LOCAL HAPPENINGS OF HALF AND QUARTER CENTURY AGO

Glimpses of the Town and Townsfolk Taken From Advertiser Files of This Week in Years 1860 and 1885.

FIFTY YEARS AGO.

Interisland Postage.

By virtue of another column it will be seen that after August 1st, the new interisland postage law will go into force. The new stamps have been issued and can be purchased at the post-office. The spirit of the new law has before been expressed. We believe it will be found detrimental to the interests of the government, or rather of the native people, for all official correspondence, to and from, is allowed to pass free. However, here that the law is enacted, let it have a fair trial; if it be beneficial, even approximately so, continue it; but if it checks legitimate correspondence, let it be repealed or modified.

Prices Current.

Trade of every description has been depressed during the week. An auction sale occurred yesterday, at which some desirable goods were sold, but prices were generally low. We make a few quotations: 400 gallons Hooed oil, \$1 to \$1.05; 1440 lbs. lard, 18c to 19c; 13 cases loaf sugar, 11 1/2c to 11 3/4c; half lbs. brown sugar, 7c to 7 1/2c; 115 lbs. rice, 5 1/2c to 5 3/4c; per lb. 9 cases brandy peaches, \$5.12 to \$5.62.

Mosquitoes.

A correspondent, newly arrived upon our shores, wishes to know what mosquitoes live upon here when they don't find strangers. We can only recommend patience until he has arrived at the dignity of an old resident, and then he will know, to his cost, that they like tried friends best for a regular diet.

Unadulterated Hypocrisy.

"Whatever tends to good, to banish evil passions, to support the wavering and confirm the upright will ever find sympathy and a spokesman in us."

The above is from the last "Polynesian," where it appears in connection with the temperance movement of the "Dashaways." Now everybody knows that this same government journal has always and invariably sought to cast ridicule on every effort having for its object the freedom of man from the enslavement of rum, and odium on everybody who dares to speak on the subject. Bearing these facts in mind, if the above quotation does not smack of 100 per cent. of hypocrisy, then we have yet to learn what does.

Cheap Horseflesh.

A few days ago there was a sale of horses at Halemanno or thereabouts. Thirty six animals in all were knocked down for the aggregate price of \$72, or \$2 each. A mare with her two darlings went for twenty-five cents.

Not Much Better Now.

It is singular how ignorant some persons are, who have opportunities to gain correct information, and who are expected to know at least as much as is contained in elementary school books. A late number of the New York Herald, in commenting upon the religious revival in that city, in connection with the anniversaries of religious societies, took occasion to say that notwithstanding all the efforts made to civilize the people of the Sandwich Islands, "they were more demoralized now than when in a state of cannibalism." The ignorance of the editor of the Herald is about on a par with that of a London city journal which two or three years ago gave the particulars of an incident, said by it to have occurred in the city of Massachusetts in the State of Long Island.

Muni Wheat.

The schooner Kamoi brought in on Monday, from Kahului, the first cargo of this year's crop of wheat, amounting to about 1200 bushels. It is calculated that 25,000 bushels will be harvested this year in East Maui. The price being 19c and this season is one dollar per bushel. A sale of real estate, sold by order of the Minister of the Interior, took place last week. The lands were located in Nuanuu and Pauoa valleys and the prices received show Honolulu real estate to be valuable. The pasture lands averaged \$24.37 1/2 per acre, palm-land (mountain side) \$1.90 per acre and taro land \$60 per acre.

The clipper ship Phantom, 122 days from Boston, arrived yesterday. Her cargo comprises 500 tons ice and the balance assorted merchandise. Captain Peterson informs us that the ice has not appeared to melt on the passage till reaching the equator some fourteen days ago, since which they have had to pump freely.

A schooner passed the port yesterday without touching, supposed to be from San Francisco, as she came along with the ship Phantom from beyond Maui. She is probably bound to Kona for potatoes.

TWENTY-FIVE YEARS AGO.

Last evening, Engine Co. No. 1 of the Honolulu Fire Department gave a grand ball in the Yosemite Skating Rink. The front of the building was festively illuminated with colored lanterns. From the top of the Bagnole to the sides of the building were two streamers of lanterns and a string of them extended across the roof. A detachment of the Royal Hawaiian Band, under Mr. Berger, played for dancing. Her Royal Highness Princess Ilihuakalani, His Excellency Governor Donnell, Hon. A. S. Cleghorn, His Excellency J. T. Gulick, Minister of the Interior, were among those present. Supper was served in the skating room. The ball was a complete success, and will net the company a handsome sum.

Kenzan Ware

One of the ideals of the famous potterer and artist. Shapes are largely bowl with an occasional design in bouillon cup.

Simplicity is the alpha and omega of every Kenzan design. The back ground in rich cream to a mist grey is relieved by a dash of color worked into plum blossoms, feathery reeds or a quartet of swallows. Crackle effect is noted in some of the pieces.
