HONOLULU HAS SOME UNCHARTED WONDERS

In an article in recent Los Angeles Exchanges dealing with the Chamber of Commerce extension to Honolulu, the sights of Honolulu are set forth as follows:

In the waters of the Islands, several points of interest will be noted including the world famous volcanoes, the city of Honolulu, the big sugar plantations and the cliffs of Diamond Head and the first grave.

The city is one of the most prominent of the world and is a home for many foreign settlers in the Hawaiian Islands.
