MRS. HUGH MORRISON DIES IN GERMANY

Mrs. Hugh Morrison, wife of the late Hugh Morrison, at one time manager of Makaweli Plantation, Kauai, died at Rudenstein, Germany, on August 30. Death was due to an attack of pneumonia which she received while traveling. News of the death came in a cablegram to Alexander & Baldwin. Mr. Morrison was originally manager of Hakalau plantation, then of Hawaiian Commercial and lastly of Makaweli.

HEDEMANN EAST ON BUSINESS

C. Hedemann, president of the Honolulu Iron Works, leaves today on the steamship Sonoma for the East, on an important business mission connected with letting contracts for heavy machinery for Hawaiian sugar plantations. The Iron Works recently secured, among others, a contract for important additions to the milling property of the Makaweli plantation on Kauai. The contracts are to be placed East, and it will be Mr. Hedemann's mission to inspect the work.

Carter on Maui.

The visit of Governor Carter and other officials to Maui, for the purpose of investigating conditions, should lead to very beneficial results. Money long ago appropriated will be turned loose on much needed work. The insufficiency of the appropriation for a courthouse and county building will become apparent, and will doubtless lead to an additional appropriation by the next legislature. It is hoped that the roads on Maui will receive the careful consideration of the Governor, and that the day is not far distant when stages will run from Wailuku to Hana, and a carriage road around the north end of the island will open an avenue to government lands soon to be opened and occupied between Waihee and Honouliuli.

The O. S. S. Sonoma, which was expected from the Colonies last night, will be in today. She will probably get away for San Francisco at about 2 p. m.

A large number of Porto Ricans are working on the site of the old Brewer warehouse on Queen street cleaning brick. They are giving good satisfaction and are being paid \$1 per day, which is considerably more than they received at home.

The County Act Commission will have to work shorthanded in future, as Beckley is on Molokai and Stewart leaves today for the coast. This leaves only Chairman Cooper and Messrs. Crabbe and Watson to do the work. The Commission meets tonight as usual at the Capitol.

Horse Ran Away.

A horse attached to one of the Union Express Company's wagons caused considerable excitement on Queen street yesterday afternoon at about five o'clock. He got loose from in front of the company's office and dashed Ewa ways down the street. Near the California Feed Company's warehouse two men tried to stop him and he suddenly wheeled, barely escaping the water and returned to his starting point. The wagon was not badly damaged.

Return of Regiments.

Honolulu will have a return of retail prosperity in about three months when the War Department begins the work of exchanging regiments between the mainland and the Philippines. The first regiment now in the Philippines, which is to be transferred to the mainland, will probably come home some time in October.

Eyes Examined

There is no calling where accuracy and skill are more in demand than that of the optician. One familiar with the construction of the eye knows that there are many eye-defects which can not be accurately estimated or corrected by the use of test letters and cards alone.

For this reason we use, in our eye examinations, the several different methods that long experience has taught us bring best results.
