GINGLES NOW ON TRIAL

Interesting Criminal Case Before the Court at Nevada—James Gingles Defendant.

Charged With Embezzlement of Large Amount From Kansas City Grain Company.

Story of the Case and Developments—The Kentucky Troops Under Arms.

Special to Times-Republican.

Nevada, Nov. 14.—The case of the State vs. James G. Gingles, of Collins, is now on trial before Justice E. M. McCall. Gingles is charged with embezzlement of a large amount of money from the Kansas City Grain Company, whose agent he was, up till a short time ago, at Collins. The defalcation as alleged was brought to light when the company appointed a new agent and went to check up accounts with Gingles. His books showed that he had bought about \$7,000 worth of grain with the company's money, which had not been shipped to their order, and was not on hand. This shortage Gingles has failed to explain, and the action is a consequence of it. The grain company immediately notified Gingles' bondsmen, who then started an investigation. Able counsel has been retained on both sides, D. J. Vinje, county attorney, and J. F. Martin for the state, and Atwood & Dwyer for the defense. Over fifty witnesses will be introduced and there are from 500 to 1,000 pounds of books and papers to be examined. This makes the end of the trial very indefinite. It is expected that further sensational events will develop in the case before it is completed.

J. S. Frazier, prominent lawyer and citizen, died at his home in this city yesterday, as the result of a severe stroke of paralysis.

THE GRINNELL NEWS.

Football Team Banqueted—Library Trustees Discuss Removal Question—Local Items.

Special to Times-Republican.

Grinnell, Nov. 14.—Last evening Mr. C. W. H. Beyer gave dinner to the Grinnell football team at the Metropolitan parlors. Dinner was served at 6:30 to some twenty guests, including the host. The team and all lovers of athletic sport can well conceive how the gentlemanly and courteous treatment was received, for the dinner was given to a vanquished team, a team defeated but two days before by its foremost rival. All the players, with the exception of one, were able to be present. After the dinner short toasts were responded to on various football subjects by P. Kline, '94; Dr. P. E. Somers, '94; H. E. Brown, '99; Captain Burd and Mr. Beyer. The hearty support given to the defeated players evidenced them considerably and from expressions dropped by them after the dinner, the four remaining games on the schedule will be fiercely contested. The following games are yet to be played: Simpson at Grinnell, November 14; Ames at Ames, November 18; Penn at Oskaloosa, November 25; University of Nebraska at Omaha, November 26.

The library trustees held a meeting last evening at which the question of removing the library to Spaulding's building on Main street was discussed. The vote in favor of removal was practically unanimous, it being understood that but one vote was cast in opposition.

William Moyle, of Chapin, has purchased the two lots on which the old boarding hall of the college stood and will remove to this city in the spring after building a residence there. Mr. Moyle is father of W. T. Moyle, of the firm of Rapson & Moyle.

A good deal of criticism is indulged in by certain of Grinnell's people on the way in which the football game was lost Saturday at Iowa City. Probably Grinnell would have suffered defeat, no matter what tactics were used, yet some are of the opinion that another style of play would have yielded a score of five or ten. It is always easy to point out defective plays after the event and it may be that nothing would have been gained by ordering Kicks from field, but scores were made that way in other games, and it is of course possible that one or more might have been successful.

The funeral of Barney Wallace took place this afternoon from the residence of the deceased.

The heaviest rain for a couple of months began falling last evening at 8 o'clock, a heavy thunder cloud came up and the thunder and lightning continued, with rain, for a couple of hours, and more fell during the night. Cisterns were filled and the fear that a freeze up would shut things tight before we got any rain is dissipated.

Mrs. D. W. Norris is in Des Moines today attending a meeting of prominent library workers of the state, called by State Librarian Brigham to discuss plans for a library commission. A bill will be presented to the legislature this winter providing for the establishing of such a commission.

ARMOUR'S ACORN FED HOGS.

An Early Theory That the Packer Is Putting in Practice on His Farm.

Chicago, Nov. 14.—P. D. Armour is now living on a farm near Oconomowoc, Wis., on account of his health. He has no more ornamental grounds, other than a few trees. Any day he can be seen directing the work of the "hired hands," superintending the building of corn cribs and barns, and generally showing the influence of his early training. The neighbors say he trades horses with a straw hat on his head, and makes David Harum envious, and he is setting the best of his early training. The neighbors say he trades horses with a straw hat on his head, and makes David Harum envious, and he is setting the best of his early training.

Long ago, before Mr. Armour embarked on his career as a financier, he entertained the theory that the best feed for hogs is acorns. Accordingly, as soon as he took up his residence on the farm, he set out a large acreage of acorn trees. He has now a large number of acorn trees, and he is setting the best of his early training.

The bank of Athens, Ga., has been placed in the hands of a receiver. Its cashier disappeared in mysterious circumstances a few months ago, but it is claimed the bank is solvent.

PARCELS POST SYSTEM.

It Is Said the C. O. D. Feature May Be Incorporated.

Washington, Nov. 14.—The mail service system of the country is one that is constantly being revised, and additions are being made that are beneficial to the business interests of the country. When the domestic parcels system is inaugurated, as it very probably will be within the next few months, it will give to the business houses all over the country a feature that they have long been desiring. The United States already has a foreign parcels post system that has been found to work to great advantage, and has been taken advantage of quickly by all mail order firms and large concerns of the country. Under its workings a package can be sent to Germany at a smaller cost than to the next railroad station. The domestic parcels post will do away with this state of affairs.

In accordance with suggestions and plans submitted to the postoffice department within the past six months, a C. O. D. feature was probably incorporated into the new domestic parcels post system. This feature is the development by Harry B. Charles, of Quincy, of ideas suggested to him by the

Grain Letter.

Chicago, Nov. 14.—Wheat—The bulls had some help today. The seaboard reported a better inquiry and Ohio sent some news, but nothing very significant. The lower opening was disappointing. Holders of puts were buyers and there was especially good buying against puts for the week, and this feature was a good stimulant. The crowd was not aggressive bears, the holders hanging on with amazing confidence, seemingly arguing that if it was good property at 78 it must be better at 65 1/2. We would be inclined to think the aggregate holdings for outside account are even larger than for any time in the past sixty days, and this in the face of the most bearish sort of statistics. Argentius keeps Liverpool weak on her glowing estimates

for export from growing crop. Some place it as high as 9,000,000, which to our mind is absurd. Probably to equal the 1898 crop would be the outside limit. The bear element of the crowd were pretty well boiled out by commission houses buying and even Bradstreet's increase in the world's visible had no bearish effect. If Liverpool would change its tone Chicago would follow. Operators here favor an upturn, but have been discouraged by the piling up of stocks and absence of continued aggressive buying.

Drink Grain-O

After you have concluded that you ought not to drink coffee, it is not a medicine but doctors order it, because it is healthful, invigorating and appetizing. It is made from pure grains and has that rich seal brown color and tastes like the finest grades of coffee and cost about one-quarter as much. Children like it and thrive on it, because it is a genuine food drink, containing nothing but nourishment. Ask your grocer for Grain-O, the new food drink. Fifteen and 25 cents.
