Evening—7:00 to 9 o'clock, band concert at the Hawaiian Hotel, followed by an informal reception and a dance, 9 to 12 o'clock.

FINAL DETAILS ARRANGED

Honolulu's first Washington's Birthday Floral Parade will take place today, and it is hoped that its success will make it the forerunner of similar annual events. Given a propitious day, with no rain and plenty of sunshine, the fiesta should be the grandest effort ever attempted here.

The general committee last night completed the details of the parade and issued final instructions to the entrants and it is thought that there will be little difficulty in getting every vehicle and the horseback riders in position.

Sheriff A. M. Brown will be Marshal of the Day, with Walter F. Dillingham as his special assistant. There will also be a full complement of mounted police to assist along the line.

As is generally known, the parade forms at Thomas Square at 9 a. m. and the procession goes through the principal streets down town, as shown in the diagram on this page, and the award and presentation of prizes is to be made at Kapiolani Park. The grandstand there may be entered by

WASHINGTON DELEGATES BUSY

(Mail Special to the Advertiser.)

WASHINGTON, D. C., February 10.—The Hawaiian delegation here in the interest of the refunding bill completed their hearings yesterday before the House Committee on Territories. All in all they had a very busy week and felt no little relief when that portion of their task was over. They have been spending their evenings going over the arguments they expected to make the following day, whereas their days have been filled with affairs of importance at the Capitol. Not until tonight did any of the delegation feel like going out to the theater, although they have been given several dinners, all of which, however, were among friends where a good part of the evening could be given over to consultation.

Col. "Pete" Hepburn of Iowa was the last witness before the House committee in behalf of the refunding bill. He spoke briefly but very forcibly, telling the committee that he regarded the Hawaiian islands as the second most important acquisition of territory this government ever made. He evidently meant that the Louisiana purchase from France was the first most important. He also emphasized the importance of the Hawaiian islands as a means of defense and stated his opinion that if those islands were adequately fortified, the Pacific Coast was safe from invasion. Col. Hepburn favored strongly the voting of 75 per cent of the federal revenues to the territory and also said he favored the federal government contributing to the support of the lepers in Hawaii.

TO PRINT TESTIMONY.

The members of the Hawaiian delegation have been correcting their testimony before the committee and preparing it for publication. It will be printed at the Government Printing Office and probably issued early next week. When they called on Senator Foraker at his residence yesterday, they had a very pleasant talk with him about Hawaiian affairs and persuaded him to fix a hearing for them before his committee on Pacific Islands for next Tuesday. Senator Foraker was loth to do this, because he is much pressed for time, being a member of the Senate ratification committee, which is struggling with the railroad regulation bill. He wanted to defer the hearing, but when he heard of the brief time the delegation has here, he gladly granted them an opportunity.

Whether the Hawaiians will be heard before the House Committee on appropriations is yet to be determined. Some of the members of the delegation have

HOT TALK ON LABOR FROM ATKINSON

"I DON'T CONSIDER MYSELF HERE AS THE AGENT OF THE PLANTERS."

A. L. C. Atkinson, Acting Governor of Hawaii, as president of the Board of Immigration ex officio, through being Secretary of the Territory, made the remark just quoted at a meeting of that body yesterday afternoon.

It was the keynote of the Acting Governor's sentiments throughout a discussion lasting more than an hour and a half, the question at issue being whether or not the Board of Immigration was in a position forthwith to proceed with the scheme of bringing immigrants from the Azores.

Where the clash came between the president on one side and the commissioners present on the other—for there was a clash almost constant; throughout—was where the president laid down the condition that plantations falling to offer fee simple home lots to the immigrants should not be allowed to recruit labor from among them. That is, to the extent of the board's control over the people after landing, which he held to be decidedly limited.

No definite conclusion was reached and the board adjourned to meet again at the call of the chair. In the meantime, as the hope was expressed yesterday, the planters may submit a more uniform basis of action than thus far they have done. The Planters' Association has appropriated a fund of \$399,000 to assist Portuguese immigration from the Azores. Nevertheless the Acting Governor, fresh from conferences with the authorities at Washington upon the question of assisted immigration, strongly intimated in a variety of ways at the meeting that the Board of Immigration of this Territory must not act as a mere annex to the Hawaiian Sugar Planters' Association.

ATKINSON IS GLAD.

Mr. Atkinson, on calling the meeting to order stated that he was glad to be back with the board again. He congratulated the members on the progress made in his absence, mentioning the vote of \$300,000 from the planters. While in Washington he told the authorities that the board here had both the money and the method. He had assured them also of how tactful and careful they at this end of the line would be. It was not the planters but the Board of Immigration which had the responsibility.

With the president were present J. P. Cooke (secretary), J. J. Carden and

CARTER WILL NOT RESIGN

(Associated Press Cablegrams.)

SAN FRANCISCO, February 22.—Governor George R. Carter of Hawaii, who reached here on the steamer Manchuria yesterday, says that he does not intend to resign his office. He will resume his duties as soon as he has recovered his health.

So is the story printed in the Advertiser before the Governor went away to the mainland confirmed by the gentleman himself. Indeed, while there was some talk to the effect that the Governor might not take up the reins again immediately following his illness, as he recovered strength his friends were given to understand that he would not step aside for the present. What he may do when Secretary Atkinson comes of gubernatorial age is, of course, matter for future consideration.

THE DRYDOCK DEWEY REACHES CANARY ISLANDS

WASHINGTON, February 22.—The drydock Dewey has reached the Canary Islands.

The Dewey is one of the largest dry-docks ever built. It was constructed by the government of the United States. The on the Atlantic Coast for service in tow is the longest, and in many ways the Philippines, and is being towed out the most remarkable in marine history.

HEYBURN PURE FOOD BILL HAS PASSED THE SENATE

WASHINGTON, February 22.—The Heyburn pure food bill has passed the Senate.

This is substantially the measure interested packers lived. The bill drawn to prevent food adulteration, by state traffic in deleterious, adulterated and mis-branded foods, liquors and drugs punishable by fine and imprisonment of Congress by Senators from eastern states in whose constituencies the manufacturer.

ENGLAND CONFERS HONORS UPON JAPANESE LEADERS

TOKIO, February 22.—The Prince of Connaught has invested Admiral Togo, Field Marshal Yamagata and Field Marshal Oyama with the order of merit.

The cables yesterday announced that forces of his ally, also, in order to the Mikado had been given the order cement before the world the Anglo-Japanese entente. King Edward, by the land. Evidently King Edward is away, is one of the world's great diplomatic honors upon the leaders of the another demonstration of it.

DISSENSION IS REPORTED IN BANNERMAN CABINET

LONDON, February 22.—Dissension is reported in the Cabinet over the policy to be pursued in South Africa.

It was to have been expected that this was one of the rocks upon which a Liberal government would find shallow water. The South African policy of Chamberlain is distinctly a policy opposed to the traditions of Liberalism. Now, the Liberals must govern it.

One of the things for which Gladstone was most generously abused was his manner of dealing with the Boers. The imperialists changed his system, with results somewhat disastrous at first, but in the end the Transvaal was conquered. Now, the Liberals must govern it.

CUBA GETTING READY TO WELCOME LONGWORTHS

HAVANA, February 22.—Congress has appointed a committee to extend an official welcome to the Longworths.

The Ohio Congressman and his bride, mooning and forget the fact that they who was Alice Roosevelt, are apparent are of the earth's great. Cuba owes a debt to President Roosevelt, and by not to be permitted to go a honey-would pay a part of it to his daughter.

JAPANESE WAR TAXES.

TOKIO, February 22.—The House of Peers has passed the bill providing for the continuation of the war taxes.

NEW GOVERNOR OF PEKING.

SHANGHAI, February 22.—The Toatoi of Shanghai has been appointed Governor of Peking.

WHIP NO MORE SAILORS.

LONDON, February 22.—The practice of birching has been abolished in the navy.

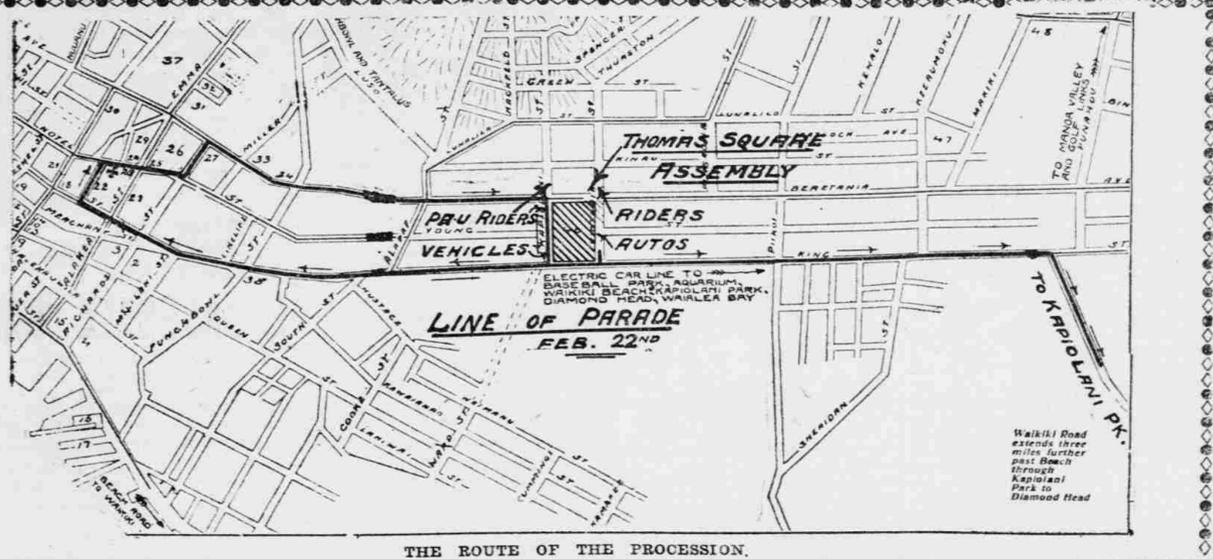

PEKING LEGATIONS ARE WARNED.

(Associated Press Mail Special.)

LONDON, February 15.—The Peking correspondent of the Times says all the legation guards have been warned of danger impending. The secretary of the German Legation has obtained an additional field battery. The position in China is becoming increasingly ugly.

Trouble will probably spread from south to north. The Government, eager to save the dynasty, is seeking to placate foreigners.

Viceroy Yuan Shi Kai, on the pretense of suppressing the Chunchuses, who are absolutely quiescent, is sending six regiments with artillery to Chinchow. It is presumed the real reason for the dispatch of these troops is that the army is honeycombed with secret societies and the Government wishes to remove a dangerous weapon from the neighborhood of the capital.

THE ROUTE OF THE PROCESSION.
