of the Panama route, under the lead of Hanna, will continue the fight in the committee and in the Senate, where there is undoubtedly a majority in favor of the Panama route. There is no doubt that the recent news from Paris that Colombia would insist that its assent should be obtained before any steps could be taken by the Panama Company to transfer its rights to the United States, had a direct effect upon the deliberations of the sub-committee, and has also influenced the opinions of Senators generally and added in every way to the difficulty of bringing the United States and the Panama Company to the point of negotiations.

MISCELLANEOUS. Mrs. Gladys Piver Ray, who is a sister of Johnny Piver, and who was well known in Honolulu, where her mother kept a boarding house, is now singing in public. She recently sang at a musical piano recital. The concert was as follows: Piano recital by Angelus piano player, assisted by Gladys Piver Ray, mezzo-soprano, and the Victor talking machine. Mrs. Ray was sandwiched in between the machine Paderewski and the phonograph, but did very well I am told. By the way, the use of these mechanical players is becoming so common that a current joke illustrates the possible future: Little Mary—"O, mamma, come downstairs quick. There is a man playing the piano with his hands."

REPORT AGAINST PANAMA ROUTE (Continued) Pritchard, of the sub-committee, was absent, and Kittredge differed from his colleagues and reserved the right to make a minority report. The majority of the full committee, as is well known, favor the Nicaragua route, but the advocates of the Panama route, under the lead of Hanna, will continue the fight in the committee and in the Senate, where there is undoubtedly a majority in favor of the Panama route. There is no doubt that the recent news from Paris that Colombia would insist that its assent should be obtained before any steps could be taken by the Panama Company to transfer its rights to the United States, had a direct effect upon the deliberations of the sub-committee, and has also influenced the opinions of Senators generally and added in every way to the difficulty of bringing the United States and the Panama Company to the point of negotiations.

The majority of the full committee, as is well known, favor the Nicaragua route, but the advocates of the Panama route, under the lead of Hanna, will continue the fight in the committee and in the Senate, where there is undoubtedly a majority in favor of the Panama route. There is no doubt that the recent news from Paris that Colombia would insist that its assent should be obtained before any steps could be taken by the Panama Company to transfer its rights to the United States, had a direct effect upon the deliberations of the sub-committee, and has also influenced the opinions of Senators generally and added in every way to the difficulty of bringing the United States and the Panama Company to the point of negotiations.

REPORT AGAINST PANAMA ROUTE (Continued) Pritchard, of the sub-committee, was absent, and Kittredge differed from his colleagues and reserved the right to make a minority report. The majority of the full committee, as is well known, favor the Nicaragua route, but the advocates of the Panama route, under the lead of Hanna, will continue the fight in the committee and in the Senate, where there is undoubtedly a majority in favor of the Panama route. There is no doubt that the recent news from Paris that Colombia would insist that its assent should be obtained before any steps could be taken by the Panama Company to transfer its rights to the United States, had a direct effect upon the deliberations of the sub-committee, and has also influenced the opinions of Senators generally and added in every way to the difficulty of bringing the United States and the Panama Company to the point of negotiations.
