Rev. Rufus E. Nunn predicts an era of disorder in San Francisco, following the reopening of the saloons. A reign of rum, riot and rascality is what he looks for. Women are advised to carry revolvers for their protection. Mr. Nunn also criticizes the distribution of the relief fund.

For the first time in their history the two Kansas Cities were dry on Sunday, July 1. The Kansas end is prohibition and it has been the custom for some 30,000 citizens to spend their Sundays in Kansas City, Missouri. In order to enforce the Sunday closing the Missouri authorities put padlocks on the doors of all joints in their city.

The fast American Line Express, having on board the Americans just landed from the liner New York, jumped the track near London. Twenty-three persons were killed and a number injured. J. P. Morgan and Sir Thomas Lipton assisted in the rescue work. Not all the New-York's passengers were on the train, the late arrival of the liner at Plymouth inducing the others to remain on board.

Eleven prominent men of San Francisco, representing the Merchants' Association, the Chamber of Commerce, the Merchants' Exchange, the San Francisco Board of Trade and the Manufacturers' and Producers' Associations of California, have been named as trustees for the combination of holders of fire policies, associated for protection. The trustees personally represent \$30,000,000 of insurance to be collected.

Hearst has answered Senator Bailey's attack on the "Treason of the Senate" articles by stating that Bailey "began his career in Washington by expressing unwillingness to wear even the conventional dress suit. He ended by wearing tamely and humbly the scarlet livery of the corporations. But while Bailey is willing to wear the trust livery and answer the Rockefeller bell as readily as any other Standard Oil lackey, he does not like to have attention called to his badge of servitude, and at present he is doing his best to hide it and shield himself behind the grave of the dead Senator Gorman."

LIQUOZONE ONCE MORE

Pinkham Makes Answer to Castle & Withington.

Yesterday President Pinkham of the Board of Health opened a new chapter in the Ligozone controversy in the following letter, submitted to the Board of Health for its approval and approved and ordered sent by that body:

Honolulu, Hawaii, July 11, 1906. Messrs. Castle and Withington, Attorneys for the Ligozone Company, Honolulu, T. H.

Gentlemen: I am directed by the Board of Health to state that the Food Commissioner and Analyst of the Board in pursuance of his duties on or about the 5th day of July, 1905, did verbally call the attention of certain vendors of a proprietary medicine called "Ligozone" to Sections 1041-1042 and 1043, Revised Laws of Hawaii and the result of certain analysis of said "Ligozone."

The vendors thus verbally addressed voluntarily placed upon the containers of said "Ligozone" the only label in their possession meeting the exigencies of the case.

The attention of the Board of Health was called to said "Ligozone" at its meeting held August 9th, 1905, but no action was taken other than to place the report of the Food Commissioner and Analyst on the records of the Board.

The attention of the Board of Health at a meeting held December 6th, 1905, was called to a letter of Henry L. Smith, Manager of the Ligozone Company. No formal notice was taken thereof further than the generally expressed opinion, no action was necessary and that no instructions in convention to his action above referred to should be issued to the Food Commissioner and Analyst.

In your appearance before the Board of Health on the 29th of May, you, in its opinion, presented Sections of the law not applicable to the facts and circumstances.

The evidence you submit, as to the character of the preparation, "Ligozone," is of the most exparte nature being confined to assurances, without proof, of Messrs. H. M. Deavitt, Joseph E. Schoen and Cunningham, all employees or directly interested in the financial success of the Ligozone Company.

The assurances by affidavit of the above mentioned Messrs. Deavitt, Schoen and Cunningham would seem to be discredited by a statement on page 2 of a pamphlet accompanying each container of "Ligozone" and is issued by the Ligozone Company, which reads: "No man knows and no man can discover all the properties which give to this product its unique and remarkable power."

Accepting the above statement of the company as correct, the properties, unknown, for injury to health as well as other properties, unknown, for health may exist in "Ligozone," unknown even to the manufacturing chemists.

No evidence has been presented to the Board of Health on which it can base instructions to its Food Commissioner and Analyst to withdraw his verbal notification to vendors of said "Ligozone" to observe the mandates of Sections 1041-1042 and 1043 of the Revised Laws of Hawaii."

Respectfully submitted, L. E. PINKHAM, President, Board of Health.
