JAPS ARE WORKING A NEW SCHEME

The Japanese are working a new scheme in order to get to America, according to reports brought by the Peking. There has been an imperial edict issued prohibiting the Japanese from leaving Yokohama for the United States, and the steamship companies are not allowed to sell through tickets to the mainland to Japanese of the working class. The restriction has not been placed on Hawaii, however, and every steamer brings Japanese to Honolulu. Here they buy new tickets to San Francisco, and often times take passage on the steamer that brought them this far, thus evading the Emperor's orders. The Peking brought 142 Japanese for Honolulu, but a number of them bought tickets here for San Francisco and will go right on through on the Peking. The steamship company is not of course raising any objections to this procedure as it is money in pocket to be able to sell two tickets for the trip, as the price is more than for a through passage.
