His insistence drew down upon him the wrath of the court, and the contempt sentence followed.

## WARNER'S

### Rust-Proof Corsets

Just Suited for This Climate

EVERY PAIR GUARANTEED

Rust-proof steel marks a new era in corset making. Rust-proof steel is tempered to a nicety and made non-rustable by a patented process controlled exclusively by Warners. It is the only absolutely rust-proof steel made, and Warners' Rust-Proof Corsets are the only guaranteed rust-proof corsets in the world. If any metal parts of these corsets rust, return them and receive a new pair. Rust-proof doubles the life of a corset, and is for obvious reasons the best for this climate. The shapes give the upright poise to the shoulders, the sloping bust and extended waistline; there are no straight-front corsets that can surpass them in fitting points.

We have 12 styles; \$1.00 and upward.

### Important Reasons

Why Herring-Hall-Marvin Safe Co. Safes and Locks are the Best.

The concrete filling makes these safes absolutely fire proof and positively damp proof. The solid angle corners add greatly to their security in time of fire and form the only solid corners made. The patent Bolt Work is superior to any in use and does not require the constant oiling, cleaning and repairs that is acknowledged in other makes of safes. That although 600,000 of these safes are now in use and many thousands have been tested by some of the most disastrous conflagrations in the United States, there is not a single instance on record wherein one of them ever failed to preserve its contents perfectly. They make safes for county treasurers, county recorders, county clerks, jewelers, hotels, residences, churches and corporations. We have a large assortment of safes on hand and will be pleased to show same.
