

A REASON FOR IT.

There is Only One Pile Cure That Has Reached National Popularity and Reputation.

There are many popular medicines that are known in every household in America.

There are blood purifiers, nerve tonics, headache remedies, dyspepsia cures and cough cures which are sold in every drug store in the nation and beyond.

But all of these must divide their popularity with many rivals, no one remedy has the field to itself, with the single exception of pile cures, for it is a singular fact that there is but one pile cure that can be considered as having a national reputation.

It is true there are many pile remedies having a small local reputation for a year or two, but the Pyramid Pile Cure, which for seven years has steadily worked into the public favor by reason of its extraordinary merit, until it is known from Maine to California and from Manitoba to the Gulf.

The explanation is simple. It is because piles is in no sense an imaginary trouble that a bread pill or a simple saline or ointment will cure, but an obstinate, painful and often dangerous trouble, and a remedy to give satisfaction must possess positive and very apparent merit.

The worst cases of piles are relieved on the first application of the Pyramid and a cure will result in a reasonable time from its regular use.

Medical men use it in preference to operations because it is safer, is perfectly painless and the cost to patient is a mere trifle, as all druggists sell the Pyramid Pile Cure at 50 cents, and as it is used at night, it cures without interfering with regular occupation.

If suffering from any form of piles, bleeding, itching or protruding, a trial of the Pyramid will cure you and add another to its thousands of friends.

Kid-ne-oids relieved me of my troubles, and I will continue to use them as occasion requires."

DYNAMITERS AT LA FORTE CITY.

Old National Hotel Structure Suffers From Explosion.

La Porte City, Dec. 9.—Thursday night about 10 o'clock our citizens were startled by a loud report and a sudden shock, which shook the houses in all parts of the city. People rushed out of doors to ascertain what had happened. Investigation brought to light the fact that the explosion came from the old hotel building which George Banger purchased and is now tearing down on Commercial street, just below Hotel Terry. Several people who were standing on the corner at the hotel plainly saw the flash at the old hotel when the explosion occurred, and the smell of smoke coming from that direction, led them to think that the structure was on fire. Investigation showed that there was no fire in the building, but that at least one dynamite had been thrown into the floor where the charge of dynamite had been placed. Almost all of the windows in the building, which had been taken out and placed in the room where the explosion took place, were broken, but outside of this no damage was done. Had the explosive been confined no doubt the results would have been far worse, and the building would have been blown to pieces, but it appeared that it had just been thrown in on the floor and for this reason the damage done was not very great. Who the mine was and what the deed was attempted for is a mystery that is not yet fathomed. Mr. Banger was busy negotiating in tearing down the building and it looks as though the deed was committed out of pure cussedness.

A CLEVER SWINDLE.

Farmer Victimized by Alleged Coal Prospector.

Clinton, Dec. 9.—Henry Rede, a wealthy farmer, who resides across the river in Whiteside county, was recently victimized out of a large sum of money by some clever swindlers.

A few days ago a man appeared at his residence, claiming to be a geologist, and informed Mr. Rede that there was a large deposit of coal under his farm. A few days later a well-drilling outfit came along and spoke of the possibilities of coal on the Rede farm. A proposition was made to the drillers and they commenced at once to bore a hole in one of the most promising parts of the farm. The bargain was that the men were to receive 50 cents a foot for the drilling if no coal was found. In case coal was discovered they were to be paid 75 cents a foot extra. They began operations at once and after reaching a depth of 127 feet reported that they had struck a vein of coal. Mr. Rede went to the place where the men were drilling and on the removal of the drill it was shown that it had passed through a three-foot vein. Mr. Rede was elated over the prospects and paid the men at once, who immediately took their departure. He bought lots of adjoining land and pictured himself as a millionaire coal operator. He sunk a shaft ten feet by five to a depth of 127 feet, but on reaching the supposed vein found only a few pieces of coal that had been placed there, undoubtedly, by the drillers in order to receive the additional pay. Mr. Rede spent \$3,000 in sinking the shaft and all he has to pay for his trouble is an immense hole in the ground which will be filled up at another large expense. He is a popular and progressive man and the people at Albany are considerably incensed over the matter. It is said warrants are out for the arrest of the swindlers and if they can be caught will undoubtedly pay dearly for their dishonest cash.

Won from Eldora.

Iowa Falls, Dec. 9.—A post season game of football was played at Eldora yesterday. The first eleven from this city, accompanied by a delegation of football enthusiasts, went down on a special over the C. I. & D. The best football talent of the two cities were pitted against one another and, as was confidently expected, it was one of the best games ever played in the county. The score of 18 to 11 in favor of the team from this city naturally makes the admirers of the game here jubilant over the outcome, as it makes the season one continuous round of victories, the home team having won every game played this season, entitling them not only to the championship of the county but to central Iowa.

The Eldora Story.

Special to Times-Republican.

Eldora, Dec. 9.—It was a Waterloo for Eldora. The Iowa Falls football team, accompanied by a big crowd of rooters and carrying a banner which read "We won't be beat," marched to the fair grounds yesterday afternoon where they met our local team upon the gridiron. A big crowd was in attendance and some money was in sight. The game was played in its most brutal and condemnable way. It was a game of fouls and slugging and resulted in a score of 18 to 11 in favor of Iowa Falls. The absence of Lepley, the sickness of Couger and the disability of Johnson greatly weakened the invulnerable line of the local team and enabled the visitors, who put up a brilliant game of end plays, to secure three touchdowns and as many goals, while the locals secured but two touchdowns and but one goal. The visiting team had been strengthened and was in the pink of condition, with the record of not having been scored against this season, so that the

INFECTED CATTLE AT AN ORPHAN'S HOME.

Davenport, Dec. 9.—The recent condemnation of twenty-three cattle out of a dairy herd of thirty-eight head at the Soldiers' Orphan's Home was followed by a post mortem inspection of the carcasses here yesterday. Dr. J. W. Griffith, of Cedar Rapids, assistant veterinarian at the Soldiers' Orphan's Home, of this city, passed ten of the condemned cattle for beef and recondemned the thirteen others. There had been no illness at the home due to tuberculosis in the herd. Milkmen are greatly excited over the condemnation, and say the official who comes to their farms for a similar purpose will get a shotgun reception.

THE INDIAN SCHOOL CASE ARGUED.

Dubuque, Dec. 9.—The Tama county Indian case came before Judge Shrago yesterday for trial. It may be some time before it is decided. The case is peculiar and will have considerable bearing on our laws regarding Indian children in schools. This case grows out of troubles covering a period of two years, and several points are argued. The first point is that the school cannot be compelled to attend school; second, that the state courts have no jurisdiction over Indians; third, that Indian agents have no right to compel Indian children to attend school against the consent of their parents.

Don't give them tea or coffee. Have you tried the new food drink called Grain-O? It is delicious and nourishing and takes the place of coffee. The more Grain-O you give the children the more health you distribute through their systems. WAS KNOX INSANE?

People of Victor Excited Over His Incarceration in Mt. Pleasant Asylum.

Says He Was Only Drunk and Should Not Have Been Committed.

Superintendent Miller Explains the Father Straven Affair at the Mitchellville School.

Special to Times-Republican.

Victor, Dec. 9.—People here are considerably wrought up over the case of Milo Knox, whom they believed has been wrongfully sent to the insane asylum at Mount Pleasant. Knox was taken before the insane commission and by them declared of unsound mind, but the general opinion is that he was only drunk. The public is incensed at the decision and it may be that steps will be taken to have him released. The case of Knox shows how easily a great crime may be committed by unscrupulous persons, often without the knowledge of the commission examining the insane person. The commission which examined Knox is not suspected of any ulterior motive. It is generally believed the intention was good, but that they erred in judgment.

MILLER'S EXPLANATION.

Superintendent at Mitchellville Gives His Side of the Father Straven Case. Special to Times-Republican.

Victor, Dec. 9.—Superintendent J. N. Miller, of the Mitchellville reform school for girls, has sent to the board of control an explanation of the charges that have been made concerning the arrest of Father Straven, a Catholic priest, who went to the institution on Thursday as a pardon for a girl confined there. The story was related by Father Straven, that when he presented the papers and indicated a desire to take the girl to a Catholic institution Mr. Miller refused to turn the girl over to him and demanded the papers; that he finally had the reverend gentleman arrested by a deputy sheriff who was acting as guard in the institution, and took possession of the papers. On his return to Des Moines Father Straven stated the facts to the board of control. Mr. Miller has been heard from with his explanation. He says that the only authority he can give is that a girl from the institution was taken to the home of a man named Straven, who issues the pardon on recommendation of the board of control. He explains that the paper which Father Straven brought to him was a pardon, which must be honored or rejected. There was no authority in himself as superintendent to refuse the girl's freedom. But, on the other hand, he has no right to turn over the custody of a girl who has been pardoned to any person unless a properly authorized agent of the parents or guardian, if she be under age. The girl, he says, was taken to the home of a man named Straven and declared she would commit suicide if compelled to do so. Therefore the superintendent declined to give the girl her freedom and asked for the papers, which he is presumed to keep in his records. This, he explains, was the business of the matter. In his statement to the board he does not say whether he had Father Straven arrested or offer any explanation of such proceeding. All the members of the board are now of the city and no action has been taken looking to further investigation of the matter.

Cedar Falls, Dec. 9.—City Marshal Williams of this city arrested a young man by the name of E. J. The young man was here five or six weeks ago, working in the interests of the Chicago Ocean. A number of our young ladies were mugged upon the young chap. He showed his testimonials, among them being one from Mayor Harrison of Chicago. Good skating was indulged in by our young people on the river last Wednesday.

LECTURE COURSE A SUCCESS.

Special to Times-Republican.

Sac City, Dec. 9.—The third entertainment of the lecture course was given Wednesday evening of this week to a crowded opera house. The Lyric Ladies of Chicago, though well received last year, last Wednesday delighted the people more than before. The Opera House Association in the three entertainments so far of the lecture course has received sufficient money to pay for the entire course. This good result of course is most gratifying to the association, which lost money on the lecture course last season.

The Chicago & Northwestern railroad has promised to furnish the factory company water if they will locate near their depot. It is pleasing to Sac City to note that the Northwestern has gotten a move on itself since the Milwaukee came into town.

THE PASSENGER STATION AND THE FREIGHT DEPOT OF THE MILWAUKEE ARE ABOUT COMPLETED.

PLEASUREABLE ANTICIPATION.

When Food is Used in Moderation. If you are one of those who have eaten too freely of Grape-Nuts and have been satiated we have a word of help and advice for you.

It is a concentrated food and the system requires and can handle only a small amount at a time. If too much is taken nature revolts against the overloading. Be moderate and enjoy the food day by day. It is too valuable to your system and to your sturdy health to give over. It is a common fact that for people to overeat candy or any other delicacy at some time in life and from an excess be given to abstinence. But with Grape-Nuts it will richly repay you to start again on the fixed allowance of not more than three heaping teaspoons for the cereal part of the meal and so long as you use the food in moderation you will stick to it and look forward to the meal with pleasurable anticipation. Remember Grape-Nuts furnishes the most delicious tasting cereal food known and contains the certain elements nature uses for repairing and rebuilding the brain and gray matter in the nerve centers. The steady and moderate use of Grape-Nuts can depend upon daily nourishment of the kind that gives one that feeling of reserve strength so essential to a successful, active brain worker.
