

### ROYAL FURNITURE SOLD AT AUCTION

A quantity of relics of royalty was sold yesterday at auction at the Capitol building and there was spirited bidding for the more interesting of the articles.

The handsome clock which has stood in the hallway for years, and which apparently anyone might have stolen, with no one the wiser brought \$290 and was purchased by S. M. Damon. It was said to have been presented to Kamehameha IV by Napoleon III as a peace offering after there had been some trouble between France and Hawaii. There was a number of bidders for the piece, but the contest finally narrowed down to Mrs. Henry Highton and Mr. S. M. Damon.

A Sevres vase also said to have been a present to Kamehameha IV was purchased by Mr. Damon for \$70. It was cracked.

The large koa sideboard was sold to the Kapiolani Estate for \$85 and the same purchaser bought the koa wardrobe for \$100.

W. H. Cornwell bought a small book case for \$1.50 and two chairs. Mr. Damon also bought one of the royal arm chairs.

Henry E. Cooper bought a sideboard for \$50 and two pictures for \$17.50 which closed the sale.

### LONGER LIVES.

We are told that the limit of human life in these days is "three scores years and ten," but if perchance, this period is extended there must be some good and potent explanation. It surely cannot be caused by neglect, as humanity after all its years of turbulent experience, has condemned neglect and carelessness. The law calls for careful lives; the merchant demands careful accountants and employees; the church recommends a careful deportment; the doctor knows that health is a result of care; the nation expects us all to be careful. Hence care is the great element that protects and prolongs life and property. Care means health. If you live in a location where contaminated air visits your lungs you cannot enjoy health. If your house is insanitary your health is endangered. Good plumbing promotes and protects health. Bath, the plumber, can save you expense and annoyance. Install a DOUGLAS PATENT CLOSET! ### Important Reasons

Why Herring-Hall-Marvin Safe Co. Safes and Locks are the Best.

The concrete filling makes these safes absolutely fire proof and positively damp proof. The solid angle corners add greatly to their security in time of fire and form the only solid corners made. The patent Bolt Work is superior to any in use and does not require the constant oiling, cleaning and repairs that is acknowledged in other makes of safes. That although 600,000 of these safes are now in use and many thousands have been tested by some of the most disastrous conflagrations in the United States, there is not a single instance on record wherein one of them ever failed to preserve its contents perfectly. They make safes for county treasurers, county recorders, county clerks, jewelers, hotels, residences, churches and corporations. We have a large assortment of safes on hand and will be pleased to show same. Hardware Dept. Theo. H. Davies & Co., Ltd.
