

JAS. H. MONTGOMERY, M. D. In a Carefully Prepared Article recommends Dr. D. Kennedy's Favorite Remedy.

In a recent issue of the New York Magazine of Sanitation and Hygiene, the recognized authority on all matters pertaining to health, James H. Montgomery, M. D., says editorially: "After a careful investigation of Dr. David Kennedy's Favorite Remedy, a specific for kidney, liver and bladder troubles, rheumatism, dyspepsia and constipation with its attendant ills, we are free to confess that a more meritorious medicine has never come under the examination of the chemical and medical experts of the New York Magazine of Sanitation and Hygiene. In fact, after the most searching tests and rigid inquiry into the record of Dr. David Kennedy's Favorite Remedy, it becomes a duty to recommend its use in unequivocal terms to every reader of this journal whose complaint comes within the list of ailments which this remedy is advertised to cure. We have obtained such overwhelming proof of the efficacy of this specific—have so satisfactorily demonstrated its curative powers thru personal experiments that a cure for the interests of our readers leads us to call attention to its great value."

"JAS. H. MONTGOMERY, M. D." All druggists sell Dr. David Kennedy's Favorite Remedy in the New 50-cent size and the regular \$1 size bottles. Sample bottle—enough for trial—free by mail. Dr. David Kennedy Corporation, Randolph, N. Y. Dr. David Kennedy's Cherry Balsam Best for Colds, Coughs, Consumption. 25c, 50c, \$1.

Suit Pocketbook and Stomach. Most grocers carry a full line of "Rec" brand pocketbooks. Ask him to let you examine them. Among the "forty good things" which we put up you are sure to find half a dozen—perhaps more—that will suit your pocketbook as well as your stomach.

An especially attractive article in the way of canned meats is lunch tongue. It is sold in three sizes—1, 2 and 3 lbs. Economical, palatable, wholesome, and with an exquisite flavor. It is a welcome addition to any table. Other articles which meet with a ready sale are—Potted chicken, potted turkey, lean loaf, Vienna sausage, pork and beans, and corned beef hash. They are put up in patent key-opening cans—turn the key and the can is open.

The nicest Pattern of

English Dinner Ware

We have ever offered at a medium price

OPHTHALMIC SURGEON

INFIRMARY

24 EAST MAIN STREET ESTABLISHED IN 1872 This infirmary has been established in Marshalltown for twenty-seven years, where hundreds of patients have been treated yearly, and where every preparation is made for the treatment of all diseases of the eye and ear, nose, and throat, and all surgical operations on these organs which are necessary for Entropion, Pterygium, Strabismus, Myopia, and all other eye diseases. This infirmary has treated over 10,000 patients in the past twenty-seven years in this city, reference of which can be had by addressing the above, or by other references correspond with the business men of Marshalltown or Marshall.

Fur Factory

We have a large line of fur garments for next season in the latest styles. Our fur jackets are guaranteed to fit and wear. We are also showing the latest novelties in scarfs, neckwear, collarettes, muffs, etc. The style and quality of our garments can not be excelled. It is better for the customers to buy their furs from the factory, where you can get them at wholesale prices and select your fur while the stock is complete, and also have more advantage of getting a first-class garment with the lowest prices. It is also better to have your old garments repaired before the busy time begins.

JUST TO PLEASE THEM

Jim Parsons of Rock Rapids Accepts Eleventh District Democratic Nomination

THE COMMITTEE WAS URGENT Meeting at Sioux City and All Kinds of Argument Used to Persuade Him to Take the Nomination—Will Make a Perfunctory Campaign in Most of the District.

Special to Times-Republican.

Sioux City, Sept. 27.—James M. Parsons, of Rock Rapids, will be the democratic candidate for congress from the Eleventh district. The matter was decided at a meeting of the committee yesterday afternoon. Parsons was present at the meeting and only consented to accept the nomination after prolonged pleading by the committee members. When the situation had been talked over at some length one of the committee turned to Mr. Parsons. "Jim," he said, "the convention at LeMars wanted you to run and you refused. It wanted either you or Quick or Whiting. Neither of you would have it. Since then the nomination has been passed around all over the district; it's been refused by everybody who had a chance. It's becoming a sort of laughing stock.

"If we nominate some man who hasn't yet had a chance to refuse, he'll be laughed out of serious consideration. They'll say, 'There's a chap that must have wanted a nomination mighty badly to take one everybody else refused.' Such a candidate wouldn't even be able to get a hearing.

"Now, here we are, back of you. You were the first choice all along, and everybody knows it. You accept, and everybody will know you did it in an emergency, unselfishly, for the sake of the party.

"They wanted Quick just as much as LeMars as they wanted me," he said. "When you had the true or not," retorted Quick, "I'm running on the state ticket for supreme judge. I'm not eligible. Here I've been the easiest mark in northwest Iowa for ten years. Whenever there was a nomination nobody would have it, they give it to me. I've been running for office on former hope all the time, and was never elected but once, to the majority. And I'm running again now on the state ticket. It's up to you, Jim."

Mr. Parsons scratched his head, and the insistence was redoubled. "I'll tell you in an hour," he said, and went out to lunch. At the expiration of the hour he met the committee again. It was soon made plain that he had decided to yield. The nomination was formally made, and will be forwarded at once to the secretary of state.

Mr. Parsons is widely known in northwest Iowa. He has lived at Rock Rapids for twenty-one years and is 44 years old. He has made a fortune practicing law and dealing in lands. He has been interested in some of the largest and most important cases ever tried in this part of the state. He has been county attorney of Lyon county, mayor of Rock Rapids and candidate for attorney general on the democratic ticket.

Democratic Nominations. Special to Times-Republican.

Toledo, Sept. 27.—The democrats of the Seventeenth judicial district, at their convention held here yesterday, placed in nomination candidates for district judge, to oppose Caswell and Burnham, republicans, named the following: J. J. Mosmet, of Benton county, and C. D. Bradshaw, of Tama county. A. W. Johnson, of Boone county, was also named. J. F. Allen, of Benton county, chairman; Byron Webster, of Marshall county, and C. E. Waiters, of Tama county.

NAILED HIM TWO YEARS. Negro Who Assaulted Centerville Sheriff Will Pay a Penalty.

Centerville, Sept. 27.—Charles Seals, the negro prisoner who assaulted Deputy Sheriff Dell Davis in the county jail a few weeks ago and was driven off by the sheriff's wife with an ax, has been convicted of assault with intent to commit manslaughter and sentenced to two years in the penitentiary. Wm. Anderson, colored, who assaulted his mistress at a colored jamboree in the negro quarters at Ray last June and cut her up severely, pleaded guilty to assault with intent to commit manslaughter and has been sent up for eighteen months.

WOODSEN REAGAN, who shot and killed his sweetheart in a "blind tiger" at Milledge two weeks ago and made a confession, but claimed he acted in self-defense, has been indicted by the grand jury for murder and his case continued until the next term of court. He is also colored.

The grand jury has also returned fifteen indictments for murder, assault with intent to commit murder, gambling, keeping houses of ill fame, nuisances and other crimes and minor offenses.

SPREAD BY THE DOGS

Dr. S. A. Brown Says the Hog Cholera is Spread by the Canines

TELLS HOW IT IS ACCOMPLISHED

Canines Feed Upon the Cholera-Infected Carcasses and Carry Germs of the Disease to the Swine—Farmers Advised to Give the Matter Attention and Satisfy Themselves.

Special to Times-Republican.

Sioux City, Sept. 27.—Dr. S. A. Brown, of Sioux Falls, treasurer of the Sioux Valley Medical association, advances the theory that hog cholera is spread almost altogether by dogs. He is now issuing public letters to the farmers of this section, giving this theory and advising them to watch their canines.

Hog cholera, he says in one of these letters, has cost Iowa and South Dakota in times past as much as \$30,000,000 a year. It is now prevalent in Woodbury county, the it is said at the stock yards that neither Nebraska nor South Dakota has yet reported it. But a buyer of wagon hogs at the yards tells the Tribune that he has been all over Woodbury county, in the hills of the central part, and the cholera has visited all parts this fall, and is still doing much damage. He tells of one farmer who lost 125 hogs in ten days from the disease, and many others who have sustained almost a heavy loss.

More than this, he predicts that with the immense amounts of soft corn to be fed this winter, cholera will spread in sections thus far immune, and that Nebraska and Dakota counties tributary to the Sioux City market will suffer from it.

In support of his theory that hog cholera is communicated by dogs, Dr. Brown says: "My own investigation has shown me that the disease is almost invariably spread by dogs. The farmer who has no dogs is a rarity, but there is one here and there, and he has no cholera among his hogs. It is well known that whenever a dog finds a carcass he rolls upon it so as to get the carrion into his hair. What he does it for is unknown.

He goes home with every hair of his body charged with what we call contagion of the dead animal suffered from. Hog cholera, as you know, is virulently contagious after the death of the animal, and so persistent that it will live in a carcass for two years. Let one dog die of cholera and every dog within a radius of many miles will find the carcass and load himself with infection. Dogs often travel with a female great distances, being away from home days at a time. They have great opportunities to find and carry disease. When they are at home their constant delight is to wallow and nag the swine. Now I ask you to give this matter your attention, and help with all the power of an influential newspaper to impress this upon the minds of your readers."

PROFIT IN WASTE. Grinnell Farmer Tells Something About Shingling Roofs and Economy.

Special to Times-Republican. Grinnell, Sept. 27.—Henry Booknauf, a farmer living northeast of town who is known all over this county for his life of most rigid economy and fair results therefrom addresses the following interesting communication to the Herald: "Only a year or so ago there was a Grinnell man said to me he could not see how I made so much money. My reply was there is Profit in Waste. I know it will be a long time before you get me to say that there are over \$100,000 wasted annually in the city of Grinnell by poor shingling. It is a subject to which I have given a great deal of study for over twenty-five years. My barn was shingled with the best material ordered to be shot a horse, supposed to have a broken leg. The depot roof was patched twice and last spring it was reshingled. My barn has never been patched and is good yet and will be for fifteen years to come. The depot will have been shingled twice before my barn roof leaks. Both buildings have about the same slope and were shingled with the same grade of shingles and nailed with the same kind of nails. Some people say the nails are no good, but how do they? I used the same kind of three penny wire nails. If I had been obliged to shingle my barn over last spring it would have cost me \$450, so you can see there is profit in waste. The secret is in the amount of nails used. It requires six or seven pounds of nails to properly nail down a thousand shingles. I know the majority will disagree with me but I am right nevertheless. Now this annual waste would pay all the school taxes besides build all the school houses in ten years, would have a large surplus. There is profit in waste. The annual waste in Iowa is very great, \$100,000,000 will not cover it. Study the subject for a few years.

H. R. BOOKNAUF.

ASSESSMENTS TOO LOW. Executive Council Will Issue New Instructions to Assessors.

Des Moines, Sept. 27.—An important question relative to the assessment of 1903 was taken up by the executive council yesterday. This was the matter of new instructions to assessors. The new instructions have not been formulated, but they doubtless will be at a meeting of the council next Monday.

The new instructions will be to call the attention of the assessors to the low assessments on real and personal property and the need of fixing the assessments at 25 per cent of actual value, as the law requires. A very broad intimation will be given that if the assessments are not made more clearly as the law requires the council will take the matter into its own hands and equalize the assessment next July.

Figures before the executive council at the time the last railroad assessment was made indicated real estate was assessed less than a fifth of its value and much personal property escaped. The council hopes that next year assessors will make an effort

ASSESSMENTS TOO LOW. Executive Council Will Issue New Instructions to Assessors.

Des Moines, Sept. 27.—An important question relative to the assessment of 1903 was taken up by the executive council yesterday. This was the matter of new instructions to assessors. The new instructions have not been formulated, but they doubtless will be at a meeting of the council next Monday.

The new instructions will be to call the attention of the assessors to the low assessments on real and personal property and the need of fixing the assessments at 25 per cent of actual value, as the law requires. A very broad intimation will be given that if the assessments are not made more clearly as the law requires the council will take the matter into its own hands and equalize the assessment next July.

Figures before the executive council at the time the last railroad assessment was made indicated real estate was assessed less than a fifth of its value and much personal property escaped. The council hopes that next year assessors will make an effort

to correct this state of things. In case the assessment on other forms of property is increased to something near what the law requires there will doubtless be an increase of the railroad assessment next year to keep pace with the increasing assessment on other forms of property.

The council is likely soon to take steps to obtain additional information from the county authorities as to the actual value of farm lands and other property.

THE GERMAN METHODISTS. Proceedings of the Conference in Session at Gladbrook.

Gladbrook, Sept. 27.—After the standing committees, some twenty-six in all, had been appointed Rev. L. J. Brenner, presiding elder of the Galena district, read his annual report, which was quite encouraging, showing a net gain in all departments. Rev. H. E. Hillmer, of the South Dakota district, next read his report, which likewise showed up a net gain. The bishop next called the names of all the effective preachers in these two districts, each passing in an interesting assessment of their collections raised for benevolence.

Thursday afternoon Rev. W. Wilkening, of Truxton, Mo., who is attending the conference, and represents the Orphanage of Warrenton, Mo., conducted a service in the English M. E. church.

Thursday evening Rev. W. H. Traeger, superintendent of Deaconess Home and German Methodist Hospital, of Cincinnati, O., spoke for an hour in the English M. E. church. He was followed by Rev. E. E. Wilson, who arrived at a late hour and spoke on "Missions in South America."

Friday morning the devotional exercises were conducted by Rev. C. Hess, of Freeport, Ill.

After the preliminaries Rev. E. W. Henke, presiding elder of the Upper Iowa district, read his annual report, which was replete with information concerning all departments in his district. He reported that all the ministers of his district were examined, and passed save one, who withdrew under complaint. Revs. A. M. Brenner and W. Koener were granted a supernumerated relation.

A number of visiting pastors were introduced to the conference and quite a number addressed the conference on various causes.

A new feature was introduced by the bishop by requesting each minister to give a report on the progress of his success they had in their work during the last year.

Friday afternoon in the English M. E. church Miss Josephine Corbin spoke on "Women's Home Missionary Work." Miss Corbin is a member of the "Woman's Foreign Mission Work."

This meeting was well attended and was a very interesting meeting.

Friday evening the Educational anniversary was held. Rev. A. Dalitz, of Keosauqua, and Prof. J. Schaub, sixty superintendents of schools of Floyd county, spoke and the bishop was present and spoke.

DEATH OF EDWARD TUDOR. He Was a Well Known Welsh Pioneer of Johnson County.

Iowa City, Sept. 27.—Edward Tudor, a prominent farmer of Union township, died at his home yesterday. He settled in Johnson county in April, 1845, was 78 years old and leaves two daughters and two sons. Thru his efforts many Welsh people came to Iowa and Johnson county particularly and he made it a point to assist his friends in getting settled on good farms. He was a republican in politics, had served on the board of supervisors and was well known in eastern Iowa.

Death of Leonard W. Parish. Cedar Falls, Sept. 27.—Leonard W. Parish, Jr., oldest son of Prof. L. W. Parish, head of the department of political science in the Iowa State Normal school, died at the home of his parents in this city at an early hour yesterday morning, after a lengthy illness from a complicated attack of appendicitis.

The funeral will occur Sunday afternoon from the auditorium of the State Normal. Rev. James E. Snowden, pastor of the Congregational church, conducting the services. Professor Parish was a one time superintendent of the Des Moines public schools.

Modern Woodmen at Glidden. Special to Times-Republican.

Glidden, Sept. 27.—A very modern Woodmen's World's day. They have a large delegation from Des Moines, Carroll, Coon Rapids, Scranton and Jefferson. There were some twenty-five new members initiated into the order. A grand parade was also held. The new M. E. church is about to receive its roof, but there is much to do before it is completed, which possibly will not be before next spring.

R. C. Kyle, of Columbus, O., was on our streets this week renewing old acquaintances.

A. E. Porter, of Guthrie, Okla., is with us this week.

Ditch Difficulty Settled. Special to Times-Republican.

Dike, Sept. 27.—The difficulty arising over the construction of a sewer ditch across a piece of Mrs. Vandell's land south of town was settled yesterday. LeClair Martin, a Cedar Falls lawyer, represented Mrs. Vandell and an attorney from Grandey Center acted in behalf of the city. The council held a special meeting and decided to pay \$75 for the privilege of digging the ditch across her field. The injunction which was served two weeks ago has impeded the progress of the sewer, such an extent that it is doubtful as to whether it can be completed before winter.

Wedding Near Laurel. Special to Times-Republican.

Laurel, Sept. 27.—A very pretty country wedding Thursday Sept. 25, was that of Clarence O. Paul and Jessie H. Crabtree, daughter of Mr. and Mrs. Alexander Crabtree, living three miles southeast of Laurel. Rev. Mark Masters, of Laurel, officiating. At high noon the couple were preceded by Ulla Ava Birks, cousin of the bride acting as flower girl, to an arch overhung with evergreen and trail of white ribbon, where the solemn words were said that united them for life. The bride wore a fitted in fawn colored cashmere trimmed in white lace and taffeta silk and carried white roses. The bride is well known in Laurel having been born and reared in the vicinity. Mr. Paul is the son of William Paul a prosperous farmer of Laurel and is an exemplary young man in every way. About seventy-five guests were present to witness the ceremony, among whom were Mr. and Mrs. J. H. Crabtree, Mr. and Mrs. Arthur Crabtree and daughters, Mabel and Mr. and Mrs. D. L.

Special to Times-Republican. Green, Sept. 27.—The carnival at Greene has been a grand success during the first two days and as the weather is the most promising that we have had there is no doubt about the success of the last two days. The ball game between the St. Paul League team and the Algona Coons yesterday resulted in 6 to 1 in favor of St. Paul. There has been no disappointment in any of the attractions and the mammoth crowd that was in attendance went away very much pleased. The largest crowds that have ever been in the town are expected today.

Crushed by Engine. Special to Times-Republican.

Shell Rock, Sept. 27.—A man named Mate, who was running W. P. Barr's threshing engine, was caught between the separator and engine and badly crushed, and was also seriously scalded by the escaping steam, yesterday afternoon while setting the machine at J. S. Neal's.

Dragged-Down Feeling. In the town.

The nervous, unrefreshing sleep, depression. It is time you were doing something. The kidneys were anciently called the reins—in your case they are holding the reins and driving you into serious trouble.

Hood's Sarsaparilla. Acts with the most direct, beneficial effect on the kidneys. It contains the best and safest substances for correcting and toning these organs.

W. B. ELLIOTT Notary Public, Surety Bonds, Fire, Lightning, Tornado and Plate Glass Insurance. Over Post Office.
