of the nations and defend that decision. It may be somewhat excusable to military minds, and from a military point of view, nevertheless it is the duty of the government to put both in accord. This duty it performs today, and no government will encourage our government more in its line of honorable duty than the United States."

ARE WITH PRESIDENT.

Popularity of the Chief Executive Attested Over the Country.

Washington, Sept. 20.—Perry S. Heath, first assistant postmaster general, has returned from a vacation spent in Nova Scotia, New England and New York. He says he found everywhere the Canadians, profound admiration of President McKinley. In speaking of the sentiment in the east on the Philippine question he said:

"I have not the slightest doubt if there were an election in New England this morning, the issues before us here such as to give a fair test that President McKinley's conduct of the war, from the moment the Spaniards destroyed the Maine in Havana harbor, would be endorsed by the most sweeping majority ever given a public question of this nature."

"There never was such prosperity with manufacturers, merchants and farmers in New England as at present, and this the people recognize is directly attributable to the policies instituted by the president."

"Secretary Root's induction into the war department has added especially to the administration's strength in New York, as he is regarded universally as not only one of the ablest lawyers in the country, but as a man of high patriotic aspirations and a fine sense of national honor."

"I really do not can scarcely find a man in the business circles of New York who adversely criticizes the administration's conduct of the war or the present campaign in the Philippines, while the highest possible praise is everywhere heard of the financial security of the nation and the policies of President McKinley and the work of Secretary Gage."

"You know one can meet in a day's round of business in New York city men from every state and territory in the union. I met representative men in a stay of two days in the metropolis, railroad, business and traveling men from almost every section of the country. Universal prosperity and approval of the work at Washington and anticipation of further good legislation at the approaching session of congress, was the consensus of opinion."

"I met business men from both Dakota, Nebraska and Idaho who expressed the belief that not one of the old line republican states in the northwest, which had recently been populist, would fail to go solidly republican at the next election. All reported the free silver sentiment decidedly in the minority."

Hanna Answers Li Hung Chang. New York, Sept. 20.—Senator Hanna, of Ohio, before starting for Cleveland last night, had his attention called to an alleged interview with Li Hung Chang, in which the Chinese statesman advised selling the Philippines.

"Perhaps the Chinaman did not say it," said the senator. "It may be a harmless fake. But even if he did, what does it matter? The idea is preposterous. It would be a disgrace to the United States to barter away the islands. It would be a repudiation of our moral obligations to the civilized world. The nations of Europe are waiting to see what we are going to do in the Philippines. The thinking classes look with satisfaction on this country's present policy with respect to the islands. It is broad, charitable and sincere, and what might be expected from a clear-headed statesman. People as a rule, heartily endorse that policy. We did not fight Spain in order to secure possession of the Philippines. They came to us unexpressed. The insurgents under Aguinaldo are a small percentage of the people. The people in this country who are supporting Aguinaldo do so from a weak-headed sentimentality that is quickly dissipated when the actual conditions are confronted."

Call on President. Washington, Sept. 20.—President McKinley received a committee from the Chicago Press Club yesterday. It consisted of Eton Lower, J. A. Mathews and E. C. Snyder.

They called, with Comptroller C. G. Dawes, to extend the invitation of the club to attend a reception it proposes to give in honor of the president during his visit to Chicago next month. The president expressed his appreciation of the compliment, but said he could make no definite promise at this time.

He intimated he would accept it, on making up his program, he found it possible to do so, and the invitation was given to Secretary Cortelyou to await further consideration.

Asks Governor to Sign Death Warrant. Topeka, Kas., Sept. 20.—Taylor Cook, in the penitentiary under a death sentence for murder committed two years ago, yesterday petitioned Governor Stanley to sign the death warrant.

Under the Kansas law a death sentence can not be carried out unless the governor signs the warrant, which he is not required to do. As a result there are sixty murderers in the penitentiary, for no governor has ever signed the order for execution. Cook says he is tired of penitentiary life and wants to hang.

"If you do not sign my death warrant," said Cook, "I will take my own life."

Governor Stanley told Cook to get a petition from the county where he was convicted and he would consider his application.

Must Pay to Marry. Ardmore, Ind. T., Sept. 20.—The Chickasaw legislature, in session at Tishomingo, passed the bill yesterday raising the fee for marriage licenses from \$5 to \$1.60. The measure is aimed at white men who marry into the tribe to profit by the annuities and lease money drawn by women Chickasaws. It has been decided that to be legally entitled to these moneys white men must have married in accordance with the laws of the Chickasaws.

Toledo's Famous Mayor Talks to Municipal League on "Golden Rule" Government.

Partisan Politics and Beast Ethics Menace the Happiness of the People.

President Black Makes Annual Address and Tells of the Convention's Objects.

Syracuse, N. Y., Sept. 20.—The attendance at the convention of the League of American Municipalities is considered very encouraging. A reception was given the visiting delegates last evening at the Yates hotel.

In his annual report President Black said: "We are not here to lose ourselves in abstruse and abstract speculations. Our purpose is sternly a practical one. We deal with human life; we seek to prolong it—to suffer it to run its natural course unchecked and unhampered by disease. We aim to work this out by disposing of such severely practical questions as garbage disposal, water supply, civil service reform, saloon regulations and similar measures. Neither the physicians nor the minister of the gospel go before us as the humanitarian."

"If we and others working along this line can increase the general average of the health and happiness of the millions who dwell in cities, we have gained a victory compared to which the destruction of a fleet or an army is not a thing to be boasted of."

WONDERFUL CURE OF DIARRHOEA

A Well Known Virginia Editor Had Almost Given Up, But Was Brought Back to Perfect Health by Chamberlain's Colic, Cholera and Diarrhoea Remedy—Read His Editorial.

From the Times, Hillsville, Va.: I suffered with diarrhoea for a long time and thought I was past being cured. I had spent much time and money and suffered so much misery that I had almost decided to give up all hopes of recovery and await the result, but noticing the advertisement of Chamberlain's Colic, Cholera and Diarrhoea Remedy and also some testimonials stating how some wonderful cures had been wrought by this remedy I decided to try it. After taking a few doses I was entirely well of that trouble, and I wish to say further to my readers and fellow sufferers that I am a hale and hearty man today and feel as well as I ever did in my life.—O. R. Moore. This remedy is for sale by druggists.
