

THE DAILY Honolulu Press Will be for sale Daily at the Following Places: J. M. OAT, Jr. & Co., Merchant street; G. THURM, Fort street; N. F. BURGESS, King street; WOLFE & CO., Cor. King and Nuanuu sts; C. J. MCCARTHY, Hotel street; CRYSTAL SODA WORKS, Hotel street. Five Cents per Copy.

TO-DAY'S ENGAGEMENT. Prayer meetings at the churches 7:30 P. M. Adams & Co. will sell at the residence of the late Hon. H. B. Aulin House, Lot, and furniture at 10 A. M.

Nothing worthy of mention happened at the station house yesterday. There was some surveying done on Alakea street near the Hotel yesterday.

The steamer C. R. Bishop arrived about half past eight last night from Kauai. A lot of machinery all in good order is advertised for sale in another column by Mr. C. Afong.

Owing to some unknown cause, King street seems to receive all the patronage of the builders. Messrs. Lewis & Co. have enlarged their store-room by taking in the place formerly used as a lemonade stand.

The regular meeting of the Y. M. C. A. boys and young men will be held Thursday afternoon at three o'clock. Next Friday evening, a meeting of the "Young People's Christian Endeavor" society will be held at half-past seven, at Fort Street Church.

The local item in the PRESS, regarding the untrimmed tree on the corner of Hotel and Alakea streets, has been noticed and the lower branches have been cut away. Nothing has been done to the schooner Emma since the fire in her fore-castle last Saturday morning.

Mr. Toney C. Afong will sail for China next Saturday by the Lady Harwood. Mr. Afong goes to China in the interest of the Pepeekeo Plantation and will remain there for several months.

"Did you hear the news?" "No, what?" "Why, big 'Dan' the Penian hard-hitter is in town." "No, you don't say so—does he hitterhard?" "Well, we should all smile, but we lock the chance." The General Secretary of the Y. M. C. A. of Honolulu, Mr. S. D. Fuller, after a month's absence, attending the conference held at Napa City, California, is expected to return by the Mariposa.

Last evening, the steamer Kinai took two valuable horses for Mr. Frank Spencer, also 4 mules for the Honoumou Sugar Company. Twelve more mules will be put aboard at Maalea for the same Company.

It is evident that more chances are given the people of Honolulu, than elsewhere, to buy at good bargains almost any useful article—see the advertisement in our column of Lyons and Cohen, auctioneers. Owing to a misunderstanding between the contracting parties in regard to what constituted a skiff or a shore boat, the hundred dollar match between Thos. Patten and Kauakani is liable to be settled off.

Madame Wanek continues to give her many patrons ample satisfaction in her neat and artistic styles of hair dressing, and does quite a thriving business in cutting and shampooing ladies' and children's hair. Mr. Thos. W. Willetts, late manager of the Pawa Dairy, leaves for San Francisco to-day per W. H. Dimond, en route to San Antonio, Texas. He takes with him the alohas and good wishes of his numerous friends.

The subject for meditation and discussion at Fort Street Church prayer-meeting to-night will be "Mission Work." Remarks will be made by Mr. F. Damon, Dr. C. M. Hyde, Rev. W. C. Merritt, Mrs. Southwick and Mrs. McCully. A complete list of water colors, for scene painting, and the necessary articles for the Music Hall are expected by the arrival of the Alameda. The articles will be purchased by Mr. W. G. Irwin, who went to the coast by the last steamer.

A very popular guide for household management of disease is a book entitled "The Practical Home Physician" which is sold by Mr. Thos. G. Thurm at 106 Fort street for \$4.50, while the agents canvassing for the same work throughout the islands sell it for \$8.50. The final orders in reference to the new mail service are expected by the Mariposa, when a new time schedule will be published. In all probabilities the Mariposa will lay over until the 22nd inst., waiting for the Australian mail, which is due on that date.

Although Honolulu is considered to be one of the most isolated of places the varied invoices of the best brands of canned goods, especially excellent prime red salmon, and flour imported by Messrs. Hackfeld, make it appear as if the Islands were in very close connection with America.

During the steeple chase at the Circus Monday night several parties who were standing around the outside of the tent were knocked down by the horses which, after jumping the barriers, were ridden around the outside of the tent.

The foundry crew are at hard training. Although the stakes, amounting to fifty dollars a side, have been placed in the hands of Mr. Kennedy, of the Honolulu Iron Works; neither the style of boats to be used or the length of the course have been decided upon.

A meeting of the rowing association was held night before last and after conflicting arguments the following decision was made: "That a Junior may be one who has rowed with a senior crew in a losing race." The remarkable ruling has caused considerable dissatisfaction among the rowing circles.

The farewell ball given by Mr. T. C. White and wife at Yosemite Rink last night was a thorough success. Over one hundred couples were present. A collation was served during the evening skating and dancing were indulged in, and a pleasant time was the share of all. After many well wishes the party dispersed about twelve o'clock.

Since the arrival of Dr. Goto in Honolulu he has been practicing on the lepers. Under Dr. Goto's treatment Mr. Fisher, who is detained at Kakako and who has attempted suicide several times, has become hopeful that a cure may be effected. Dr. Goto has already given him marked relief during the short time he has been attending him.

The officials at the Station House yesterday morning were the delighted recipients of an eloquent flow of language. The orator was a bereaved inebriate who tried to relate his sad experience with an ungrateful pup which had transferred its affections to a bright eyed youngster, who could then be seen romping around with the alleged subject of fickleness.

The Friend for November is at hand. The various departments of the number are well written and full of interest. Besides the immediate church departments there are short editorial notes and articles on "Holy Time," "Must the White man go," "Bishops and Elders," etc. In the article on the Chinese question occurs the following suggestive sentence: "Five years' residence on the Pacific Coast taught us this fact: No nation can afford to have its white mechanics and working-men brought into competition with the Chinese."

They say: that the circus is the only institution in town that is making money; that the police force is not as bad as it might be, if it had natives at the heads of departments; that the street law ought to be amended at the next Legislature; that the most sensitive politicians are not in office; that the Currency question will be settled on the gold basis, even though the Government does pay its obligations in silver after it collects the taxes in gold; that the new mail service will put money into the pockets of Honolulu shop-keepers; that the people of Makiki are greatly annoyed by Portuguese, living in the neighborhood, who turn their horses out to graze; that some of the native police on King street, beyond the Government Building, are suspected of letting animals out of yards in order to be paid for putting them back; that the last of the Hawaiian Kings will turn up a jack; that the melodious Hawaiian night-warblers are making the taro patch fiddle a little too lively; that the boat clubs will all turn out on regatta day in spite of disadvantages; that the changes lately made in telephone operators are not satisfactory to many people; that the practical working of a monopoly is something like the operations of a steam dredger; that the latest phase of diplomacy will transpire before the end of the month; that the proposed street railway will never be built; that Hilo is preparing to go crazy over her new skating rink; that Hawaiian politics have as many points as a crab; and that some of the gentlemen of Honolulu are the most notorious and untruthful of gossips.

The following paragraph taken from the San Mateo County, California, Times and Gazette, edited by Mr. R. S. Smith, formerly editor of the Saturday Press, will be found locally interesting: "The Hawaiian Islands have had several San Mateo County residents in recent years. Rev. and Mrs. T. H. House of San Mateo, were at Makawao on the island of Maui during the years 1879-84, leaving there early this year. They spent the summer in Portland, Maine, and will live hereafter in Florida. Mr. J. D. Marline, formerly a foreman in the employ of the Spring Valley Water Works, was at work several years as field overseer on the large plantation at Spreckelsville, Maui. He is now in charge of the only saloon on the island, located in the town of Wailuku. Mr. John Sullivan, for many years engaged in breaking and training horses on Mr. Stephen Whipple's Hamel-tonian Stock farm, San Mateo, has now an interest in the Fashion Stable, the best paying livery and hack stable in Honolulu. Mr. Sullivan was recently married to a Miss Hassinger, daughter of a highly respected citizen of Honolulu. Mr. Tracy Macdonald, formerly of Spanishtown, owns a baggage express wagon in Honolulu, and makes a comfortable living. Mr. Alex. McClellan, from San Mateo, is driving the Government wagon used in street cleaning. Mr. James Oliver, brother of Blacksmith Oliver of Belmont, now insane, is at work at gardening in Honolulu. Miss Susie Potter, sister of Superintendent Potter of the Poor Farm, is in Makawao, Maui."

The Attorney-General, Hon. Paul Neuman, will have one the most attractive and comfortable residences in Honolulu when his new house on King street is completed. It is built in the center of well laid out grounds. Being a large frame building with left and right wings. There are twelve large, well ventilated rooms in all, besides the hallway seven feet wide, which extends the length of the building. The parlors are connected with folding doors. The size of the front parlor is 25x18 feet. The left wing, looking from the street, will be used as a dining room and the right wing will be Mrs. Neuman's boudoir. The hallway dining room and parlors will be in finished walnut. The windows are all of the French pattern, taking the place of doors and opening upon the verandah, which surrounds the house. The building furnishes an excellent pattern for those contemplating the erection of a home and also demonstrates the excellent capabilities of Mr. E. E. Mayhew, the builder.

Last night at ten minutes past ten o'clock a horse and buggy dashed past the Yosemite Skating rink along Queen street, toward Fort street. Just before the runaway reached the rink a fresh native policeman ran out towards the horse and caused him to take another start. As the rig passed the rink Mr. George Patterson, hack driver, sprang from the sidewalk, caught the hinder end of the buggy, climbed into it over the top, which was fortunately down, caught the reins, and stopped the horse by the time he reached Alakea street. Mr. Patterson immediately turned the vehicle around and proceeded to tie it up, when the fresh native policeman took it from him and drove it to the Station House. The horse had a broken rope upon his neck and had doubtless broken away from some hitching post. Native policeman seem to be in the way when not wanted, and out of the way when ever their assistance is really called for. In this case Mr. Patterson deserves the credit of stopping the runaway.

Yesterday afternoon about half past four o'clock, an accident occurred at the bridge near the Waikiki road where the Casino road turns off from the main thoroughfare. Dr. Webb and his wife were riding in a brake and had just turned upon the bridge in question when the horse stepped upon a broken plank. The plank was broken in the middle. When the horse stepped upon it the end of the plank flew up. The horse shied and started to run, throwing Dr. Webb out of the brake. He received several scratches. Dr. Webb called to his wife to jump, but she did not do so. The horse ran away toward the Casino. Mrs. Webb stuck to the vehicle. The horse ran about a mile and stopped at a place where the doctor had been in the habit of taking him. There was fortunately, no damage done, although Mrs. Webb was badly frightened and has been confined to her room since from nervous exhaustion. It is a great wonder that Mrs. Webb was not seriously injured or fatally hurt as the road over which this horse ran is crooked and winds among the trees.

Mr. F. L. Clarke has been busily engaged, during the past few weeks, in stocking his fernery in the rear of Williams' photograph gallery on Fort street, and now has between forty and fifty varieties of Hawaiian ferns growing. The interior of the fernery presents a very pretty appearance, and we think Mr. Clarke's experiment of domesticating Hawaiian ferns will prove a success. During a short visit we paid to the fernery yesterday morning we were shown a number of varieties of these beautiful plants ready for transfer to home ferneries, and though our slight knowledge of ferns does not enable us to give their names, yet we could not help admiring their graceful forms and bright tints of green. A pretty device of Mr. Clarke's is that of growing bunches of the smaller varieties in pearl shells. Another attractive form is that of mosses of aerial roots covered with mosses and ferns. Additions are being made every day to the number and variety of ferns and mosses and "the fernery" will soon be one of the "show places" of Honolulu. Mr. Clarke deserves praise and encouragement for inaugurating this new enterprise.

The Government tug Eleu which sailed from here last Saturday morning at five o'clock, with Minister Gibson and several police officers, bound for Molokai, arrived at its destination after a rough trip at three o'clock in the afternoon. The cause of the expedition was the stabling affray which occurred at that place between a leper and three officers, in which two officers were killed and one was wounded. The reasons for the assault are given in Monday's issue of this paper. Upon the arrival of the Minister's party everything was found to be quiet and peaceable. The murderer, who is described as being a person of about forty-five years of age, rather lightly built, with cramped hands, that look wholly incapable of doing such dreadful work, had escaped about a mile and a half into the interior. A search was instituted and the fugitive and his accomplice were arrested to await the arrival of the next steamer, when they will be sent to Lahaina for trial at the December term of court. The facts learned are substantially as follows: The Board of Health ordered the removal of several children, who were living with their leprosy parents on Molokai, to Honolulu. No objections of any kind were made, until the children's baggage was brought to the steamer when the father rushed upon one of the officers, who was suddenly held by an accomplice, and drawing a knife that he had secreted on his per-

son, stabbed him in the abdomen. One of the other victims while trying to rescue the already wounded man received the deadly weapon in the same place that the first was stabbed and the third man who came to the rescue was stabbed in the groin.

Now that the question of superiority in vachts has been settled, we may be pardoned the remark that there is hardly room for questioning who holds the championship among Honolulu clothiers. Our store is the universal outfitting depot for men and boys. Our stock of Fall Clothing, Furnishing Goods, Hats, Shoes, etc., is now ready. CHAS. J. FISHEL.

We are showing in our Millinery Department the most complete assortment of the latest styles in Hats and Bonnets, trimmed and untrimmed to be found in this city, and the lowest prices. CHAS. J. FISHEL.

Merchant Vessels Now in Port. Brit bk JUPITER, Jones; Bk AMELIA, Newhall; Bk W. H. DIMOND, Honolulu; Bk MORNING STAR, Bray; Bk LAY HARBOR, Williams; Bk CEYLON, Cahoun.

ASTOR HOUSE CURE

DYSPEPSIA!! A Sure Remedy. Properly Cooked Food. An Ounce of Prevention Better than a Pound of Cure.

One great evil of this city is a certain fiendishness displayed by restaurant keepers in the manner in which they slap victuals together and throw the same at their customers. Worse by far than a certain Nevada Eating House where a tramp was in the act of walking out without paying. The irate cashier violently free a pie crust, took deadly aim, and brought down the unfortunate, held the cashier to answer for assault with a deadly weapon. Take for instance a Honolulu Hash Factory doughnut when cooled off. A leaden bullet is no where in comparison; then again some of the HOT CAKES would prove unworkable for mending old shoes and will stretch further than any rubber band ever made. From all such, etc., deliver us. The above named instances of cooking depravity are much to be deplored.

A recent change in the Proprietorship of the ASTOR HOUSE (at all times famous for good grub) enables the management to greatly facilitate the suppression of such villainous systems of careless cooking which tend in such a marked degree to destroy the Human Digestive organs. Upon all occasions it will be found a real luxury to step into our Dining Parlors (no fires) and there partake of a savory meal cooked by our Champion Chef. Every morning Boarders and Transient customers may order German Pancake, Tender Loin, Porterhouse, or Sirloin Steak, with or without onions, Prime Ham and fresh eggs Royal Breakfast Bacon, Fish every day, Rib Mutton Chop (none but the best of material used.) The midday bill of fare as published on the Bulletin Board is something that everybody should read and inwardly digest. For supper we supply in addition to the substantial goods. Sponge cake, Ice cream, Jellies, Fruit, and various other dainties. Some of our would-be competitors are surprised to know how we can sell 21 meal tickets for \$4.50. And in our elegantly appointed private dining room only charge 35 cent for meal.

The secret may easily be given away; the ASTOR HOUSE is centrally located and doing a large Transient cash trade. Meals at all hours produces a constant flow of ready money, thereby enabling us to go out to the market and buy at reduced rates for cash. Our patrons receive the full benefit of this superior system of dealing. All who have not yet experienced the luxury of eating at the Astor House can now come right in and be made welcome at the oldest established Dining Rooms in the Hawaiian Kingdom. 35-1 mo.

GENTLEMEN!

I have received by steamers "Mariposa" and "Alameda," the most complete stock of

Elegant Stylish Custom Made Clothing

Ever offered in this town. My designs are pronounced the NEATEST ever seen here, having been carefully selected from a large lot of Sample Goods, and
