

THE DAILY Honolulu Press

Will be for sale Daily at the Following Places:

- J. M. OAT, Jr. & Co. Merchant street
G. THURM. East street
CRYSTAL SODA WORKS. Hotel street

LOCAL NEWS.

Fish were plentiful and cheap at the Fish Market yesterday.

Mr. Sam. Damon has donated \$100 to the St. Louis College Library.

The William H. Dimond will take a mail for San Francisco in a few days.

Mr. M. Thompson has our thanks for a late and interesting file of Eastern papers.

A communication has been received from Rev. Mr. Groszer which will be published to-morrow.

The Queen's Own, under command of Captain O'Connor, were out on the street drilling last evening.

The schooner Mana, which arrived yesterday from Honolulu, Hawaii, reports rough weather at that place.

W. W. E. Rowell has the contract for rebuilding the Waimea bridge, on Kauai. The bridge will cost \$6,650.

Any person now wishing to purchase an elegant homestead can do so on reasonable terms by applying at C. K. Miller's business agency.

The barkentine Eureka and Mary Winkelman sail for San Francisco this afternoon. There is a good deal of speculation as to which will arrive in San Francisco first.

Mr. E. T. Stetson, a member of the San Francisco Dramatic Company, contemplates bringing a company to Honolulu, in the near future, to play at the Royal Opera House.

The office of Pilot McIntyre was moved yesterday from opposite the store of A. W. Peirce & Co. It has been placed flush up against the Honolulu Yacht and Boat Club house.

The barkentine Eureka, which sails for San Francisco to-day, will take a mail for the United States, if such mail is marked to go by her. The mail will close at the Post Office at three o'clock.

Mr. Geo. H. Luse, first mate of the barkentine W. H. Dimond, has two fine hunting dogs, which he brought from San Francisco. One is a fine Irish setter, and the other a fine Gordon setter. Mr. Luse is offering them for sale.

Mr. Geo. M. Holloway will open on or about next Saturday a harness and saddle store on the corner of Fort and Merchant streets, in the store formerly occupied by the One Price Mechanics' Bazaar. Mr. Holloway says he will sell only first-class goods at low rates.

On New Year's Day there will be a six-oared boat-race between two picked crews from the Myrtle Boat Club. Mr. Oscar Branch and Mr. Alfred Branch have been chosen captains of the crews. All members are requested to be present at the boat-house on the morning of the race.

In our report of the Teachers' Convention yesterday, the Press stated that the Rev. Mr. Olsson "read an extensive criticism and review upon the management of the Reformatory School." The statement should have been that the paper in question was read by the Rev. C. E. Groszer, assistant teacher in the Reformatory School.

A horse attached to a hack ran away near the corner of Punchbowl and Queen-streets yesterday afternoon at about half-past two o'clock. The rig was owned by a native, who had drawn up to the curb to speak to some persons on the sidewalk, when the horse took fright at something in the road, and started down the street on a run. Before the native could collect his senses, the horse was stopped by a gentleman who was passing at the time.

Would the serenaders, who visited on Christmas eve the various villages situated on Lumallo street kindly observe in future greater care when taking up their position on verandas; otherwise some of the charmed listeners will again have the painful reminder that too much can be paid for their whistle. On Christmas morn all pleasing recollections of native melody were banished on observing the shattered pieces of a prized flower-pot. The remedy in placing a duplicate where the other stood doubtless arises from the serenaders' difficulty to match it, but we should be glad if New Year's morn saw their efforts in this direction crowned with success off in the stilly night.

They say: That Waikiki is the funniest place in the world—on Sundays; that the Road Supervisor is again thinking of cleaning the bye-streets; that the Pali road will be built with what remains of the ten-million loan after the King's Ministers are through with it; that the only corruption fund which will be used in the coming campaign will be bottled gin; that moonlight parties do not go home sometimes until the sun is up; that the next steamer from San Francisco will bring the news of an interesting social event; that the "dog law" ought to be enforced in Honolulu; that one of the Honolulu fashions which most people observe is to go into debt; that the "frauds" which occurred on King street the other day had no political significance; that the Teachers' Association has done good work this year; that the Utah Mormons will seek the pro-

tection of Hawaii if the United States makes it too hot for them; that good King Kal has "too fat" an income from the Crown lands to be in favor of trading them for a California farm; that the boat boys intend commencing practice earlier next year; that a new base ball club will be formed next season which it is alleged will "clean out" the champions; that the new lime kiln is the practical result of newspaper suggestion; that the trouble with the Hawaiian Government is that there is no one who can be made personally responsible for its evil deeds; that the educational progress of Hawaii is dependent upon the whims of the Administration; that the public debts of Hawaii does not bother any but the tax-payers; that the Reformatory School Band changes most of its members every year; that the good name of Queen Emma still sustains Hawaii's reputation abroad; and that the sooner the Government reaches bedrock the better it will be for the people.

Police Court Items.

One drunk forfeited \$10 bail, for not putting in an appearance.

Solomon Brooks, charged with larceny, was remanded until to-day.

Kamila and Kahanawapo, remanded from the 29th inst. on a charge of disorderly conduct; found not guilty and discharged.

Pro Bono Publico.

Henry Hart, at the Elite Parlors, keeps the best creams, ices, candies, cigars, and the biggest stock of Island curios to be found in Honolulu.

One of the most attractive displays of elegant holiday goods in Honolulu is made by Messrs. King Bros., No. 87 Hotel street. Their assortment of Birthday, Christmas and New Years cards, of Prang's and other makes, is exquisite in design and finish, and are offered at extremely low rates. An inspection of their picture gallery will well repay the visitor, while artists can here find a choice selection of artists' materials. In the windows of King Bros. are also a fine collection of Clarke's fern cards, Island curios, etc., and some beautiful shells, painted in native scenes by Mrs. Thomas J. King, which are valuable mementos to send abroad.

AS ALL OF WHICH MUST BE SEEN TO BE APPRECIATED.

The Latest American Invention.

THE VICTORY OF ELECTRICITY.

Since Electricity has been applied for lighting purposes, all efforts of inventors have been directed to construct a lamp for general domestic use. The reason why this problem has till now not been solved, is that none of the inventors could rid themselves of the idea of gas lighting, and that all have adhered to the system of producing the Electricity in some central place, or by large machinery, instead of first laying down the principle that a Lamp which should ever be generally useful and popular, must be portable, like an Oil Lamp, and contain the generator of Electricity in itself, i. e., in the foot of the Lamp.

The Norman Electric Light Company has at last succeeded in completely realizing this ideal of Electric Lighting, and there is no doubt that this most important invention will bring about a complete revolution in all branches of lighting.

Our Electric Lamp needs neither Machinery, Conductors, nor any expensive outlay, and is neither complicated nor disagreeable in manipulation; all that is necessary is to set it every four or five days with acid. The cost of lighting will be as cheap as gas (3 cents per hour), and it has before the latter the immense advantage of neither producing heat, smoke nor carbonic acid, owing to which the air is not impured, and remains at the same degree of temperature. It is further absolutely odorless, and does not need to be kindled by match, or otherwise, but simply by turning the key, thus avoiding all danger of fire, explosion or suffocation, as in the case of gas, if the key is left open; and it must be conceded that this advantage alone is invaluable. It is further preferable to any known kind of lighting for the following reasons:

(1.) Its manipulation is so simple that any child can keep it in order.

(2.) That the Lamp is portable, and can be removed like any Oil Lamp, from one place to another.

(3.) That it neither requires the disagreeable fixing of the wick, or the cleaning of the cylinder, as in the case of Oil Lamps.

(4.) That the light produced is a soft and most steady one; that it never flickers, and the flame, though being equal in power of lighting to gas, can be regulated to any degree.

(5.) That every danger of fire is absolutely excluded, as the light will extinguish immediately, if by any accident the glass surrounding the burner should be broken.

(6.) That it will burn, even in the strongest wind, completely unaffected, thus being invaluable for illuminations, lighting of gardens, corridors, etc.

This Lamp is constructed for the present in three different sizes:

A. small size. Height of complete Lamp 14 inches; weight, about 5 pounds; for lighting rooms, cellars, storage houses, powder magazines (or similar places where explosives are kept), coaches, illuminations, gardens, mines, or any other industrial purpose. Price, £1 — per lamp, delivered free to any part of the world.

B. medium size. Serves all domestic purposes for lighting rooms, houses, etc. This Lamp is elegantly decorated, and has removable white Ground Glass Globe. Price, per Lamp (inclusive of Bronze Foot and Globe, richly and elegantly constructed) £2 — delivered free to any part of the world.

C. grand size for Parlor, Hall, Saloon, Public Building, etc. The Lamp gives a most brilliant and steady light, has large, removable white Globe, decorated most tastefully, and the workmanship is both first-class and elegant. Price £4 10 — Foot of Lamp is either Bronze, Japanese, Faience or Silver Oxide.

Any special size or design made to order. Estimates furnished.

All Lamps are ready for immediate use, and will be sent, securely packed in strong wooden box, with printed directions for use, a quantity of chemicals sufficient for several months' lighting, and one extra burner for size A, and two for sizes B and C. The necessary chemicals can be purchased in any drug store, in even the smallest village.

Every Lamp is accompanied by a written guarantee for one year, and will be exchanged or money refunded, if the same should not give complete satisfaction.

On all orders for six Lamps and above, a discount of six per cent. will be allowed. No orders from abroad filled, unless accompanied by a remittance to cover the amount, or first-class reference on a New York or Philadelphia house.

The best method of sending money is by draft on New York, which can be procured of any banker, and everywhere, or enclose the amount in bank notes, gold coin, or postage stamps of any country of the world.

All orders, the smallest as well as the most important, will receive the same particular attention, and will be forwarded without delay.

Our Electric Lamps are protected by law, and all imitations and infringements will be prosecuted.

Agents, Salesmen on Commission, and Consignees for our Lamps, wanted everywhere. No special knowledge or capital required.

A fortune to be made by active persons.

Address: The Norman Electric Light Co., PHILADELPHIA, U. S. of America.

COOL OFF! PROGRAMME OF THE FIRST SEMI-ANNUAL ICE CREAM TARGET PRACTICE DID YOU SAY? OF THE HAWAIIAN RIFLE ASSOCIATION, TO BE HELD AT THE CASINO RANGE, KAPOLANI PARK, ON FRIDAY, JANUARY 1, 1886, AT 10 O'CLOCK A. M.
