

**YOU MAY BE WELL.**  
 Only when food digests, when pure blood circulates freely, when the muscles expand and contract without weakness or pain, when the lungs and heart work like parts of a perfectly balanced engine, when the whole body feels light as a bird on a bough, only then are we in condition to appreciate the beauty and excellence of the world in which the good God has placed us. But, dear me! what a host of men and women seldom or never know what real health is. And yet how easy, after all, health is to cultivate and to keep. Diseases arise from living germs, which in some way obtain entrance to the body and act upon various organs through the medium of the blood. All fevers, all strictly localized disorders; diseases of the throat and lungs, affections of the stomach and bowels, etc., have each their seeds. To antagonize and kill these germs, and thrust them from the system, progressive medical science commends **WAMPOLE'S PREPARATION** which is palatable as honey and contains the nutritive and curative properties of Pure Cod Liver Oil, extracted by us from fresh cod livers, combined with the Compound Syrup of Hypophosphites and the Extracts of Malt and Wild Cherry. It acts at once. It promotes digestion and assimilation, destroys the germs that destroy tissue, arrests waste and thus restores health—often in cases which seem hopelessly beyond cure. It does not cure everything but everything it is recommended for; its popularity means the withdrawal of all others from the lime light. It represents medical science of to-day in its best form. Once tried, always used. "You cannot be disappointed in it." Sold by chemists here and everywhere in Europe, Asia, Africa, Australia, North and South America.

**SIBERIA, GIANT OF PACIFIC LINERS, MAKES HER FIRST VISIT TO HONOLULU**

CAPT. T. TREMAINE SMITH  
 COMMANDER OF THE SIBERIA

Captain Tremaine Smith brought the new steamship *Siberia*, the largest in the Pacific Ocean, into port early yesterday morning. Captain Smith was under orders not to arrive until 6 a. m., but violated his instructions by bringing her in ten minutes ahead of this time. For three days the *Siberia* was slowed down, much to the regret of her passengers, because she was running along her course like a greyhound, and would have arrived off port on Monday afternoon had she kept up the gait.

The *Siberia* came into the harbor like a queen, all other vessels paying the homage due to a magnificent vessel by dipping their flags. Whistles screeched and bellowed, and there was every indication along the waterfront that the sister ship of the *Korea* was truly welcome. She docked at Naval Wharf, No. 2, and after the long line of passengers had stepped upon the dock the vessel was thrown open to the inspection of the Honolulu public. Captain Berger and the government band came aboard about 11 o'clock and gave a complimentary concert on the hurricane deck, the passengers then aboard applauding warmly. The *Siberia* departed for the Orient at 11 p. m., taking in 200 tons of coal and leaving 100 tons of freight.

Captain Smith did not attempt to lower any records. The *Siberia* may do this on her next trip across, and it is then expected she will show that she is a four day and twelve hour boat. But what her officers observed on the trip down was that she could be handled easily, and that her machinery was in perfect order.

She brought sixty-four passengers for this port, and there are over a hundred through passengers. Among them were Colonel and Mrs. Samuel Parker and Miss Alice Campbell; Bishop David H. Moore, of the Methodist Church, on his way to the Orient to assume jurisdiction over Korea, Japan and China, accompanied by his family; J. T. McDonough, former Secretary of State of New York, accompanied by Mrs. McDonough, who goes to Manila to fill the position of Supreme Justice of the Philippines, General Blackmar, a well known Civil War veteran, who was received by Commander Dietz and Senator Dickey, representing John W. De Long Post, G. A. R., and General Hart-

well; Count Perigny of Paris, a literary savant en route to India. Henry Scullin, a wealthy young man of St. Louis, who was taking a voyage for his health, was accidentally shot on March 11, while opening a drawer in his stateroom. A .38 caliber revolver was in the drawer and in some manner exploded, a ball lodging in his left thigh close to the hip and ranging upward. He was attended by Surgeon Lutz of the *Siberia*, who failed to reach the ball by probing. Mr. Scullin was taken ashore on the arrival of the steamer yesterday and taken to the Queen's Hospital, where the ball will be extracted. He was subjected to an X-ray examination.

The vessel's officers are: J. Tremaine Smith, commander, who was with the *Peking* for many years. Of his former crew he has J. H. D. Johnson, chief steward of the *Peking*, occupying the same position on the *Siberia*. The other officers are: Chief officer, W. P. S. Porter; second officer, Charles Stewart; third officer, R. H. Simmons; fourth officer, G. A. Whitehead; chief engineer, George H. Ferguson; assistant engineers, J. S. Hamilton and J. D. Morris; Purser H. A. Jerome; freight clerk, W. Robinson; assistant clerk, A. Corn; surgeon, Dr. C. A. Lutz; storekeeper, M. J. Buckley. Her crew numbers 278 men, all told.

The *Siberia* is a sister ship to the *Korea*, but is a trifle larger. Her length is 572 feet, and she is three tons larger in registered tonnage than the *Korea*. The beam is 63 feet, depth 40 feet, draught 27 feet, displacement 18,600 tons. The contract price was \$2,000,000, and the vessel was built by the Newport News Shipbuilding Company.

**Death on the Ventura.**

The Oceanic steamship *Ventura* came into port yesterday morning, fifteen days twelve hours and eighteen minutes from Sydney. The run from Fanning Island to Honolulu was made in two days and twenty hours, and fine weather was experienced throughout. On the way to Sydney from Honolulu on the last trip the *Ventura* was unable to land her mails at Pago Pago, owing to a hurricane then prevailing. On March 14 a passenger named H. H. Groth, who was en route to Honolulu, died. The widow and daughter were met at the Oceanic dock by Mr. G. Kunst of Samoa, who took them in charge. He is an old friend of the deceased.

The *Ventura* carried a large number of passengers from Honolulu, and \$50,000 of redeemed Hawaiian coins, shipped to San Francisco by the First National Bank. The coin was shipped in thirty strong wooden boxes, and sealed. The steamer sailed for San Francisco at 8 p. m., after taking on several thousand sacks of sugar.

**Mail Boat Missing.**

News came yesterday from Lahaina that the mail boat which left there at 11:45 Sunday forenoon for Lanai had not been heard from since, and fears were entertained that it had been swamped and the crew of two Hawaiians lost. A squall which struck a

boat containing George W. Hayselden may have overturned the boat. He saw the boat head about as if to return to Lahaina. It is said the mail boat crew had been drinking.

**Shipping Notes.**

The barkentine *Aurora* will probably sail for San Francisco today. About 3,000 bags of sugar were taken to San Francisco yesterday in the *Ventura*.

The schooner *Marston* cleared for Honolulu from San Francisco on March 9 with a general cargo.

About fifty barrels of lime in the hold of the *Arizonan* at San Francisco were destroyed by bilge water finding its way into the cargo.

The barkentine *Fullerton* cleared for Honolulu from San Francisco on March 8 with 210,000 gallons of crude oil valued at \$9,000. She also carried 7,500 pounds of asphaltum.

A new yacht is being built to compete with the *Myrtle*. The boat will draw six inches of water and will be eighteen feet long, six feet wide, and will be equipped with a centerboard.

Edwin Smith and Fremont Morse, assistants in the United States Coast Survey, have been assigned to duty to determine the difference of longitude between San Francisco and Honolulu.

**LOCAL BREVITIES.**

The band will play at the Oahu Railroad station, Palama, this evening, commencing at 7:30.

Romeo and Juliet was well presented last evening at the Opera House by the Janet Waldorf Company.

At the last moment Miss Bertha Runkle, author of the "Helm of Navarre," concluded not to come here on the *Siberia*, but will take a later steamer.

Dr. Poon Kwai Leung, secretary to the Chinese consul, Dr. Li and other officials of the Chinese consulate were stopped by a quartermaster of the steamship *Siberia* last night and not allowed to board the vessel. The matter may be brought to the attention of the Chinese government.

There were many diners and small dinner parties at the Hawaiian Hotel last night, composed mostly of passengers on the steamers *Siberia* and *Ventura*. The steel magnate McKeague entertained a party, as did also Mr. and Mrs. C. A. Brown and Mr. Peery. Colonel and Mrs. Macfarlane gave a private dinner to Mr. and Mrs. Cornelius Vanderbilt-Barton of New York, who, after a short stay here, will continue their trip to the Orient and around the world, and have so timed it that they will arrive in Japan during the cherry blossom season and festival. The quintette club played at the Hotel during the dinner hour, and there was much life and activity in the hotel surroundings.

**Discuss City Bill.**

At the conclusion of the session of the House yesterday forenoon the following special committee for the consideration of the Long city and county bill was announced by Vice-Speaker Knudsen on behalf of Speaker Beckley: Fourth District (Oahu), S. F. Chillingworth (chairman), and Carlos Long; Fifth District (Oahu), H. C. Vida and D. Kapihea; Kauai, John Gandall; Maui, Samuel Kellinot; Hawaii, A. Fernandez. The committee met at 7:30 p. m. Representatives Long, Vida and Kellinot being present when consideration of the bill was commenced. The Senate committee on city bill met last night for a half hour discussing the Dickey City bill now before the upper house. Many minor changes were made.

**EDITOR TO GO TO JAIL**

**Supreme Court Will Not Disturb the Chinese Libel Case.**

The Supreme Court rendered a majority opinion yesterday sustaining Judge Gear in sentencing Wong Shui King, editor of the *Sun Chun Kwok Bo*, to prison for thirty days. The court, in an opinion by Judge Perry, holds that the article attacking Secretary Poon and his connection with the fire claims was libelous per se, also that the article was understood by those who read it and who knew the complainant.

Justice Galbraith dissents, and says that the libel prosecution simply grew out of the feud between the Chinese, and that the law was not invoked to redress a wrong against society.

Three opinions are given in the case of J. Hayashi vs. F. Iwata and Phoenix Insurance Company, Judge Perry dissenting from the majority, which sustains Judge Robinson. The majority holds that a copy of a summons which does not have the seal or the signature of the clerk of the court is defective and cannot be corrected by amendment. The opinion is written by Judge Galbraith, and Chief Justice Frear concurs, with great reluctance.

Judge Perry, in a dissenting opinion, says that the service on the garnishee is sufficient.

The district court decision is set aside in the case of W. H. Greenwell vs. Frank Gouveia, the court holding that the plaintiff is not entitled to judgment because evidence for the defendant shows title to property to be in the defendant's son.

The Supreme Court refuses to grant a motion for a rehearing in the case of J. D. Paris vs. J. A. Magoon.

**Many Distinguished Travelers.**

W. A. Pinkerton, one of the famous Pinkertons of detective fame, the man who ran to earth the Gainsborough portrait thief, was in town yesterday, a through passenger in the *Siberia* en route to China. Mr. Pinkerton is on a pleasure trip, seeking health and rest. Another pleasure party is headed by George E. McKeague of Pittsburgh, Pa., formerly with the Carnegie Company, and now with the United States Steel Corporation. Mr. and Mrs. Umbstaetter, also of Pittsburgh, are traveling with the former. All may stop here returning.
