## George Dole Gives Trouble.

RIVERSIDE, Dec. 16.—John F. Milner, the slayer of J. S. Darrah, who was convicted to-day of manslaughter, is likely to receive another and third trial because of a peculiar condition of affairs, which is that George H. Dole, foreman of the jury, is a citizen of the Hawaiian republic, Dole is a brother of President Dole of the republic, and, although he has lived here several years, he has never taken out citizenship papers. It is understood that Milner's attorneys will ask for a new trial on the ground stated.

## Strip It.

If the P. C. A.'s wandering woman is stripped there will possibly be found a male Government secret service agent. There was such an animal last year who, when caught in the vicinity of Hotel street, gave that as his reason for the disguise.

## CORRESPONDENCE.

ED. THE INDEPENDENT!

Hawaii is very much in the way of waiting for the verdict, and there is a feverishness and unrest till we get some definite news from Washington. Thus waits the Star. If the administration, the Senate and the House of Representatives are determined to annex the islands as says the Star, wherefore does that feverishness and unrest come in? Methinks the interpretation of the hand writing on the walls of the Senate and House of Representatives, brought by the last mail, is the principal cause of that heavy attack of feverishness and unrest the Star complains of. Those "jubilant royalists," are well content that the Star and company, may enjoy their feverishness and unrest all by themselves without opposition, until the turn of the tide. "As ye have sown so shall ye reap"—oh, ye grasping hypocrites, who would rob a people that for long years supported ye, and gave ye riches in abundance. ANTIOCH.

## Primus

Is the name given a Stove which burns self-made Kerosene Oil Gas.

\* \*

## Economy

Is demonstrated by using the same for what they are intended.

\* \*

## Safety

Is assured in their use as no Insurance Company provides in any way against their use.

\* \*

They are made to last forever and no wick is used.

A quart of cold water can be brought to a boil in three minutes, during which time the stove will consume only one-hundredth part of a quart of kerosene.

Absolutely no danger, smoke or odor, at any time.

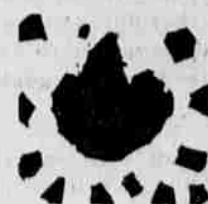

We have a \$2,000 STOCK OF PRIMUS STOVES, RANGES, OVENS AND FURNACES.

Do not come to look into the matter (if you cook), unless you want to invest, as they are too tempting.
