

**SEASONABLE HINTS.**  
**Guard Your Health in Fall and Early Winter.**  
 A change from warm to cold is always attended with more danger than from a cold to a warm temperature, hence the greater mortality from lung and throat diseases at this season of the year as compared with spring.  
 The best protection against colds is not so much in extra clothing as in good digestion.  
 If the circulation and digestion are good colds will be unknown.  
 Poor digestion causes poor circulation of the blood and when in this condition severe colds are contracted on the slightest provocation.  
 People who make a regular practice of taking Stuart's Dyspepsia Tablets after meals are free from colds, simply because their digestion is perfect, the heart strong and regular and the whole system fortified against disease.  
 It requires little argument to convince any one that the best safeguards against colds, pneumonia and changes of temperature is a good stomach.  
 Stuart's Dyspepsia Tablets taken after meals are dissolved and mingling with the food cause it to be promptly digested and assimilated; they do this because they contain nothing but harmless digestives, which digest meat, eggs and other food even when the stomach itself is weak and flaccid.  
 Stuart's Dyspepsia Tablets make people well and keep them well, and the best habit you can acquire is to make daily use of them at meals to keep the digestive organs strong and vigorous.

**B. A. MORGAN,**  
 MARSHALLTOWN, IOWA.

**DR. N. M. WILSON,**  
 PROPRIETOR OF THE  
 MARSHALLTOWN, IOWA.  
**INFIRMARY.**  
 NO. 24 EAST MAIN STREET.  
 ESTABLISHED IN 1876.  
 This infirmary has been established in Marshalltown for twenty-four years, where hundreds of patients have been treated yearly, and where every preparation is made for the treatment of the all diseases of the eye and ear alone, and all surgical operations on those organs where necessary for Eustachian tube washes, Pterygium removed, strabismic eyes treated without pain, in cases of granulated lids and inflamed eyes, as well as ulcerated, purulent or gonorrhoeal ophthalmia, the treatment is superior to any other practiced, from the fact that it does not injure the eye in any case. Blue-stone and nitrate of silver are generally used in such cases, sometimes causing permanent blindness. This infirmary has treated over 10,000 patients in the past twenty-four years in this city, references of which can be had by addressing the above or for other references correspond with the business men of Marshalltown or Marshall county.  
 Dr. Wilson is a graduate in his profession from the Chicago Ophthalmic College. Also took a course at the Chicago Clinic School and Hospital in 1897, and the Illinois Eye and Ear Infirmary of that city.

**THE HERRIOTT REPORT**

**State Treasurer Makes Many Suggestions For Changes of the State Statutes.**

**Balance in the Treasury Now Nearly \$500,000—Board of Control Law Endorsed.**  
**Comparative Table of Expenditures Shows Saving of Nearly Thirty Per Cent.**  
 Des Moines, Nov. 16.—State Treasurer Herriott yesterday filed with the governor his biennial report. It shows that the state had on July 1, 1899, a balance in the treasury of \$446,002. Two years previous there was a deficit of \$410,827. There was still \$51,000 due from the national government on July 1, 1899, so that, if this be included, the balance is the largest ever held by the state within a quarter of a century. This condition Mr. Herriott attributes to careful economies and to the increase of revenues from other sources than direct taxation. The economies in state management are largely attributed to the board of control and the laws passed at the time the board was established, reducing the support funds of the institutions. On this subject the treasurer says:  
 "The relative cost of the institutions under the board of control and under the trustee system which prevailed during the first fiscal year of the last biennial period is a subject of considerable public interest at this time. So far as this report can afford a comparison of cost they necessarily relate to financial transactions as shown by the disbursements of revenue from the treasury for the institutions.  
 "In making a comparison of the disbursements of revenue during the last year of the biennial period under the board of control with the first year under the trustees a number of facts, as previously indicated, must be taken into consideration. For instance, there appears among the disbursements authorized under the board of control the payment of \$121,744 in January of this year for the Cherokee hospital. That amount was disbursed on account of contracts entered into by the original Cherokee commissioners in 1897 with the firm of Butler-Ryan Company of St. Paul for the erection of the present buildings a year or so before the appropriations were available, which contracts the present law directed the board of control to honor. It was not a matter concerning which the board of control had any responsibility or discretion, and the amount disbursed properly should be charged against the disbursements made under the trustees.  
 "Again, in arriving at the actual or net cost of institutions various matters must be taken into consideration. Thus, on July 1, 1897, there was on hand at each institution varying amounts of supplies that were purchased prior to that date, but were charged during the fiscal year 1897-98. The trustees for some of the institutions made various expenditures just before going out of office that properly should be charged against the institutions for the second year. Again, at the close of the period, June 30, 1899, the heads of the institutions had, besides various amounts of unused supplies, on hand, all of which should be considered in arriving at the net cost of the institutions. And finally, the expenses of June, 1899, were not paid nor the receipts for June received until the July following, and thus can not be included in the report of the financial transactions of the treasury for the biennial period ending June 30, 1899. So far, however, as fiscal years are concerned the comparison of the disbursements of one year with another will show the actual cost of these institutions to the taxpayers for the years considered, so far as can be shown by the transactions of the treasury.  
 "Another fact that should not be lost sight of in judging the results of the present law and the board of control's management is the shortness of the time the new law has been in force. The full effects of the new law can not be fully determined or appreciated from the showings of one year. Time and experience are required to tell us what all the advantages are of the new method of control, as well as what the defects of the law are.  
 The report then sets out the following comparative table, showing cost of each state institution under the trustee system, cost under the board of control and the net decrease or increase for each:  
 Comparison of costs—

Institution, Trustees	Board of Control	Decrease
Vinton	\$3,565.27	\$2,305.23
Knoxville	12,933.90	1,121.21
Clinton	10,741.19	1,015.15
Elkhart	84,933.69	46,693.19
Michiganville	25,749.51	1,902.90
Clinton	13,743.45	1,015.15
Clarinda	163,701.70	132,411.55
Independence	181,790.56	135,011.55
W. Madison	149,415.45	124,875.11
Amamosa	35,960.97	4,215.32
Grand Rapids	73,653.85	42,237.32
Davenport	64,124.67	44,824.19
Marshalltown	91,223.89	74,525.18
Total	\$1,460,117.77	\$1,034,608.14

The percentage of reduction equals 25.9 per cent. If we take out the disbursement on account of the Cherokee hospital of \$121,744 and add it to the first year, the relative cost would be \$1,561,891.77 under the trustees, and \$1,385,885.00 under the board of control, a decrease of \$175,906.77, or 39.9 per cent.  
 The amount of unexpended balances to the credit of each institution under its jurisdiction is interesting as showing the economical management of the board of control. The following summary shows the amounts which might have been expended during the past year:  
 Institution at Total,  
 Vinton \$20,715.33  
 Knoxville 6,833.10  
 Glenwood 4,787.96  
 Eldora 8,231.97  
 Mitchell 4,321.78  
 Cherokee 3,692.64  
 Clarinda 14,767.75  
 Independence 16,104.42  
 Mt. Pleasant 9,028.96  
 Amamosa 28,734.53  
 Ft. Madison 22,167.85  
 Grand Rapids 13,811.83  
 Davenport 12,329.78  
 Marshalltown 27,150.97  
 Total \$192,702.92  
 The most significant part of the table

of balances just given is the column showing the unexpended balances in the support funds. Notwithstanding a general increase in the level market prices during the past year, the board of control, by means of its large purchases of supplies in the open market upon the basis of competitive bids, was able to save over \$100,000 to the taxpayers of the state. For the entire amount might have been expended if the board had so chosen.  
 The treasurer makes a large number of recommendations for change in the statutes. A summary of the most important ones follows:  
 An amendment to the statutes governing the remittances of state taxes by county treasurers which would require the bulk of the county collections to be paid into the state treasury quarterly instead of semi-annually in April and October as at present, so that the state's income would more nearly correspond with its expenditures.  
 The repeal of the discriminating tax on the gross income of foreign insurance companies and the restoration of the former uniform tax of 2 1/2 per cent of their premiums or the imposition of the same tax on United States companies now assessed against foreign companies.  
 Amendments to the statutes taxing telephone, telegraph and express companies which will provide a penalty for failure to pay taxes on the date specified by law and which shall also provide for the compensations of county attorneys in collecting any unpaid delinquent taxes.  
 An amendment to the statutes governing officers regularly receiving fees which shall require such officers to make detailed reports to the treasurer of state of the fees received and paid out by them and due the state at least quarterly.  
 Provision for the systematic examination of the accounts of state officers regularly receiving fees due the state by accountants or inspectors appointed by the treasurer of state; said accountants to make reports which shall be placed on file in the treasury department.  
 An amendment to the statutes and rules and regulations governing appraisers of property subject to the collateral inheritance tax, whereby discretion and authority would be given the courts to waive the appraisal of an estate when it consists of stocks, notes and securities, and the administrator is willing to charge himself with the face value thereof, plus interest and earnings thereon.  
 The enactment of a definite and uniform procedure for appraising life and term estates subject to the collateral inheritance tax.  
 The establishment of uniform fees or fees for the compensation of appraisers of property subject to the collateral inheritance tax.  
 The appointment of probate inspectors by the treasurer of state, who shall, under the latter's direction, investigate the county records and report estates subject to the collateral inheritance tax.  
 The substitution for the present fees allowed county attorneys for fees for the collection of inheritance tax, inheritance tax collected from an estate up to \$150, and in cases where issues are joined in a suit in court and argument is made, the fee to be 10 per cent up to \$150.  
 An amendment to chapter 4, title 7 of the code, making it obligatory upon administrators, executors and trustees to file copies of their inventories and final reports of estates liable for the inheritance tax with the treasurer of state.  
 The restriction of the so-called exemption of \$1,000 allowed in the payment of the collateral inheritance tax, exclusively to the brothers and sisters of a decedent, resident in Iowa.  
 The establishment of a graduated tax upon collateral inheritances; the rate on residents of Iowa to remain the same as at present, viz: five (5) per cent; the rate on residents of other states to be seven (7) per cent, and the rate for foreign heirs receiving an estate to be ten (10) per cent.  
 A Wedding at Mountour.  
 Special to Times-Republican.  
 Mountour, Nov. 15.—Last evening at the home of the bride's parents, Mr. and Mrs. J. W. Waggoner, occurred the marriage of their eldest daughter, Laura, to Mr. Pearl Smith. Only the relatives and close friends of the parties were present. Both of the contracting parties are well known in this community, as this has been the home of Mrs. Smith all her life and Mr. Smith has been located here for some time as a telegraph operator. He has recently been transferred to Wright, where the newly married pair will be "at home" to their friends in a few days.  
 The couple left last night for Wheaton, where they will visit a few days with relatives. Their departure was keenly felt in church and social circles.  
 The good wishes of a host of friends will follow them to their new home.

**Clinton County's Vote.**  
 Special to Times-Republican.  
 Clinton, Nov. 15.—The official vote of Clinton county shows some interesting facts. The republicanists number 35, the populists, 13; socialists, 73; united Christian, 13. The only republican elected in this county is M. Gohlmann, for supervisor, his majority being 9. M. Dolan, the democratic candidate, has filed notice of contest, alleging irregularities in the Second ward of Clinton and also in the Third ward. In the first instance the judges did not sign the oath; in the Third ward, the morning after election, ten ballots signed by the election judge were picked up from the floor. In case of contest every vote cast in the county will have to be counted by the supervisors.  
 To Fight for \$500.  
 Special to Times-Republican.  
 Clinton, Nov. 6.—Articles of agreement for a twenty-round fight to a decision have been signed by Eddie Croake, of this city, and Barney Connors, of Baltimore. The contest will take place before the Clinton Athletic Club on the evening of Nov. 30 for a purse of \$500, all of which shall go to the winner. Croake is undoubtedly the champion welter-weight of Iowa. His last big fight was with Perry Queenan, Croake winning the decision.  
 Foot Ball at Grundy Center.  
 Special to Times-Republican.  
 Grundy Center, Nov. 15.—A very interesting game of foot ball was played here Tuesday between Dysart and Grundy Center. Grundy won the game, score 5 to 0. The game was won in the first half, Grundy then making the score. Dysart made a great effort in the last half to recover the loss, but failed. It was reported that Dysart is to play Cole College, so the boys from this place felt quite jubilant over the victory, as the team from here was just "pick-ups."

**TRAGEDY ON A FARM**

**Aged Woman Living Near Dows Gored to Death by a Vicious Bull.**

**Was Assisting in Driving Cattle to Pasture—Found by Her Husband.**  
**Sensational Developments Looked For in the Urbana Affair—The Iowa News.**  
 Special to Times-Republican.  
 Dows, Nov. 16.—A shocking accident occurred yesterday forenoon four miles northeast of town. Mrs. Isaac Isaacson was killed in a cattle yard, supposedly by a bull that was with the herd. Her husband went to open a gate at the end of a lane and Mrs. Isaacson went to the yard to start the cattle down the lane. Mr. Isaacson, after waiting some little time and no cattle coming, went to the yard and found his wife lying prone on the ground against the fence, two boards being broken. She was unconscious and died some fifteen minutes after Mr. Isaacson found her. She was over 62 years old, and was born in Sweden, coming to this country in 1871. She leaves a husband, two sons, two daughters and a wide circle of friends to mourn her tragic death. The funeral will be held from her late residence on Friday at 1 p. m. Interment at Mount Hope.

**WORK FOR LAWMAKERS**

(Continued From First Page.)  
 The state, having in their care over 400 insane persons. Attention is called to the fact that these institutions are operating without any legal supervision or control, making awful abuses possible. A law is asked placing these institutions under the control of the board and making it unlawful to incarcerate any person in such an institution that has not complied with the requirements of the board.  
 Legislation is asked on the disposition of the pension money taken from the inmates of the Soldiers' Home; removing the limitation of age, 21 years, of persons admitted to the institution for feeble minded, asking the allowance of a per capita sum per month for the school for the deaf and the college for the blind, and for provision for clothing needy inmates of the industrial home for the blind.  
 The necessity of the establishment of an epileptic colony is strongly urged as being the best manner of caring for the 2,300 epileptics now in the state under public care. Of these, about 400 are in the institution for feeble-minded and the hospitals for insane, producing a bad effect upon the rightful inmates of those institutions and upon themselves. Others are in county poor houses.  
 The board recommends the establishment of a reformatory for first offenders between the ages of 16 and 20 years, to separate them from old and hardened criminals, and it is suggested that one of the penitentiaries be made into a reformatory with a capacity for 700 men, fully equipped for industrial and mental and moral training.  
 In the girls' industrial or reform school, which has nearly 100 of the girls recently engaged in a riot and twenty-four were placed in the county jail, the board asks legislation to prohibit the entrance of married women, prostitutes, etc., authorizing the board to transfer bad cases to the penitentiary, providing means of keeping young girls apart from older ones, and restoring the age at which they are discharged to 16 years, it being now 21 years, a change made by the legislature two years ago. Superintendent Miller is exonerated from blame for the outbreak, and the damage is said to have been repaired for \$200. The trouble was caused primarily, the board says, by the presence of so many old and vicious girls in the institution.  
 The hospital at Mount Pleasant was found by the board to be in an extremely bad condition upon the death of Dr. H. A. Gilman, the former superintendent, who was short about \$5,000 in his accounts with friends of the patients who had sent him money for their benefit. Of this only about \$1,000 can be recovered from his bondsmen, as the bond was not required until the board of control law went into effect. The institution was in a frightful sanitary condition, without a decent system of ventilation or closets, endangering the health of patients by the foul condition of the atmosphere in many of the wards. Since Dr. Frank C. Hoyt, formerly superintendent of the Clarinda hospital, has been in control here the board has made such repairs and sanitary alterations as were possible with its limited means, but the whole institution must be thoroughly overhauled. This condition has been generally known to but few, for it has been kept from the public by the board, lest it might excite alarm. Now the facts, only hinted at here, must be laid before the legislature to show the need of the large appropriation asked for repairs. The discipline of the institution was in an extremely bad condition, as the sanitation and Dr. Hoyt has been obliged to reform a large majority of the former employes on account of incompetency or insubordination. Several strikes have been organized on him, but all have been anticipated by the discharge of the intending strikers, their places being filled before they had a chance to strike. The board of control regards Dr. Hoyt as a rare treasure in this emergency, for he has brought order out of chaos in a surprisingly short time, considering the long-established evils he had to contend with. The friends of Dr. Gilman have been surprised and pained beyond expression by the disclosures since his death, which was undoubtedly hastened by the disgrace which he saw coming. Out of charity for his memory and his many good qualities of heart, the board has refrained from allowing these facts to reach the public, and newspaper men who know Dr. Gilman have done the same. Now the matter can not longer be kept out of sight, though not a fraction has been hinted at. The institution is now, under the capable management of Dr. Hoyt, in as good a condition as it can be until these improvements and repairs are made.  
 The report shows that the dietary in all the institutions has been improved since the board assumed control on July 1, 1898. Many improvements and reforms have been instituted and yet the cost has been reduced by the system of purchasing supplies for all the institutions together by advertising for bids. The cost of supporting the institutions for the biennial period ending June 30, 1899, was \$2,567,273, of which \$452,000 was for new buildings, repairs and improvements. The amount for the last year, during which the board of control was in power, was \$1,813,633 less than the previous year under the trustee system, though the service has been improved in almost every way. The value of institution property as placed at \$8,280,718. The total number of inmates in the institutions is 6,950.

**ARRESTS MAY BE MADE.**

**Indications Point to Sensational Developments in Urbana Affair.**  
 Urbana, Nov. 15.—Advices received from Urbana indicate that evidence is rapidly developing that will soon lead to the positive identification, if not the immediate arrest, of the miscreants who blew up the Burrell store and Monitor office. The theory of a few that the store had been burglarized and then blown up to conceal the robbery is fast losing ground, and the only motive prompting the crime seems to generally be believed to be revenge. The interest in the mystery seems unabated in the village and surrounding country, and every possible effort is being made to connect the suspects now under surveillance with the awful crime. There has been no evidence found which would indicate the robbing of the store before the explosion and burning.  
**LIBRARY COMMITTEE MEETS.**  
 Bill for Creation of a State Library Commission Prepared.  
 Des Moines, Nov. 15.—At the meeting of the State Library Association in Cedar Rapids last week a committee was appointed to prepare a bill to present to the coming legislature asking for a state library commission. This committee met in Des Moines yesterday. Those composing it were a special committee of the Iowa Federation of Women's Clubs, consisting of Mrs. H. M. Towner of Corning, Mrs. H. B. Hawley of Des Moines and Mrs. M. T. Preston of Fort Dodge; a standing committee of the Iowa Federation of Women's Clubs, consisting of Mrs. A. J. Barkley of Boone, Mrs. D. W. Norris of Grinnell and Mrs. Ora Burleson of Webster City; a committee from the P. E. O., consisting of Mrs. W. T. Johnson of Des Moines, Mrs. Walter Campbell of Oskaloosa and Mrs. Ida T. Kinney of DeWitt; and the legislative committee of the library association, consisting of Mr. F. E. Davley of Cedar Rapids, Mr. A. P. Fleming of Des Moines and Mr. Johnson Brinkham of Des Moines. Miss Ella McLooney, librarian of the Des Moines public library, was invited to assist at the meeting. A bill was prepared, which will place the matter of a library commission in such a light before the legislature that it is doubt entertained as to its adoption. Some minor changes had to be made in the bill before it could be given publication. The idea of the committee is to have this library commission bill in the hands of every legislator before he comes to Des Moines, and, moreover, to flood his constituents with information upon the subject to convince him the commission is something the state can not well do without.

**Hubbard Happenings.**  
 Special to Times-Republican.  
 Hubbard, Nov. 15.—A splendid surprise party was planned by the people of Hubbard Tuesday night for Mr. and Mrs. J. K. Milner. The crowd gathered at the residence of T. W. Strother and then proceeded to Mr. Milner's. They were completely surprised. Games of checkers and cards were played, and some select music was rendered on the piano by Mrs. M. C. Nix, and in behalf of the crowd Mr. J. V. White made the presentation speech and presented Mr. and Mrs. Milner with a beautiful silver tea set. Ice cream and cake were served and an enjoyable evening was had by all.  
 P. Caman, of Gifford, will give a graphophone entertainment at the M. E. church next Saturday night for the benefit of the Ladies' Aid Society.  
 Mrs. T. Gaylord of Plymouth, Ill., is here visiting her father, Uncle T. J. Hunter, and is on her way to Fontanelle, Neb.  
 Miss Lillian Elliot went to Grundy Center last Friday for a visit with friends.  
 Mrs. L. A. Grasman, of Corwith, Ia., visited at Rev. Devitt's Tuesday and Wednesday.  
 Mrs. L. A. Grasman, after a four weeks' visit with her sister, Mrs. C. L. Kinney, returned Tuesday to her home at Perry.  
 Mrs. J. A. Hammond, of Iowa Falls, is visiting her brother, E. E. Carter, and family.  
 Miss Florence Patton, of Gifford, visited with Mrs. W. A. McGregor Wednesday.  
 Born to Mr. and Mrs. J. Sherratt, a ten-pound girl, Monday.  
 Mr. Mannie Shultz and Miss Muri Wilson visited friends at Conrad Sunday.  
 Bremmer & Strother have sold their stock of clothing to a party from Jefferson.  
 Mr. August Retmeyer has moved his family and goods to Renville, Minn., where he has bought a farm and will make his future home.

**Verdict Against M. & D. Ry.**  
 Fort Dodge, Nov. 16.—The jury in the case of J. T. Thompson vs. the Marshalltown & Dakota Railroad, handed in a sealed verdict. The verdict is in the nature of a big victory for the plaintiff, being awarded \$2,300 damages. The right of way sought by the defendants cut through a 120-acre farm of the plaintiff's in a manner that greatly decreases its value as a farm. The sheriff's jury awarded him \$850, but this amount was not satisfactory. An appeal was taken to the district court, with the above mentioned result. Chantland, Kenyon and Yeoman appeared for the plaintiff, and Bostford, Healy & Healy for the defendants.  
 The right of way case of Peter Surrrell vs. the Marshalltown & Dakota road, which was appealed from the sheriff's jury to the district court, was settled. The jury had placed the damage at \$400. Settlement was effected for \$850 and the case dismissed.  
 The railroad is the new extension of the Fraser road, which is building to Gowrie.

**BABY'S BIRTH**

Is looked forward to with expectations of joy and gladness. The ordeal of bringing the little one into the world, however, is a critical one for the mother-to-be, and her anticipations of the coming event are shadowed with gloom. Half the pain and all the danger of child-birth can be entirely avoided by the use of "MOTHER'S FRIEND," a scientific liniment of priceless value to all women. Sold by all druggists at one dollar per bottle.  
 A booklet, giving all details, will be sent free by Bradfield Regulator Company, Atlanta, Ga.
