HONOLULU, HAWAII TERRITORY, FRIDAY, JULY 30, 1909.

PRICE FIVE CENTS.

CONTRACTORS RETURN TO WORK

Waipahu Men Desert the High Wage Standards.

By tonight all but one of the Japanese contractors will be back at work on Waipahu plantation. The majority of the men went out to the plantation yesterday morning and began making arrangements for getting their workmen together. They visited the camps on the outskirts of the plantation and managed to collect in all something like 125 workmen. They will continue hunting up their men today and tomorrow, and will probably have pretty full contingents of workmen ready when the whistle blows on Monday morning.

The contractors concluded to return to work early this week, but before notifying the plantation authorities of their intention they went over the ground to find out how many men they could count on.

A good many of the men who went to the other islands in search of work are former employes of Waipahu plantation, but it is believed that, when they hear that the contractors have gone back to work, they will return and follow in line.

The contractors are men of considerable influence and it is believed that their return to work will have weight with the field laborers.

NUUANU STREET PROPERTY SOLD

L. L. McCandless Will Erect Two Story Fireproof Building.

L. L. McCandless has purchased from M. B. Silveira the parcel of land bounded by Pauahi and Nuuanu streets and Chapman lane, and will erect a two-story, reinforced concrete office and store building. The agreement of sale has been signed, and the deeds were dispatched to the mainland on the Alameda for signature. The purchase price was \$14,000.

The land has a frontage of 1807 feet on Nuuanu street, 122 feet on Chapman lane and 118.7 feet on Pauahi street. Its area is 22,259 square feet and the price of 62 cents per square foot is considered very low.

Silveira, who sells the property, has lived on the mainland for several years, and all of the negotiations were carried on through agents. The property is considered one of the most desirable parcels in the business district.

It is understood that McCandless contemplates commencing work on the building just as soon as the title deeds have been signed and placed on file. The building will be modern in every way and will be absolutely fireproof.

MOANALUA HURT BY TUMBLE FROM CAR

Moanalua, the demented Hawaiian who delights to stroll about the street garbed with feminine adornments, is lying at the Queen's Hospital in a semi-conscious condition. He fell from a trolley car at Beretania and Emma streets yesterday afternoon.

It was shortly before 6 o'clock last evening that a message was received at the Police Station from the Paragon Meat Market saying that Moanalua was lying in the street unconscious. The patrol wagon was dispatched for the injured man who was conveyed to the Queen's Hospital. After making an examination the surgeon in charge directed that he be left there. His condition is not thought to be dangerous.

Moanalua was riding on the car when he dropped a parcel. He jumped off and landed on his head, being rendered unconscious by the fall.

JUDGE WOODRUFF NOW IN OFFICE

Impressive Ceremonies Attend the Installation of the Jurist.

George W. Woodruff, the new second Judge of the United States District Court, recently appointed by President Taft, was inducted into office yesterday morning with fitting ceremony in the Federal Court room. Most of the members of the bench and bar of Honolulu were present and several addresses of welcome were made, to which the new Judge responded.

Judge Dole administered the oath of office to Judge Woodruff after the commission of the latter had been read by Clerk Murphy. When court convened, Judge Dole was on the bench, Justices Perry and Wilder and Circuit Judge De Bolt being seated with him. Judge Woodruff was seated at the bar, but upon taking the oath of office, assumed his place on the bench with Judge Dole.

Judge Dole instructed Clerk Murphy to file Judge Woodruff's commission with the records of the Court. He then issued an order to the effect that hereafter, with the exception of the first case on the criminal calendar, which will be tried by the first Judge, Judge Woodruff will handle all criminal matters, while civil cases will be tried by Judge Dole.

A pleasant incident of the session was the admission of Governor Frear to practice in the Federal Court.

In his address of welcome to the new jurist, Governor Frear stated incidentally that he was a kind of an outsider there, as he had never been admitted to practice in that court. As soon as he had taken his seat, United States District Attorney Breckons arose and moved the admission of the Governor to practice. The motion was immediately allowed by Judge Dole, and the first official act of Judge Woodruff was to administer the oath to Governor Frear. Mr. Breckons told the Governor not to (Continued on Page Four.)

RIGHT OF WAY TO BE SECURED

County Officials Go Today to Settle Koloanui Beach Business.

County Engineer Gere and Secretary Rivenburgh will leave this morning for Koloanui beach to sign up papers in regard to the right of way for the new road. The survey line runs through several Chinese shacks and it will be necessary to make arrangements for the moving of the buildings before the grading work can be commenced.

The land in question belongs to the Bishop Estate and is held by J. B. Castle on a 50-year lease. Castle, in turn, has subleased to the Chinese. Castle is anxious to have the road built and the Chinese have advanced no objections, though they are anxious to know what provision will be made for moving their houses.

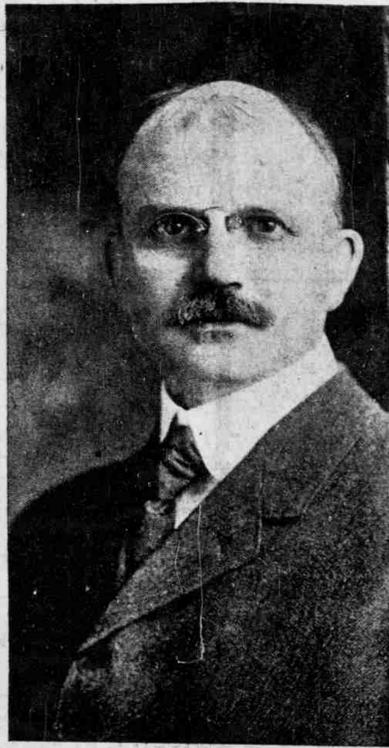

Gere and Rivenburgh will go empowered to promise the Chinese that they will be reimbursed for any loss connected with the cutting through of the road. The Chinese will probably be instructed to move their houses themselves and present their claims to the county.

Rivenburgh and Gere will carry with them the money required to pay off the workmen who made the repairs to Waikane bridge. This money will be turned over to J. K. Paele, road overseer for the district, who will be deputized to make the payments. The Engineer and Secretary will be gone two days.

COUNTY INVOICES ARE ALL BUT COMPLETE

The work of preparing invoices of all territorial property in the possession of the City and County of Honolulu is rapidly being completed. Nearly all of the departments have completed their returns and have placed them in the hands of the Mayor to be submitted to the territorial authorities.

The task of the preparing the invoices was no small one, as frequently it was a difficult matter to determine just what property belonged to the Territory and what to the county. In many instances territorial property had long been worn out and had been replaced at the expense of the county. After the filing of the invoices, all territorial property, worn out through proper use, will be written off and will not be charged up to the county.

GEO. W. WOODRUFF, SECOND JUDGE OF THE UNITED STATES DISTRICT COURT.

EXPERT URGES MANGO GROWING

J. E. Higgins Talks Before the Promotion Committee on Horticulture.

"I believe that both mangoes and alligator pears can be raised commercially at a profit in Hawaii," said J. E. Higgins, horticulturist at the Federal Experiment Station before the Promotion Committee at its meeting yesterday.

Higgins said that the problems of budding both the mango and the alligator pear, which have heretofore militated against the successful raising of the fruits on a commercial basis, have now been solved, and that the way is clear for the development of the mango and the alligator pear industry in Hawaii on the same scale as the orange industry has been developed in Southern California.

"We have been working all this year on mango budding," continued Higgins. "Budding is necessary because the seeds of the mango can not be depended upon to produce the same (Continued on Page Three.)"

PATIENTS MUST OBEY THE RULES

Board of Health Does Large Amount of Business Yesterday.

Inmates of the Kalihi Receiving Station, who have been returned there from Molokai for treatment, or who have been held there for treatment after having been found to be victims of the disease, must either obey the rules and regulations of the institution or forfeit the privilege of remaining at the station instead of being sent to the Settlement. This was decided upon at the meeting of the Board of Health yesterday afternoon, when a motion to that effect was unanimously adopted.

The matter was brought before the Board by President Mott-Smith, who recommended that one girl and two boys now confined at the Receiving Station for treatment there be returned to Molokai on account of their persistent infraction of the rules of the institution. The two boys, he said, apparently think it quite the proper (Continued on Page Two.)"

BISHOP CHARLES W. SMITH ON METHODIST WORK HERE

Originally Thought to be a Needless Division of Christian Forces Now Recognized as Doing Useful Work.

Western Christian Advocate.—Certain facts have come to my knowledge during my recent visit to the Hawaiian Islands, and since, which are of so much interest, and of so much importance to our people in the Islands, that the Church at large should be informed of them. In the first place, let it be understood that heretofore the majority of the Christian people of the Islands, feeling that they were not numerous even taken as a whole, have thought that they should be all united, thus making a combined force for the doing of an aggressive work among the alien peoples surrounding them—a conclusion not without much sound reason. And, as a matter of fact, the great body of the Christian numerical and financial strength is in the Central Union church, made up of representatives of all denominations, and constituting the chief force of the Hawaiian Mission Board. But latterly the population and the religious problems have so increased that a different view of the situation is rapidly gaining ground. Other help is now being welcomed. And so wise has been the management of our affairs that the most cordial relations exist between our

workers and this great local body of Christians. They are coming to recognize the value of our presence and work, and are showing a hearty appreciation of the same. Not only are the relations between the two most cordial, but they are mutually helpful. The Central Union people, having most of the money and much of the influence, are showing themselves very liberal toward our cause. Some of these things are worthy of special mention.

Our people in Honolulu, finding their church building quite inadequate to their growing needs, decided to relocate and rebuild. When this matter was laid before the Hon. Charles M. Cooke, a leading member of Central Union church, he handed them his check for \$5000. A number of other members of that church followed with smaller but liberal contributions. One of them furnished a site for the new church, one of the most desirable locations in the entire city, and upon terms of the most liberal character. The particulars of which I am not now at liberty to state. Of course, our own people, stimulated by their necessities and by these generous offers of their friends, are doing their utmost. But with all they are not (Continued on Page Four.)"

GEN. MARINA CALLS FOR SEVENTY-FIVE THOUSAND MORE MEN

Tariff Conferees Reach Agreement—Twenty-five Thousand Dollar Prize for Flying Race—Cuban Cabinet Resigns.

(Associated Press Cablegrams.)

MADRID, July 30.—The army is hard pressed at Melilla. Gen. Marina asks for 75,000 reinforcements. Complete mobilization of the army has been ordered and the reservists have been called out. All classes have been summoned to the colors.

It is announced that the revolutionists at Barcelona have been defeated with heavy slaughter. The situation there is improving somewhat.

TARIFF CONFEREES AGREE

WASHINGTON, July 30.—The conferees have signed the tariff bill. The bill will go to the House today and to the Senate on Monday. A communication from President Taft finally brought about the agreement.

FORTUNE FOR VICTOR

SEATTLE, July 30.—The Exposition officials have wired Bleriot and the Wrights offering a \$25,000 prize for an aeroplane race here.

PARIS, July 30.—Bleriot will accept the Seattle offer if the Wrights will issue a challenge.

EIGHTY WARSHIPS ASSEMBLE

NEW YORK, July 30.—Eighty warships, the largest international fleet ever assembled, participated in the Hudson-Fulton celebration.

CUBAN CABINET RESIGNS

HAVANA, Cuba, July 30.—The Cuban Cabinet has resigned.

AFTERNOON CABLE REPORT

MADRID, July 29.—The mobilization of the entire Spanish army has been ordered to be effected at once.

Today there occurred a startling demonstration on the part of the populace in the very courtyard of the palace, the war policy being denounced on all hands.

Barcelona is the center of fighting, riotous demonstrations and pillage.

A rumor has gone forth that a form of provisional government has been proclaimed in that city and from other cities of the kingdom are coming reports of their revolting against the government.

Railroad communication between towns is being destroyed, the tracks and bridges being blown up by dynamite.

Six convents in various parts of the country have been given to the flames.

LLANZA, July 29.—Six thousand Moors are attacking Alhucemas. The Spanish loss at Melilla on Tuesday numbered three thousand dead.

LONDON, July 29.—Madame Lillian Nordica, the famous operatic singer, was married here today to George A. Young, a New York banker.

NEW YORK, July 29.—Harry Pulliam, the president of the National Baseball League, who shot himself yesterday, died today.

IS WEICHSSELBAUM YET IN LAND OF LIVING?

If Karl August Weichselbaum is alive he had best apply to the German Consul or he may soon find himself dead. Not that there is any danger of actual murder should Karl fail to apply, but the German law will place him on the list of "Gestorbene" if he does not make his whereabouts known before February 4 next.

Karl August Weichselbaum is, or was, a journeyman locksmith. He was born at Osterhagen in the Hartz mountains in 1869. Later he moved to Elsterberg, and then "emigrated" many years ago to the Sandwich Islands, now a part of the United States of America, according to the notice which the Royal Circuit Court of Elsterberg, Germany, has sent to the German Consul here. It appears that when Karl August

Weichselbaum emigrated to the Sandwich Islands, he appointed the Blacksmith Friedrich Ludwig Riedel of Trieb, his trustee. Now Friedrich Ludwig Riedel has gotten tired of waiting for Karl August Weichselbaum to return to Elsterberg, so he has applied to the Court of Chancery to have Karl declared legally dead.

Should Karl make his appearance and communicate with the Royal Circuit Court at Elsterberg prior to 11 o'clock on the morning of February 4 next, he will save his official life; should he refrain from so doing until 11:15, he will be as dead as though he were buried several feet under ground—at least as far as German law is concerned.

UNCLE SAM'S VOLCANO FORT.

In commenting on the fortifications at Fort Ruger, which it describes as "Uncle Sam's great volcano fort in the Pacific," the New York Mail and Express quotes extensively from an excellent article in the World Today from the pen of E. P. Irwin of the Advertiser staff.
