WORKING OUT TAXES

Strange Notions of Many County Officials Concerning the New Road Law

WOULD BRING BACK OLD SYSTEM

The Only Tax Which May Be "Worked Out" Under the New Statute, Is the Poll Tax, Others to Be Paid in Cash—Situation in Different Counties.

Special to Times-Republican.

Des Moines, April 2.—The state officials are sometimes amused at the strange notions some of the county officials have of the new road law. A number of county officials are plainly trying to find some way not to enforce the law rather to find how best it can be lived up to. In one eastern Iowa county a meeting of the township trustees was held and it was decided that each township employ a road superintendent at \$3 a day while employed, that he be empowered only to hire one man and team permanently, that the superintendent shall employ for work on the roads the farmers of the township, that they shall work eight hours a day, that the township clerks shall collect the tax this year and it shall be paid out upon the order of the road superintendent. In short this is a way to virtually maintain the old system of "working out the roads."
