PECKHAM & BATES, Stove & Furnace Repairs

CORNER CENTER AND CHURCH STS.

WHY NOT PATRONIZE READ'S TOWEL SUPPLY? As every person uses towels in their office and business house, and I will furnish clean towels every week in any number wanted at the price of the usual price of laundry. Leave orders at No. 1 East Main, or order by postal card. W. L. READ.

IOWA NEWSPAPERS.

ALL ABOARD FOR ALGONA.

[Algona Upper Des Moines.] Agent Killinger expects to be ready for business on the Iowa Central about Nov. 1. It is rumored that the passenger train that now goes to Mason City, will come to Algona, giving us a through service to Peoria, Ill. This will make the Iowa Central a very important line for passenger traffic.

FLOCK OF EAGLES.

[Vilvaca Review.] Peter Mallock reports that on last Sunday morning he saw a flock of thirteen genuine American eagles sailing in grand circles over southern Hackberry and the beautiful Nodaway valleys. After making a careful inspection of this region they mounted into the blue ether and disappeared toward the northwestern states. It is Mr. Mallock's conjecture that they are en route for San Francisco to meet the first and just in time enough to see how the preparations for Co. B's reception are coming along.

MR. BRYAN AGAINST INDEPENDENTS.

[Sioux City Tribune, dem.] Mr. Bryan is showing his usual courage in his campaign in Kentucky. There is no tergiversation; no hiding his purpose there under clouds of words or deftness of speech. He is there for the purpose of sustaining the regular party machine and for the purpose of defeating and overwhelming the bolters who are, in his claim to be the only genuine 16 to 1 men. It is Mr. Bryan's purpose in his campaign "regular" and always with the regulars, and in this he has succeeded beyond his utmost design. His strength as a leader in the north has been largely due to his independence to his utter repudiation of the old democratic machine, and to his repeated declarations prior to the convention of 1896 that unless the party should declare for 16 to 1 coinage he would not support it. This rebellious attitude in those days endeared him to the populists, socialists and free traders of all kinds and swelled his vote in the presidential election enormously. Mr. Goebel is fortunate in being able to secure this kind of support from Mr. Bryan at this juncture; he is more than fortunate; he is great. He has compelled the Bryan attendance as he has compelled the attendance of Mr. Bailey, of Texas, and as he will compel the attendance of every other democrat whose party renown will contribute to his success. Mr. Goebel is a growing bird.

WHY THE CREAMERY CLOSED.

[Shenandoah Sentinel.] Strange as it may sound the shutting down of the creamery is an evidence of prosperity. Of course it closed for want of milk, but why could not the milk be obtained? We talked with a number of farmers, Saturday, on a very quiet and in nearly every case the underlying reason given was that farmers do not want to milk the cows and fool with milk cans. They look on such work about as they do raising "sardens sass," good enough for women and children but too small a business for men. They don't have to do it. Engaged in farming on a large scale—raising great crops of corn, feeding more or less hogs and cattle for the market, and indulging in fancy stock as a fine art, they have no time or inclination to dabble in milk. They prefer to let the calves do the milking and sell the calves at \$15 or \$20 each. It's less trouble in short our farmers are too well off—too prosperous—to give attention to the creamery in such a way as to make it a success.

In a poorer community or in a locality where the soil is less generous, the creamery pays because farmers give it paramount attention. It is true the long drought and drying up of the pastures precipitated the shutting down of the creamery. With abundant rains and consequent grass it might have been on through the fall and winter but would have been a sickly existence for the reasons we have given. Yet it has paid. It closed with a good sum in the treasury. And it paid the stockholders. W. L. McCulloch has been in it since he started, turned all his milk over to the creamery and got his butter to let from it and keeping a strict account he is just as well off and saved all the labor and trouble and expense of caring for the milk, churning and marketing the butter—no small matter in a farm house.

It may start up again in the spring but this part of Iowa. Southwest Iowa is dotted with dead and dying creameries. Esq. Moody says that in western Nebraska and further west they are a success and he met farmers who hauled their milk fifteen and eighteen miles and free to the creamery. But in the report of the state dairy commissioner just out we notice that the number of creameries in Iowa has decreased from 733 in 1898 to 779 in 1899. The number of pounds of butter made increased only from \$7,568,611 to \$7,859,540.

The creamery, or butter factory, properly conducted may be a source of profit to the circle or combination of dairymen who get into it but it is doubtful if it is of any benefit to the town where located. Butter and eggs constitute a large item in the trade between the farmers and the town while the creamery is wholly independent of the town, shipping its product to distant markets. Town people could not afford to buy it; indeed they prefer the home made butter which will be plentier.

Every innovation that will increase the revenue of the farmer is desirable. The agricultural experiments and investigations devoted to agriculture and its attendant occupations are of untold benefit to the farmers, who have all the experimenting done for them before hand without cost to themselves. All they have to do is to watch results intelligently and then follow the course prescribed by the authorities.

Business Opportunities

The B. C. R. & N. railway is constructing a new line north and west from Worthington, Minn., to the west line of the state, which will be completed within the year. The country through which the line passes is the best in southwestern Minnesota, is practically all under cultivation and thickly settled by well-to-do farmers, who have been going fifteen and twenty miles to market. Arrangements have been made to lay out towns at the most advantageous locations for business. These towns will need stores and shops of all kinds and merchants will find favorable openings on this new line. Doctors and professional men will also find good locations.

This company is also constructing a line from Armstrong to Estherville, Ia. There will be two new towns on the line named Maple Hill and Irwin, and investors will find splendid opportunities at the either of these points.

The railway company will, as it has always done, join grain and other business of its towns to build up centers of trade.

For information write THOMAS H. BROWN, General Townsite Agent, Sioux Falls, S. D.

104 degrees. This period of extreme heat terminated on the night of the 7th, with light and fairly well distributed showers, followed by much cooler and generally very dry weather during the remainder of the month. The effects of the hot and dry winds were very marked in the corn fields, but the crop as a whole was much benefited by being swiftly hastened to maturity, placing it beyond danger of harm by the killing frosts that reached all parts of the state during the last five days of the month. Frosts were noted at various places as early as the 14th, and thereafter on various dates with increasing severity until freezing temperatures were recorded at all stations from the 25th to the 30th. The month was generally favorable for bringing the late growing crops to maturity; but unquestionably corn and potatoes would have been better in quality had the yield if the temperature had been equable and the killing frosts had been deferred till the normal period. The total output of soil products in the state, however, will be fairly satisfactory and remunerative. The droughty conditions in the northwestern part of the state materially retarded fall plowing and lessened the acreage of fall wheat and rye compared with former years. And the bare pastures will cause early feeding of stock and make heavier drafts upon the stores of winter forage.

ECONOMIC VALUE OF CORN.

[Washington letter in the New York Evening Post.] The extraordinary size of this year's corn crop makes of interest some information as to the economical value of the grain. The corn plant which has appeared in a bushel of corn is worth, in agriculture, compiled chiefly from the records of the division of chemistry, Corn is not only a valuable food for man, but it is the chief food of the domestic animals of this country. Large quantities of starch are made from it, and also glucose, which is used in the various grades of Bourbon whisky. Even the inner portion of the stalk—the pith—possesses such remarkable properties in the way of being compressed into small space without losing its resiliency that it is used in the construction of buttonships, to close up holes made by shot and shrapnel. Professor Wiley, chemist of the department of agriculture, in his bulletin combats the opinion that corn is less digestible and less nutritious than wheat. In experiments made upon animals the nutritive value of corn has been directly brought out. A bushel of wheat in one set of experiments produced on an average 13.7 pounds of pork, while a bushel of corn produced 12.3 pounds. But when the difference in weight between the two is considered the actual gain is about the same in each case, and calculated on the basis of the weight of wheat and corn, it costs \$4.01 to produce 100 pounds' increase in pork by feeding wheat, and \$2.85 to produce the same increase with Indian corn. In point of digestibility for human beings, which is something rather harder to reach by practical tests, the corn is offered, based on what is known as digestion coefficients of wheat and other grains, that Indian corn is not inferior in this respect to wheat. Bread made from Indian corn is the great food of the southern part of the United States. While the ordinary form of food material. Nearly all the starch made in the United States is from the grains of Indian corn. In a few localities it is still made from potatoes, and in Florida and some of the other parts of the south it is made from the cassava. The starch of corn is used for a number of purposes. About 40,000,000 bushels of Indian corn are annually consumed in the manufacture of glucose.

BEST SUGAR IN IOWA.

[St. Joseph Herald, 18th.] A convention of best sugar farmers will be held today at Clear Lake, Ia., at which every town of prominence in that state will be represented. The representatives of the agricultural department will be there and will address the convention, informing it thoroughly as to the adaptability of the soil for the cultivation of the sugar beet, the conditions of supply and demand in the United States and the needs and profits of the best sugar industry. Nearly every city in the state is desirous of obtaining a best sugar factory, therefore the interest being displayed.

As a great credit to the state Iowa has long held prestige, but the success of Nebraska in the best sugar industry has impelled Iowa to look forward to the development of the same industry within her own borders. It pays and there seems to be no reason why success cannot be achieved. The soil is so fertile and suitable and the farmers of any part of the state, and even of the adjacent states of Wisconsin and Illinois might benefit thereby.

Every innovation that will increase the revenue of the farmer is desirable. The agricultural experiments and investigations devoted to agriculture and its attendant occupations are of untold benefit to the farmers, who have all the experimenting done for them before hand without cost to themselves. All they have to do is to watch results intelligently and then follow the course prescribed by the authorities.

NEIGHBORHOOD NOTES

GILMAN. Oct. 19.—The Gilman Lecture Association organized by the election of Rev. C. L. Hammond, president; J. M. Carney, vice president; J. S. Darrah, secretary; G. F. Stannard, treasurer. The executive committee comprises the above named gentlemen with Rev. W. E. Smydler, Dr. W. J. Ward and Professor J. E. Holmes. The season will open with the Fadette Ladies' Quartet on Nov. 8.

John Bender, an old and prominent citizen of Gilman, died this morning at about 8 o'clock from hemorrhage, resulting from a burst blood vessel. He was in apparently good health fifteen minutes before his death.

Oscar Barnes, who was accepted as a recruit, returned from Fort Riley, Kas., discharged on account of a surplus of

IOWA NEWS ITEMS

ROCKWELL CITY.—The Phonograph reports that the work of putting down the city well will now be pushed to completion.

CENTER.—Jacob Ney-Coyne, of German township, threshed 300 bushels of wheat from fifteen acres of land recently, or twenty bushels per acre.

IOWA CITY.—Johnson county, through the board of supervisors, has decided to pay the bills incurred during the smallpox stage of last summer. The total is \$11,000.

SIoux CITY.—The annual inventory of the books in the city library is being taken under the direction of City Librarian Oberholzer. There are now nearly 13,000 volumes in the library. An order for about 100 more has been placed.

HARTLEY.—Robert W. Williams, formerly in the grocery business at Primghar and now a resident of Hartley, has filed a petition in voluntary bankruptcy in Sioux City. He scheduled liabilities of \$36,569.26 and says his assets amount to \$2,000.

DUBUQUE.—The firemen, police, laborers, city officials and others were in the city on Tuesday. The amount disbursed was about \$8,000. The city authorities have decided to make a raid on the slot machines whose owners have not yet paid \$20 each into the city treasury.

BURLINGTON.—Edward Ebert, of West Hill, has a hand with a hole in it. The hole was bored by a 32-caliber bullet, but it accidentally shot into a revolver carefully handled. No bones were involved in the wound and aside from the laceration and burning of the flesh, which occasions pain, the injury is without serious character.

ALGONA.—The big officials of the Iowa Central are expected in Algona this week. They have been telegraphed to learn exactly when they will come and whether they will attend a banquet. The president and most of the eastern directors will be out. Algona should give them an enthusiastic reception, says the Upper Des Moines.

KEOKUK.—Tuesday afternoon while Andrew Hanson, who is a plumber, and his construction business, were at work on a North Fifth street job, he had a narrow escape from death. He and one of his employes, Owen Gunn, were at work tapping the main gas pipe at Fifth and Blondeau streets, to connect it with the gas pipes which ramify through the new W. M. C. A. building. They were overcome with gas and were rescued just in time to save them from death.

WATERLOO.—Broom corn has taken another jump in cost and in consequence the wholesale price of brooms was advanced 15 cents per dozen, making them 25 cents higher in two weeks. The cause of this is accredited to the American broom corn trust, which bought up the corn in sight and forcing the price to double in thirty days. The Waterloo broom works has quite a large stock on hand and orders on hand more than they can fill.

NEWTON.—The recent city ordinance in Newton compelling people to bid their new sidewalks of material other than wood, may not be very acceptable to some property owners, but it is bringing about a decided improvement in the appearance of the town. In addition to the new sidewalks, some of the best buildings of material other than wood, will further enhance the attractiveness of their properties, as stated by the Journal.

DENISON.—On Saturday a couple of Denison lads, aged 14 and 16 years respectively, with two large silver dollars in their pockets, with which they purchased shells, were taken with the desire to go west and do some hunting, killing of bear, wildcats, etc. Taking a late freight train they proceeded as far west as Council Bluffs and thought to rest awhile and take in the sights of that city. In the meantime the parents had been looking for their children for them and on Sunday evening they were brought home, glad enough to abandon the bear hunt and get a good night's rest under the parental roof.

OTTUMWA.—Two damage suits have been filed in the district court, one against the city of Ottumwa for \$5,000 and the other against R. C. Timm. The former is an assault by Jennie Norton, who alleges that she sustained injuries from a fall on account of a defective sidewalk on South Moore street, July 28, and on account thereof she alleges the city for the above sum. The second case is for malicious prosecution. The plaintiff is John Cheek, who has long held prestige, but the success of Nebraska in the best sugar industry has impelled Iowa to look forward to the development of the same industry within her own borders. It pays and there seems to be no reason why success cannot be achieved. The soil is so fertile and suitable and the farmers of any part of the state, and even of the adjacent states of Wisconsin and Illinois might benefit thereby.

Every innovation that will increase the revenue of the farmer is desirable. The agricultural experiments and investigations devoted to agriculture and its attendant occupations are of untold benefit to the farmers, who have all the experimenting done for them before hand without cost to themselves. All they have to do is to watch results intelligently and then follow the course prescribed by the authorities.

NEIGHBORHOOD NOTES

GILMAN. Oct. 19.—The Gilman Lecture Association organized by the election of Rev. C. L. Hammond, president; J. M. Carney, vice president; J. S. Darrah, secretary; G. F. Stannard, treasurer. The executive committee comprises the above named gentlemen with Rev. W. E. Smydler, Dr. W. J. Ward and Professor J. E. Holmes. The season will open with the Fadette Ladies' Quartet on Nov. 8.

John Bender, an old and prominent citizen of Gilman, died this morning at about 8 o'clock from hemorrhage, resulting from a burst blood vessel. He was in apparently good health fifteen minutes before his death.

Oscar Barnes, who was accepted as a recruit, returned from Fort Riley, Kas., discharged on account of a surplus of

recruits for the regiment. Mr. and Mrs. Peck, of Council Bluffs, came in from Marshalltown on Wednesday for a couple of days' visit with Mrs. Peck's brother, J. M. Carney, and family.

Miss Emma Clay died Tuesday afternoon at the residence of her sister, Mrs. Charles Reed, after a lingering illness of consumption.

T. H. Lavender and wife were made the happy parents of a nice boy, the first, on Sunday night.

ALBION. Oct. 19.—Uncle John Montgomery is very sick. His friends think he now has a possible show of getting well.

Mrs. Munnell, of Columbus, O., is visiting her uncle, R. F. Graham.

Rev. Newell, the new M. E. minister, preached here for the first time Sunday.

A farewell party was given Rev. Swearingin Monday evening.

Miss Ruth Collin, daughter of Prof. Collin, of Cornell College, Mt. Vernon, visited at the home of her school friend, Lydia A. Bolton, Sunday.

Mrs. McMillan, who is at Ottumwa, is thought to be beyond the doctor's aid.

Frank Beeson has recently put in a stock of groceries. Frank is a hustler and his many friends wish him success.

Prof. Arnold has again organized a class in music.

Rev. Jessup spoke in the Presbyterian church Sunday.

Dr. Devine, of Marshalltown, was in town Tuesday.

W. H. VanHorn has accepted a position in Marshalltown.

Max G. Clapp left Monday morning for a short business trip.

Hiram Augustine is working for J. D. Fraley and son.

Albion now has two double stores, F. D. Dennis, hardware and harness, and B. F. Brown, general merchandise, each occupying two rooms.

A Penny for Your Thoughts. I was just thinking if you would get a bottle of Beggs' Cherry Cough Syrup it would cure your cough and let your wife sleep some tonight. Guaranteed. George P. Powers.

Teachers' Association Meeting. Special to Times-Republican. Green Mountain, Oct. 20.—The following is the program of the Vienna Township Teachers' Association to be held at Vienna Center on Oct. 26, 1899, at 7:30 p. m.:

Music—Russell Orchestra. Roll Call by Districts—Response by Quotations. Reading of Minutes. Music—Orchestra. Address—John Crumb. Paper—Miss Georgia Jones. Paper—Miss Lizzie Benson. Discussion. "Resolved, That the County Superintendent Should be Elected by Rural Districts"—Affirmative. Mrs. A. C. Middleton and Mr. Fred Brock and Mr. C. G. Kurtz. Followed by a general discussion.

Music—Orchestra. Resolution—Miss Belle Cope. Paper, Reading—Miss Townsend. Paper—Miss Lulu Lane. Resolution—Miss Cuniff. Paper—Miss Belle Crystal. Discussion. "The Progressive Teacher," opened by J. Morrissey, followed by others.

Music—Orchestra.

Hale, Jones county, to visit a few weeks with her son, Mr. E. L. Barber. Miss Minnie Timmons, of Monticello, who has been spending the past month at the home of her uncle, Mr. Robert Timmons, at Marietta, left for her home Thursday evening.

William Rice, daughter Grace and son Jesse, of New Sharon, spent Thursday in the city with the former's brother, Henry Nichols, on their way to Liscomb for a visit.

Mrs. L. C. Williams, of Newton, who has been in the city two weeks as a guest at the C. F. Schoenheit home, left this morning for Dover, Minn., to visit her niece, Mrs. Harlow Brown.

Misses Helen and Nina Sargent, of Minneapolis, who have been spending the summer in the city as the guests of their aunt, Mrs. Wilbur H. Evans, left for their home Thursday night.

Mrs. Stalla Webster, of Washta, arrived in the city Thursday night and will visit for a month at the home of Mr. J. B. Cooper, and numerous other relatives in the city and county.

Miss Alla Smith, of Coleridge, Neb., who has been the guest for a week of her sister, Miss Dora Smith, left this morning for Manning, where she will visit a week before leaving for her home.

Mr. and Mrs. G. T. Bourne went Thursday evening to Traer, where they will visit at the home of Mrs. Bourne's father, Dr. J. A. Ladd, until Nov. 1, when they will go to their new home in St. Louis.

Mr. J. E. Benjamin and daughter, Hazel, of Clinton, who have been visiting in the city a few days as the guests of the former's sisters, Mesdames C. A. Miller and Joseph Smith, left this morning for their home.

Personally Conducted Tours to California in Pullman Tourist Sleeping Cars. Via the Chicago Great Western to Kansas City and the Santa Fe route to Los Angeles and southern California. The true winter route, avoiding cold weather and snow blockades, commencing Monday, October 23, and on every Monday following, one of these new Pullman tourist sleeping cars will leave Marshalltown at 5:35 p. m. via the Chicago Great Western for Los Angeles and southern California via Kansas City, and reaching Los Angeles the following Friday morning, commencing Monday, October 23, and on every Monday following, one of these new Pullman tourist sleeping cars will leave Marshalltown at 5:35 p. m. via the Chicago Great Western for Los Angeles and southern California via Kansas City, and
