

DOES NOT DISAPPOINT.

The New Discovery for Catarrh Seems to Possess Remarkable Merit.

A new catarrh cure has recently appeared which so far as tested has been remarkably successful in curing all forms of catarrh, whether in the head, throat, bronchial tubes, or in stomach and liver.

The remedy is in tablet form, pleasant and convenient to take and no special secrecy is maintained as to what it contains, the tablet being a scientific combination of Guaiacum, Eucalyptol, Sanguinaria, Hydrastis and similar valuable and harmless anti-septics.

The safe and effective catarrh cure may be found at any drug store under the name of Stuart's Catarrh Tablets.

Whether the catarrh is located in the nose, throat, bronchial tubes or stomach, the tablet seems to act with equal success, removing the stuffy feeling in head and nose, clearing the mucous membrane of throat and trachea from catarrhal secretions, which cause the tickling, coughing, hawking and gagging so annoying to every catarrh sufferer.

Nasal catarrh generally leads to ulceration in some cases to such an extent as to destroy the nose entirely and in many old cases of catarrh the bones of the head become diseased. Nasal catarrh gradually extends to the throat and bronchial tubes and very often to the stomach, causing a very obstinate trouble, catarrh of the stomach.

Catarrh is a systemic poison, inherent in the blood, and local washes, douches, salves, inhalers and sprays can have no effect on the real cause of the disease. An internal remedy which acts upon the blood is the only effective treatment and Stuart's Catarrh Tablets is the safest of all internal remedies, as well as the most convenient and satisfactory from a medical standpoint.

Dr. Eaton recently stated that he had successfully used Stuart's Catarrh Tablets in old chronic cases, even where ulceration had extended so far as to destroy the septum of the nose. He says: "I am pleasantly surprised almost every day from the excellent results from Stuart's Catarrh Tablets. It is remarkable how effectually they remove the excessive secretion and bring about a healthy condition of the mucous membrane of the nose, throat and stomach."

All druggists sell complete treatment of tablets at 50 cents and a little book giving the symptoms and causes of the various forms of catarrh will be mailed free by addressing F. A. Stuart Co., Marshall, Mich.

TO REMODEL THE JAIL

Supervisors Will Spend the Sum of \$4,800 on County Bastille.

Ceiling and Portion of Walls to Be Lined With Steel and Another Floor Added.

Crooks to Be Shut Off From Communication With the Drunks and Vagrants.

The supervisors have awarded a contract for the remodeling of the county jail, the work calling for an expenditure of \$4,800. The changes were agreed to because of the belief that they were demanded to afford greater security to the bad criminals confined therein from to time.

The contract has been awarded to the Polley Company, of St. Louis, and the work is to be completed within ninety days. When the present county jail was built it was conceded to be the best in the state. It was not the intention of the board serving at that time to have the outer corridors used for confining prisoners, hence the walls were built of brick, the ceiling was covered with corrugated iron. The jail proper was a series of steel cages in the center of the main room, built in two tiers and with steel enclosed corridors running the length of the cages. There was no means of keeping the ordinary prisoners, such as vagrants, drunks and those serving short sentences for various offenses, separated from the hardened criminals awaiting trial. It is for the purpose of providing means of keeping the two classes of prisoners separate and to prevent the escape of the bad ones that the contract for remodeling the interior of the prison was awarded.

The plans call for the lining of the outer walls and the ceiling with steel, from a line even with the floors of the second tier of cells. Then a steel floor will be extended from the walls to connect with the floors of the upper cells, thus making two separate and distinct departments. The upper cells will be used for the worst of the criminals and the lower cells, which will not be changed, will be occupied by the petty criminals. The stairway to the upper cell room will be from the outer office, and the door to the main room where the petty prisoners can communicate with or aid in any way the hardened criminals. Small windows will be cut thru the outer walls in order to afford light and ventilation for the upper cell room. The changes have been demanded by a majority of the members since the present jail was built.

CAUCUSES ON TEACHERS

School Board Considers Teachers Salaries for Next Year.

The members of the school board held a caucus Wednesday evening for the purpose of hearing a report on the progress of the teacher's committee in arranging the teachers and salaries for next year. The board will attempt to secure contracts with nearly all of the present corps of teachers, and does not contemplate many changes, although there will be several. Principal McCowan, of the high school has not definitely decided whether to remain or pursue an advanced university course the coming year. The board has agreed to offer him an increase of \$100 for the year if he remains. Miss Harriet Perkins will not accept her position for next year, and it is probable there will be one or two additional vacancies in the high school corps. Advances in salaries to the maximum paid in the various grades will be given to some of those teachers who had not served the requisite length of time to entitle them to receive this amount, and this increase will affect a large number of grade instructors. In the Woodbury school there will be a vacancy in the principalship, to succeed Miss Mary Hostetter, who is the republican nominee for county superintendent and will therefore be elected to that position next November. Miss Mary Evans of the same building does not intend to teach next year and a successor to her will also be chosen. There is some talk by the board members of electing a man to the principalship of the Woodbury building. As usual there are to be several vacancies in the corps because of the forthcoming marriage of some of the teachers soon after the close of the present school year. The contracts have been made out and are being sent to the various teachers whom it is desired to retain. Final action will be taken by the board at the regular meeting in May.

TO SUCCEED COUR.

Master Mechanic Brooke Appoints William Jordan Acting Foreman of Boiler Shops.

Master Mechanic George D. Brooke, of the Iowa Central, appointed Wednesday Mr. William Jordan as acting foreman of the company's boiler shops, in place of Eugene J. Cour, deceased. Mr. Jordan has been an employe of the company for the past ten years, having learned his trade in the shops here. He is, of course, an experienced boiler maker and the appointment is made "acting" as a mere formality, and in order to allow Mr. Jordan to prove his capability. Mr. Jordan is a young man, a son of Mr. and Mrs. Michael Jordan, of 601 East Linn street, and is one of the best known employes in the shops. His many fellow employes are glad to see one of their number recognized in the position, rather than to see an outside man come in. Jordan is a capable worker, and is not fearing that he will be able to prove himself capable of filling the position satisfactorily.

Caught a Dreadful Cold.

Marion Koekke, manager for T. M. Thompson, a large importer of fine millinery at 1658 Milwaukee avenue, Chicago, says: "During the late severe weather I caught a dreadfully bad cold, which kept me awake at night and made me unfit to attend to my work during the day. One of my milliners was taking Chamberlain's Cough Remedy for a severe cold at that time, which seemed to relieve her so quickly that I bought some for myself. It acted like magic and began to improve at once. I am now entirely well and feel very pleased to acknowledge its merits." For sale by all druggists.

\$1,100 FOR KLETZING

Jury Awards Him Damages in That Sum Against F. W. Armstrong.

Jury Ages Upon a Verdict After Being Out About Four Hours.

Three More Prisoners Plead Guilty—Special Verdict of Jurymen.

The malicious prosecution suit of R. E. Kletzing against F. W. Armstrong, the outgrowth of financial troubles between borrower and loan broker, culminated in the district court today, when a jury awarded the plaintiff damages in the sum of \$1,100. The arguments were completed and the case given into the hands of the jury at 10:30 a. m. today, and at 2:30 the jury had reached an agreement. Kletzing originally sued for \$10,000, but the defense succeeded in having this reduced to \$4,500 by denouncing some of the counts. The case has occupied three days. The jury in its award fixed the actual damages in which Kletzing was entitled to recover at \$500, for loss of time, expense and inconvenience, and fixed the exemplary damages at \$600. It is probable the case will be appealed to the supreme court.

CHANGE THEIR PLEAS.

Thompson, Childs and Ryan, the three men held for entering the Economy store and taking therefrom a pair of shoes, came into court this afternoon and changed their pleas to guilty. Judge Burnham did not fix the time for passing of sentence. The maximum penalty for this offense is one year in the county jail.

John Melha, the colored man, also appeared in court while his attorney argued for a dismissal of the indictment against him, on the ground that it was not supported by corroborative evidence. The motion was over-ruled by Judge Burnham.

A decree has been entered in favor of the plaintiffs in the case of the Iowa Business Men's Building and Loan Association against Jacob Hall.

A jury was secured late this afternoon in the suit of John Farnsworth against Philip Crumley. A number of the farmers who were drawn on the jury and who were short of help at home have been excused by Judge Burnham from service, and it was necessary to draw a special venire of twelve Wednesday afternoon.

The venire consisted of John Brandon, W. P. Watson, W. A. Sandoe, R. C. Dickey, W. W. Schick, J. W. Bates, E. M. Vall, Mike Reusch, H. C. Chinn, C. H. Still, Henry McNeely and W. B. Milhiser.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constituting the condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by catarrh, which is often but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.
