

Thursday, November 27, 1902

will be a day of thanksgiving observed in every state and territory of the Union.

You no doubt intend to celebrate the occasion, and will have a larger number than usual at your dinner table, requiring a number of additions to the many articles necessary for your table and kitchen.

As usual, you can get them all at DIMOND'S.

We have the assortment and our prices are right. Courteous attention, prompt delivery and guaranteed satisfaction you know you will receive.

W. W. Dimond & Co.,
LIMITED.

Headquarters for Crockery, Glass and Housefurnishing goods. Sole agents for the celebrated Jewel stoves and the Garney refrigerators.

CHEMISTS COMBINE

They Will Have Uniform Plan of Sugar Tests.

"The Hawaiian Sugar Chemists' Association," which has for its purpose uniformity in dealing with the sugar crop of the Islands, was formed at a meeting of chemists of the various plantations, held on Tuesday. This organization was planned over a month ago at a preliminary meeting of the chemists of Oahu, which included not only those of the plantations, but the chemists who are engaged in other experimental work.

At the meeting of the Hawaiian Sugar Planters' Association last week the matter of uniformity of chemical methods in dealing with cane was discussed, and it was decided that an association of the chemists, by which all would work toward a uniform plan, would be of great benefit in providing a general outline by which all plantation work might be guided. The organization, as formed, is not antagonistic to the planters' interests in any way, the union being not so much for the protection of the chemists as for the benefit of the plantations.

The meeting for organization was held in the rooms of the Hawaiian Sugar Planters' Association and the twenty-two chemists were enrolled at that time, most of them from Oahu. The following were the officers elected for the ensuing year: President, C. F. Eckart. Vice president, J. C. Penny. Secretary and Treasurer, Edmund C. Shorey.

The executive committee consists of the above named officers and P. A. G. Messchaert, Oahu; W. McQuaid, Hawaii; Geo. H. Baldwin, Maui; A. Fries, Kauai.

The object of the association is the study of sugar chemistry and the methods of analysis used in effecting chemical control of sugar house work, with the aim of arriving at uniformity both of methods and statements of results.

The work of investigation necessary in order to arrive at uniformity of methods is to be conducted by committees appointed by the president. Much of this work will take some time but the committee on extraction expects to report within two weeks and upon this report the executive committee will probably recommend and publish a provisional method for this branch of the work, to be used during the coming crop.

The intention of the sugar chemists of Hawaii to form such an association was discussed at the meeting of the Planters' Association last week and the association just formed seems to be assured of the support and cooperation of the planters.

CHILD'S MEDICINE— WHY?

Because Scott's Emulsion relieves such an extraordinary variety of children's diseases all the way from slight colds to the serious hip disease.

Because Scott's Emulsion is asharmless as milk. Well borne even by the delicate stomachs of babies.

Because children respond so quickly to its action. A medicine peculiarly suited to their sensitive nature. It is wonderful how rapidly delicate children improve in every way while taking Scott's Emulsion.

Because children like the taste. Most of them like Scott's Emulsion at once. The rest soon learn to like it. Little daily doses bring the results.

We'll send you a little to try, if you like. SCOTT & BOWNE, 409 Pearl street, New York

Honolulu French Laundry

1104 King, near Pihoko Street.
Any one having two and one-half dollars' worth of washing done at one time during the month of December at the Honolulu French Laundry, will be entitled to have done up free a pair of lace curtains, or a lady's wool skirt cleaned and pressed, or a gent's suit cleaned and pressed.

FINAL REPORT BY THE GRAND JURY

Criticism of the Audit Office and Advice to Senate to Take Up Investigation of Treasurer Wright's Escape.

The grand jury made a final report to Judge De Bolt yesterday of the results of its three weeks' investigation of Territorial affairs. The report dealt with a number of interesting subjects, chief of which were of course, the investigation into department bureaus.

The report is rather peculiar, in that though it mentions a number of alleged offenses or irregularities, there is an entire omission of specific reference to the alleged guilty parties.

The system of auditing is criticised, as is the method in vogue in the Public Works Department, while suggestions are made to the Senate to investigate further into the escape of Treasurer Wright.

Criticism is made also of the publication of newspaper reports of the grand jury proceedings.

The report in full is as follows:

Honorable John T. De Bolt, First Judge Circuit Court First Judicial Circuit. Sir:

"The Grand Jury duly empaneled and sworn and charged before you on the third day of November, 1902, having ended its duties, beg to submit the following general report:

"The Deputy Attorney General has brought to the attention of the Grand Jury 51 cases, all of which have been carefully considered and in 38 cases true bills of indictment have been found and in the remaining thirteen cases no bills have been returned, the evidence presented not being considered sufficient to warrant conviction on the respective charges preferred.

"The Grand Jury, under the general instructions contained in your charge, has felt constrained to investigate the following matters and to submit its report on the same:

"Treasury Department: It has investigated the alleged embezzlement in the Treasury Department and a true bill has been found against the Treasurer. In this connection the Grand Jury would call attention to the fact that the Chinese fund from which the money was abstracted had been withdrawn from deposit in a bank and placed in the hands of an official not under bonds and without sufficient guarantee for its safe keeping.

"In the matter of the escape of the Treasurer, all available evidence has been obtained, and it appears to the Grand Jury that due precautions were not taken to provide against the escape of William H. Wright after he had admitted a deficit in the funds under his charge. However the action of the government appears to have been prompted by the desire to recover to the Treasury the amount in default rather than any wish to protect the delinquent official. This Grand Jury recommends that the Senate, now in session, immediately make a thorough investigation as to the responsibility of any government official in allowing the escape of the Treasurer.

"Public Works Department: In the investigation of this department, the Grand Jury have returned true bills against the Superintendent of Public Works and the chief clerk. A proper system of checking accounts and auditing of the same and the regular transfer of the cash to the treasury according to law should have prevented irregularities in this department.

"Investigation indicates that great latitude has been taken in the awards for tenders on advertised bids, and that the law has not been strictly followed in such matters.

"Auditor's Department: The Grand Jury has examined very thoroughly the system and practices of this department and finds much to criticize.

"The different bureaus have been audited infrequently and in the case of public accounts cash has not been counted to verify the balances reported on hand. Cash has not been turned into the treasury at the stated periods required by law. Evidence shows that the auditor has during the present year absented himself from his office an undue proportion of business hours to the detriment of the public service. There seems no system for reporting to the auditor's department either sales, transfers or exchanges of land by reason of which moneys are due to the government, and that statements are not furnished the auditor of such transactions, whereby he may be able to verify collections due the government. The registrar of conveyances should make statements at least once a month to the auditor, of all sales and transfers of government lands that may be entered for record, so that a check may be had on all departments that have it in their power to dispose of public lands, and all such departments should make a statement to the auditor, at least once a month, of all land transactions, the money consideration being the principal data.

"Had proper audit been made in the public works department, defalcations could have been reduced to a minimum.

"A proper system of exchange of receipts between employees of the government, receiving or disbursing cash should be insisted upon.

"Cash should always be counted at the beginning of audits and any discrepancy between the amount on hand and the balance shown on the books investigated. It does not appear that the

Auditor ever counted the cash in the Treasury or the Public Works departments previous to September 24, 1902.

"The grand jury deems it a matter of simple business precaution that all public accountants or employees of the government handling cash should be under sufficient bonds for the faithful performance of their duty.

"Powder Magazine: The attention of the grand jury has been called to the menace to the city by reason of the proximity of the powder magazine to the business portion of the city, the danger of fire from the dwelling of the keeper of the magazine, the practice of fishermen and others of having fires for cooking close to the walls of the magazine and of the location being made a stopping place for the purpose of casuals.

"The grand jury recommends that the magazine be properly isolated or removed from its present location to a place less dangerous to the city.

"Electric Poles: Attention has been called to the condition and number of electric light, trolley and telephone poles which are claimed to be a menace to life and property in Honolulu. If the present laws are inadequate, it is suggested that the legislature provide such protection as may be possible.

"Rapid Transit: It is claimed that there is danger to the public from the speed at which the electric cars are run through the city, especially at crossings and that stops are not made at the crossings of all streets.

"This grand jury would respectfully reiterate the expressions of former grand juries relative to the trivial character of many of the offenses it is by law required to pass upon and suggests that the next legislature take action to the end of bringing the laws of this Territory more in consonance with those of other portions of the United States.

"The grand jury deprecates the practice of a portion of the press of Honolulu in publishing as facts imaginary proceedings before the body; such statements being seemingly made with the purpose of influencing the action of the jury or of persons supposed to be under investigation. The tendency of such publications is to cast reflections upon the integrity of the jurors and create an impression that they have given out facts which they were under oath to keep secret.

"The grand jury calls attention to the case against Makaanoe C. Amana, charged with embezzling government funds. This case has been thoroughly investigated and Mr. Amana is exonerated of the charges against him, and we would recommend that he be restored to the position which he formerly held in the Tax Assessor's office and from which he was suspended pending the investigation of the charges against him.

"In concluding this grand jury desires to express its appreciation of the able, thorough, impartial and courteous manner in which the Deputy Attorney General, Mr. John W. Cathcart, has performed the duties in connection with the present session of the grand jury, and to thank your Honor for the kind consideration it has received at your hands."

Signed by James Gordon Spencer, foreman, John Waterhouse, H. A. Parmelee, A. Gartenberg, A. F. Cooke, W. C. King, E. H. F. Wolters, W. H. Thornton, E. T. Winant, Charles B. Wilson, D. K. Kaeo, A. W. Seabury, M. I. Silva, John C. Lane.

Judge De Bolt thanked the members of the grand jury for their work during the long sessions. "The court appreciates the vast work which has been done by the grand jury," said Judge De Bolt, "and the energetic and business-like method which was used in approaching the task at hand, and also the thorough and systematic manner in which it was carried on. It seems to me that when public interests call for patriotic and honest work, there are always men to respond, and this sentiment was shown in your work." The court also thanked P. C. Jones and A. S. Cleghorn for their work as foremen, they not being present in court, and the remaining members of the jury were also complimented for the results of their labors.

Chamberlain's Cough Remedy is intended especially for coughs, colds, croup, whooping cough and influenza. It has become famous for its cures of these diseases over a large part of the civilized world. The most flattering testimonials have been received, giving accounts of its good works; of the aggravating and persistent coughs it has cured; of severe colds that have yielded promptly to its soothing effects, and of the dangerous attacks of croup it has cured, often saving the life of the child. The extensive use of it for whooping cough has shown that it robs that disease of all dangerous results. It is especially prized by mothers because it contains nothing injurious, and there is not the least danger in giving it, even to babies. It always cures and cures quickly. Benson, Smith & Co., wholesale agent, sell it.

NEW TRUST COMPANY

Firm of H. Waterhouse Changes Its Form.

The Henry Waterhouse Trust Company, Limited, with a capitalization of \$200,000 and the option of increasing the capital to one million dollars, yesterday applied to the Treasurer of the Territory for a charter to do business. The corporation will be a close one, and its place of business will be located at the corner of Fort and Merchant streets. Those signing the application for a charter include Henry Waterhouse, Arthur B. Wood, Albert Waterhouse, Robert W. Shingle and Richard H. Trent.

Henry Waterhouse, who is named as president, has been prominently identified with the business interests of Honolulu for over forty years, in which time he has earned the full confidence of the entire community and a standing with capitalists in the states that makes him a valuable head for the new concern. He is also a director of the Bank of Hawaii and Brewer & Co., besides Waiulus, Honoumou and other sugar corporations.

A. B. Wood, vice president and manager, is well known in both the business and social world. Albert Waterhouse is a son of Henry Waterhouse, and is a member of the board of directors. He is an island boy in the strictest sense of the word, having been born and educated in these Islands. He completed his education in the East about two years ago, when he returned to engage in business. Robert W. Shingle, who will represent the corporation on the Honolulu Stock and Bond Exchange, is secretary. Richard H. Trent, who has been in charge of the accounting department of Henry Waterhouse & Co. for some time past, is treasurer.

The objects set forth in the application cover a wide range of subjects, chief among which are the conducting of a stock and bond brokerage business, operating fire insurance agencies, engaging in real estate and rental transactions, and doing a general trust business. The articles of association provide that the corporation may handle trust funds, act as treasurer for other corporations or associations, serve as guardian, executor, administrator, assignee, and in other fiduciary capacities, and in general look after the business interests of any and all persons or associations of persons who may need the services or assistance of experienced and responsible agents.

A new feature of business for Hawaii is embraced in a clause providing that the company may search records and prepare abstracts of title, and warrant the same, and no doubt this will prove a popular phase of the business in this community, where there is generally more or less doubt as to land titles. In most cases purchasers will be pleased to get a guaranteed title, even at an added expense.

Another feature of local interest just now is the authority asked for on the part of the corporation to act as surety for government officials and employees, and for officials and employees of other corporations and associations, and for guardians, executors, administrators, and others required to give bond.

The Henry Waterhouse Trust Company, Ltd., will fall heir to the good will which has so long been associated with the name of its chief officer, and the new corporation will start out with the best possible prospects of success.
