FROM ALL OVER IOWA The Doings of Your Friends in Iowa Towns --Your Old Home.

Public Opinion on Iowa Subjects as Reflected in the Iowa Newspapers.

The News of Iowa From Hundreds of Different Towns and Communities.

HARMLESS AMUSEMENTS. [Denison Review.] Mr. W. O. Payne of the Nevada Representative is a dear, good fellow, but just at this time he is affected with the restricting monomania. This is certainly about as bad as the 14-15 puzzle when it once takes a firm hold on a man. Some time ago we met Mr. Payne in Des Moines, his pockets were bulged with maps and he had plans without end at the tip of his tongue. The legislature will not, however, make any changes. The amusement of making redistricting plans is harmless, and we hope Mr. Payne is enjoying a great amount of pleasure from it.

CARRIERS APPRECIATE FAVORS. [Shenandoah Sentinel.] The rural mail carriers speak very highly of the many accommodations and kindnesses shown them by the patrons the past winter. Many presents of meat and butter and honey and milk and other good things have been made to them, to say nothing of the horse feed. Without this help the carriers could not have gotten thru the winter without loss upon the meager salary paid them. When they stop for noon lunch the patrons are always kind and careful to have hot coffee ready for them. It is a considerable hardship for a mail carrier to ride twenty-five miles with the mercury "way below zero and to stop and handle mail a hundred times, and the kindness of the patrons in showing their appreciation goes far to make the carriers satisfied with their job. Usually, too, the farmers have been kind in opening the roads thru the snow drifts. A few exceptions have been noted, but as a rule the patrons have won the approbation of the carriers.

TEACHING IN THE PHILIPPINES. [Emma I. Evans in Woodward Enterprise.] I came here hoping I could bring along the enthusiasm for the work that used to save one from weariness at home, but these people are not clean at home or in person. I can not like the work for the sake of the native. I have managed to keep up enthusiasm by a very vigorous waiving of my youthful patriotism, but am so sorely grown that while I do my best it is really entirely for love of America and not of the Filipino, and that love has to be spurred by the fact that the scenery, many of the common birds, insects and plants are all "bureo" and by the further fact that it pays. I am not conscious of any lack of effort on my part while I work, but am not so sorry when Saturday comes as I used to be of old.

GAMBLING. [Guthrie Guthrie.] The present term of court has unearthed the fact that there is considerable petty gambling in this town among the boys and young men. This vice is one of the most invidious of the climate of the human race, and it permeates and honeycombs all classes of society. A great number of people look upon semi-gambling devices with equanimity, but hold up their hands in holy horror when they come to hear of the common bean, involving in vulgar and vicious gaming, forgetting that these small devices are the ones that initiate the youth, and are the stepping stones to "poker."

IOWA NEWS ITEMS

Terril. The Terril creamery has paid its patrons \$61,843.12 in cash since April 1, 1901.

Next week a force of men will begin the erection of a third story to the Dutton House.

The council met recently and passed an ordinance establishing the limits around the square and prohibiting the erection of any but brick and stone buildings in that territory.

The Ottumwa Telephone Company has its line completed into the places and patrons of the Eddyville Exchange can now get direct communication with Ottumwa. The distance is about fifteen miles.

The Enterprise says Woodward people are feeling very thankful that, so far, they have no smallpox cases. Last year there were two cases near town, but great care was taken, and the disease did not spread beyond the one house.

The Globe-Gazette says: Treasurer Reinke of the Memorial University board and Colonels Sotter and Morris are in Chicago to attend an important meeting of the entire board. The work on the first building has progressed so well that the board is beginning to get things ready for a possible opening in the fall.

The combination sale at this place last Saturday was a great success, and filled the town to overflowing with farmers and others who came to buy and sell. The value of the property sold was \$2,050, consisting of 27 head of horses, a head of cattle, chickens, all kinds of machinery, household goods and other articles.

The McKinley memorial subscription paper which has been in the hands of J. W. Patterson at the internal revenue office in the custom house for several months, will be closed up the last of this month and forwarded to Washington. The amount contributed thus far reaches about \$100, most of which was contributed by federal officeholders and postoffice employees.

The Guthrie says: Sam Kee, the celestial that does the washes for our people, had a new experience the other day by a very vigorous waiving of his youthful patriotism, but am so sorely grown that while I do my best it is really entirely for love of America and not of the Filipino, and that love has to be spurred by the fact that the scenery, many of the common birds, insects and plants are all "bureo" and by the further fact that it pays. I am not conscious of any lack of effort on my part while I work, but am not so sorry when Saturday comes as I used to be of old.

The Shenandoah Political Equality Club has been circulating a petition asking the legislature to submit a woman suffrage amendment to the voters of the state. This petition was forwarded to Des Moines, Tuesday, if it contained 1,500 signatures. Of this number of signatures 1,500 live in the immediate vicinity; 970 of the total number were women and 590 men.

Main street business men are seriously agitating the question of paving the thoroughfare with asphalt. This coming spring the impetus given to paving in Mason City during the past year has had the effect of arousing a longing for similar work in this city and Main street offers a fine opportunity for the same. It is said that a goodly portion of the business men on the street would favor such a proposition.

Cedar Rapids now contains within its geographical limits the champion bowler of the state of Iowa, a game in which much local interest has been aroused of late. The new champion is Joseph Patten, a tonsorial artist located in the Jim block who broke the state record at Burlington, Ia. It was by a very close margin but the record is severed, nevertheless. In five straight games Patten scored 1025. The previous best record in Iowa was 1024.

Spencer. Moore was in town the last of the week, having sold a car load of wheat to the Spencer Mills from his Gillette Grove farm, receiving 63 cents on track. An entire car load of wheat, the occurrence among city country farmers, says the News. While some of our farmers produce some surplus wheat, this is the first instance when one had an entire car load to dispose of at one time. Many of our farmers grow no wheat at all, believing they secure better returns on other crops.

Tipton. After escaping for a long time while nearly every other community in the state has been more or less affected by the crime in this town, Tipton has at last developed two mild cases of smallpox. The victims are Mrs. May Hibbard and Mrs. Beaver Dr. Matthi of Davenport, a member of the state board of health was here Monday and examined the cases and pronounced them smallpox. The local board of health met at once after learning of the presence of the disease and inaugurated vigorous measures to prevent the spread of the disease.

Elton. The Elston Public Library now has a large handsome substantial book case made by M. C. Needham who donated his labor; it is just the thing for our library which is gradually increasing. The ladies in charge have ordered 320 worth of books which with the donations made by T. J. Clark, Mrs. C. E. Zwick, Mr. and Mrs. Earl and others makes quite a respectable library. We also received half of the \$25 donated for library purposes by Joseph Clough and one third of the money left from the lecture course, as reported by the Register.

Muscataine. One of the oldest buildings in the city of Muscatine, and around which a cluster many endearing memories is now about to be sold to Company C, to be used as an armory. The old con-

gregational church was built in the years 1843 and 1844, the pastor at that time being Rev. A. B. Robbins, who came to this city from Massachusetts. He remained with the church until he was removed to the old parsonage in point of service in the state. The new church was built early in the '90's and the old one vacated in 1892. Since that time it has been used for various entertainments, and has been a handy shelter in many instances. It is said the price agreed upon is \$2,500.

The directors of the Fort Dodge Clinker factory held a meeting for the purpose of electing officers for the coming year and also to look over the business done the past and the prospects for the ensuing year. The company did a good business during the past year, but the prospects for the ensuing year are much brighter. Since the first of the year the factory has been in full operation and business has been unusually good. One of the most encouraging prospects for this year is the increase in patronage of local brickers.

Denison. The Business Men's Association has shown commendable activity of late. This was notable when so many responded to the call for a meeting and when such active interest was taken in all that affects Denison's interests. * * * Amos A. Runkle, foreman of the Review office, died on the 12th after a brief illness, aged 23. Mr. Runkle was at work on the previous Saturday. Shortly before noon he was seized with feeling badly and went home to lie down. By night he was seriously ill and the disease developed so rapidly that by Tuesday he was unable to get up. He died on Wednesday afternoon, having been up on account of the prevalence of smallpox throughout the state. It was feared that he suffered from this disease, but the physicians now announce positively that he did not have smallpox, but that his death was the result of typhoid fever and pneumonia. This highly esteemed man left a wife and one little daughter.

Sheldon. Sheldon will have a new city building. At the council meeting Milt H. Allen bought the city lot on Third avenue, paying \$2,500 for it. On Wednesday a committee of the council bought Fourth street, across the street from J. Renken's home, paying \$350 for it. This leaves \$2,150 of the money received for the sale of the other lot to be used in the erection of the building, which will be a two-story, two-story high. In this building will probably be placed the public library. It will also contain a city hall, jail, mayor and clerk's office, fire engine, and hose room, and it will also contain a mail for city records. This will prove good news to our people. The old engine house on Third avenue, which has been an eyesore for a long time, will now give way to a modern building, but for what purpose the building will be used is not yet decided. Thus does our city continue to improve, says the Mail.

Davenport. The mass meeting at Iberian hall Sunday afternoon for the purpose of considering the advisability of taking action on the compulsory education and free text book bills now before the Iowa legislature, was marked by an attendance that filled the hall. The speakers were P. H. Smith, J. W. Patterson, and the free text book and compulsory education bills got it from all sides. The sentiments expressed were that the compulsory education law was not necessary, that it violated the rights of parents to control the education of their children, that it went out of its way in designating what they should be taught, that it contemplated an unwarranted interference with parochial schools, that it required reports from the principals and the principals of the public schools on demand of the secretary of the school corporation, and that the inconvenience and surveillance for which a trustee officer stood was objectionable to the last degree. The free text book law was objected to as putting a burden on all people for a privilege in which only part would share.

Iowa at Washington. Washington, Feb. 19.—Johnson has been appointed postmaster at E. line, Appanose county, in place of N. A. Wetton, resigned.

Postmasters commissioned: John G. E. Carlson, Essex; Frank A. Larson, Rock Rapids; Florence B. Nixon, Talmadge.

Favorite Nearly Everywhere. Constipation, biliousness, depression, disordered health, DeWitt's Little Early Risers stimulate the liver, open the bowels and relieve this condition. Safe and thorough. Never gripe. George P. Powers.

Defies the Governor. Albuquerque, N. M., Feb. 13.—Former Governor L. Bradford Prince, in an open letter to Governor Otero, announced that he will continue to act as regent of the College of Agriculture and Mechanic Arts in spite of the governor's letter notifying him of his dismission from that office. Mr. Prince denies that a governor of a territory has the power to remove a territorial official during his term of office.

Another Province Organized. Washington, Feb. 13.—Governor Taft stated today that he had received a cable message from Commissioner Wright, acting governor of the Philippine, stating that the province of Nueva Vizcaya, in the northern part of Luzon, had just been organized and given a civil form of government. There are now about thirty-five organized provinces.

Church and will return from that place to Grand Rapids direct. The friends of the Uncle Sam's club will be pleased to know that about \$500 worth of money for the new club house. Subscriptions are still being taken and if several hundred dollars more can be secured than already planned. The location is still undecided. An effort will be made to secure a lot north of the railroad but falling in this the building will be located according to the advice of the friends of the movement.

The sophomore class of the college is to elaborate Washington's birthday entertainment for the senior class of the college to be given in the Rand gymnasium next Saturday evening.

MRS. SNELL COFFIN BANKRUPT. Schedule in Milwaukee Court Given Liabilities of \$53,586. Milwaukee, Feb. 18.—Mrs. Grace Snell Coffin was discharged from bankruptcy in the United States court yesterday. Her liabilities were \$53,586 and the only visible asset was a \$12,000 home in Salem, Kenosha county, which was claimed as exempt.

Only \$475 in liabilities was secured. The unsecured creditors number sixty and their claims run from \$150 down. Among them are some Milwaukee merchants.

While Mrs. Coffin was discharged it may be a year before the estate is settled. Mrs. Coffin claims an undivided quarter interest in the Cook county estate of Amos J. Snell, which amounted to \$500,000. The property, however, is in the hands of the trustees of the estate of Henrietta Snell, who claims title against Mrs. Coffin.

UPHOLDS SUICIDE CLAUSE. Federal Court Holds That It Nullifies Life Insurance. St. Louis, Feb. 17.—The United States circuit court of appeals has decided that the suicide clause in a life insurance policy must be respected. The ruling was rendered yesterday by Judges Caldwell, Thayer and Sanborn, releasing the Mutual Life Insurance Company of New York, from paying the widow of Edward S. Kelley \$7,500.

Kelly committed suicide at Colfax, Ia., Feb. 21, 1895. A clause in his policy stipulated that it became null if he took his own life within three years of the issue of the policy, and the company refused to pay.

The case was tried in the United States circuit court of Iowa, and a verdict was rendered that the company must pay the policy, regardless of the suicide clause. It was this decision that was reversed yesterday.

CHICAGO PACKERS SKEPTICAL. Know Nothing About Big Company to Handle Meats and Meat Products. Chicago, Feb. 18.—The reported formation of a \$900,000 corporation to build abattoirs to handle meat products and by-products is not seriously considered by local packers. The men back of the company, it is said, are not known in Chicago, and the stock yards men here are represented as at a loss to understand why a corporation of such proportions should be formed in South Dakota.

G. F. Swift is quoted by the Tribune as saying: "I never heard of the company and do not believe anybody else here has information on the subject."

"It is news to me," said Edward Morris of the Nelson Morris Company. "I doubt the authenticity of the report." Michael Cudahy also denied knowledge of the concern.

Homeseekers' Opportunity. On the first and third Tuesdays of January and February, 1902, the Iowa Central will sell homeseekers' excursion tickets to points in Iowa, Minnesota, Montana, Nebraska, Kansas, Oklahoma, Texas and elsewhere in the south, southwest and northwest, at one fare plus \$2 for the round trip, with final return limit of twenty-one days. The Iowa Central route is the acknowledged short line to the north, north-west, west, south and southwest, and has first-class equipment, thru chair cars and sleeping cars, with fast time.

Homeseekers' Excursions. Tickets to read in points in the United States on sale at all ticket offices of the Chicago Great Western Railway, on the first and third Tuesdays of January and February at the low rate of one fare plus \$2 for the round trip. Good to return in 21 days from date of sale. For detailed information address J. A. Ellis, ticket agent, Chicago, Ill.
