J. G. CANNON'S SPEECH

Reciprocity Which Can Do No Injury to American Industry or Labor

TRIBUTE TO IOWA DELEGATION

Speaker Cannon Says That Iowa Has the Best National Representatives of Any State in the Union—Roll Call of Iowans at Washington, Called Amid Cheers.

Des Moines, Oct. 1.—Speaker Joseph G. Cannon of the national house of representatives got as far as Des Moines yesterday on his way thru Iowa.

He spoke at Creston and Osceola and for an hour and a half last night addressed 3,000 people at the Auditorium in Des Moines.

He left this city at 7 o'clock this morning for Davenport. He will speak at Eldridge this afternoon and at Davenport tonight.

The features of the speaker's visit to Iowa were his highly complimentary references to the delegation in congress from this state, and his utterance of reciprocity.

Governor Cummins was one of the half dozen gentlemen who occupied seats on the stage near Speaker Cannon. He warmly applauded the speaker when he declared that the republican party stands for that reciprocity which can do no injury to American industry or labor.

Speaker Cannon said, on the subject of reciprocity: "Under the McKinley law passed under the leadership and under the statesmanship of Harrison and Blaine, we had reciprocity with Cuba, with Brazil and South American countries—our kind of reciprocity; that is to say, the products that they produce substantially we do not produce, coffee, and such as that."

"So, under Blaine and McKinley and Harrison a great many treaties were made by which the products of countries which we didn't make came into our market, and they let our products go into their markets free."

"That is republican reciprocity. Our products, we taking their products, that we cannot produce. That don't affect labor, but benefits it. As soon as our democratic friends came in, they made haste to repeal the McKinley law, and that kind of reciprocity disappears. They attacked reciprocity, have attacked it for years. They did it in 1902. Now, they come up and say they want reciprocity with Canada. Oh, they now want reciprocity; but the kind they want is free trade with other countries that make the same kind of goods and products that we do."

"They specially mention Canadian reciprocity. What do they raise in Canada—cattle, hogs, poultry and such as that; hens lay eggs up there the same as they do here. Wheat, not much more, but generally the same kind that we grow. Now, some of these mugwumps down in Massachusetts want their things protected and our things not protected—that is the kind of reciprocity that they want, practically free trade."

"The republican party is not in favor of that kind of reciprocity. (Applause.) Our products grow and grow as the factory and the farm come closer and closer together. Under that condition we save the transportation and under that policy there is more now manufactured in the middle west than there is in all the balance of the United States, and there is more of manufactures in the United States than any other part of the world, on earth. It is coming west. New York is first, Pennsylvania second, Illinois third, Ohio fourth, Massachusetts fifth and Indiana sixth. Iowa comes with her agriculture products, in round numbers worth \$300,000,000, and first in agriculture with now almost half as much in manufactures as in agriculture."

"We always have been ready for reciprocity with other countries from a republican standpoint whenever we can trade to our advantage and without injury to our labor, and our products and our industry."

"Judge Parker in his letter of acceptance states that he is in favor of reciprocity, and pretends to quote President McKinley's last speech at Buffalo to make it appear that McKinley was in favor of his plan. This is the quotation Judge Parker gives as having been uttered by Mr. McKinley: 'We must have sensible trade arrangements if we wish to extend the outlet for our surplus.'"

"That is what Parker says that McKinley said. Now here is what McKinley said: 'We must make sensible trade arrangements which will not interrupt our home production to extend the outlet for our surplus.'"

"Which will not interrupt our home production." "McKinley is dead and cannot defend himself. It has become a practice of the democratic party that when a great public man has died, they immediately place his name in the saints' calendar, and proceed to quote him and to misquote him when it suits their convenience."

TRIBUTE TO DELEGATION.

Says Iowa Has Best National Representatives of Any State.

Speaker Cannon, in closing his address, called the role of the Iowa delegation at Washington amid cheers, and said: "You have returned to the national congress in the house of representatives year after year and term after term, men whom you have found had the necessary ability and integrity to cast your votes in congress as you would cast them yourselves if personally present. And following this policy, today, the state of Iowa has the strongest and the best delegation in congress. Experience there is worth as much as it is anywhere else. Your delegation is better placed in committee positions in the house and the sen-

ate than any other delegation from the forty-five states. Down here in the capital city, in the home of John A. T. Hall, I want to say to you that from my association with him and his considerable services to the house, chairman of the great committee on military affairs, that he is one of a dozen men out of the 386 that make the house."

PARKER PLAN COSTLY.

Service Pension Would Cost Probably \$40,000,000. Washington, Oct. 1.—Pension Commissioner Ware said the cost of a service pension law, such as Judge Parker suggests in his letter of acceptance, would be \$25,000,000 to \$40,000,000, depending upon the unknown number of veterans now unpenioned, and upon the administration of the law.

"President Roosevelt's order," said Mr. Ware, "simply anticipates by a few months or a few years what a republican could get any way and the amounts that are paid out by reason of it, although difficult to compute, are comparatively small, especially in view of the saving which it makes in administration."

"The size of the unknown army of unpenioned veterans of the civil war is an important point. I believe it was about 165,000, and of these 25,000 have filed applications under this order. Where the claims of men who have never been penioned. There have already been filed 27,000 applications for increase under the order most of which are for an increase of \$2. The number of persons at present who might be entitled to an increase under it is about 375,000, and as the number who have actually claimed the increase was under 8 per cent of the number who already draw pensions and might so apply, it would indicate that order would be in direct line with the experience of the office and introduced new principles as to the disabilities of the people of 62 years and over."

It was well known at the capital last winter that Speaker Cannon refused to stand in the way of a service pension law, although his attitude struck consternation to senators who thought the time was not ripe for such legislation. Many members of the house who favored a service pension law were in direct line with the speaker's room to oppose it. "The legs of the speaker's chair," said Mr. Cannon at one of the interviews, "are not strong enough to have all you people rope yourself to them as life preservers. I shall not hold the bill down."

Monroe and McDonough's Coach.

Special to Times-Republican. Jefferson, Sept. 30.—The article in the T.-R. of the 26th, taken from the Missouri State Gazette, entitled "Queen Old Stage Coach," leads me to believe that the following may be of interest to the readers of the T.-R. I quote from a late Middlebury, Vt., paper. (Middlebury is eleven miles from my boyhood home, Vergennes, Vt., and Mr. Sheldon Seymour and his son, Edward Seymour, were near neighbors and the writer often saw Mr. Edward Seymour driving his mother in the old chaise mentioned, and has heard him tell how it was driven from Connecticut to Vermont. I used to wonder if it was not the identical "one horse shay" of Dr. Holmes' poem. The article is as follows: "The 83rd birthday of Henry B. Sheldon was celebrated Monday in an unique way. He and two other of the older men of the town rode thru the streets in the historic vehicle now in his possession, which was used by President Monroe and Commodore McDonough, who the latter was residing in Vergennes, and was fitting out the fleet that played a conspicuous part in the battle of Plattsburg, Sept. 11, 1814. He used this carriage for his ordinary travel, and as his wife had relatives in Middlebury, the carriage was a familiar sight here in conveying both Mrs. McDonough and the commodore back and forth. The vehicle was also used when President Monroe in 1817 sojourned at Vergennes, and he also made visits to the college town. Mr. Sheldon's companions today, were Rev. Mr. Bidwell, aged 96 years, and Loyal Wright, aged 93 years. The ancient carriage came into Mr. Sheldon's possession some years ago, on his death, and the latter was given to him the original license granted for its use, required by United States law, passed in 1815. The license was issued to Belden Seymour and is dated June 7, 1815. The carriage is in an excellent state of preservation."

Cause of Lockjaw.

Lockjaw or tetanus, is caused by a bacillus or germ which exists plentifully in street dirt. It is inactive so long as exposed to the air, but when carried beneath the skin as in the wounds caused by rusty caps or by rusty nails, and when the air is excluded the germ is roused to activity and produces the most virulent poison known. These germs may be destroyed and all danger of lockjaw avoided by applying Chamberlain's Pain Balm freely as soon as the injury is received. Pain Balm is an antiseptic and causes cuts, bruises and like injuries to heal without maturation and in one-third the time required by the usual treatment. It is for sale by all druggists.

Can You Eat?

J. B. Taylor, a prominent merchant of Christman, Texas, says: "I could not eat because of a weak stomach. I lost all strength and ran down in weight. All that money could do was done, but all hope of recovery vanished. Hearing of some wonderful cures effected by use of Koliol Dyspepsia Cure I concluded to try it. The first bottle I bought, and after taking four bottles, I am fully restored to my usual strength, weight and health." Koliol Dyspepsia Cure digests what you eat and cures. Sold by all druggists.

Many Mothers of a Like Opinion.

Mrs. Plimmer, of Cordova, Iowa, says: "One of my children was subject to a group of a severe type and the giving of Chamberlain's Cough Remedy promptly brought relief. Many mothers in this neighborhood think the same as I do about this remedy and want no other kind for their children." For sale by all druggists.

IOWA SPORTS TALK

Western League Secret Meeting Certain to Result in Serious Trouble in the Circuit

WILL AFFECT FOUR LEAGUES

Foot Ball Season Opens Today—List of the Games Played—Futurity Course Races at Friend, Neb., October 18—Annual Bowling Tournament to Be Held in Milwaukee.

Trouble, of a far reaching kind, that may affect four of the leagues of the west, is promised if the arrangement planned by a faction of the Western League should carry. This plan, as published, is to take in Davenport, Rock Island and Moline under one franchise, and Joplin, Mo., and Topeka, Kas., and drop three of its extreme western towns. Should this be effected it would cause a rupture in the Three I League, to which Davenport and Rock Island belong, and another in the Missouri Valley League, in which Joplin and Topeka hold franchises. Should Davenport and Rock Island go to the Western there is a possibility that a merging of Three I League and Missouri Valley League might result. Des Moines, disatisfied and believing the end of the Western League is near at hand, is taking steps to find a place in the American Association.

From the faller meeting of this league, however, comes word that the circuit will not be changed. The annual meeting of the Western League will be held in January.

The foot ball game formally opens in the state today with a number of games, all of which are more or less important, being played. Below is a list of the games which were played this afternoon: City at Iowa City, Colo vs. Ames at Ames, Drake vs. Des Moines College, Grinnell vs. Nebraska at Lincoln.

The National futurity course races will be held this year at Friend, Neb., beginning October 18. Three hundred hounds from all parts of the United States have already been entered.

The American Association met at Chicago the week and formally adopted the pennant to St. Paul. The season is reported to have been successful. The winter meeting will be held in Chicago, December 18.

With little prospects of the request being granted Peoria has asked to be given a place in the Three I League circuit. Peoria did belong but the game played out earlier in the season, and the club was dropped.

The annual tournament of the American Bowling Congress will be held this year in Milwaukee, and plans for the big gathering of cranks are already going on. The cash prizes will total about \$10,000.

The chicken season opens in Nebraska on October 1, and is promised to be an exodus of Iowa hunters to that state during the same month, especially from the Missouri river towns and cities in the western part of the state.

Joe Gans and Joe Wolcott, the color-fighters, are slated to battle for twenty rounds at San Francisco tonight. Only an indifferent interest is taken in the fight. The betting during recent days has been at even money, in the belief that Wolcott can not conveniently make 142 pounds and fight at his best.

"Kid" McCoy was awarded the decision over "Twin" Sullivan after twenty rounds of fighting at Los Angeles this week. McCoy was cleverer and outpointed his opponent.

Clarence English, the well known pugilist of Sioux City and its vicinity, is in South Dakota where he has been meeting all comers during recent months. He is slated to fight French local 150-pound man of Mitchell, who is said to be fast.

Hampton has lined up a football eleven among the students of its high school, who are undergoing training under the direction of A. H. Hinken, a former player on the Hampton high school team, and who later played at Ames. The eleven played its first game with Eagle Grove this afternoon.

Jabez White, the English featherweight, has found a friend and backer in the former pugilist, Charley Mitchell, who offers to match him against Young Corbett for any part of a side bet of \$2,500.

SPORTS AT MANSON.

A Wrestling Match That Attracts Much Attention. Manson, Sept. 30.—Manson will be the scene of a red hot wrestling match on the 10th of October. Monday evening Lou Kastrop came to town and offered to bet \$50 that Alfred Prange of Pomeroy, could throw Mervin Ferrand twice out of three times. The bet was taken by George Brown, and Mr. Piergue, of Fort Dodge, was chosen as referee, the match to be held off the 10th of October. Mr. Kastrop then made a proposition to bet \$100 to \$33 that he would win his bet. This proposition was also taken. Mr. Kastrop says this is his own money, and does not belong to any of the Pomeroy boys. When the Pomeroy contingent and backers of Mr. Prange are heard from no doubt the bets will be continued up toward the \$1,000 mark, as we understand Manson will take all Pomeroy has to offer. These two parties wrestled at Pomeroy on the Fourth, and Prange while he was inexperienced, showed wonderful good qualities as a wrestler. He is about twenty-five pounds heavier than Ferrand and as strong as an ox. He has been under severe training since the Fourth, and now believes he is ready to do the Manson champion, and his friends will no doubt back him to the

HARRY LEHR GIVES DOG PARTY.

Serves Swell Dinner to Seven Poodles in Honor of Wife's Pet. Newport, R. I., Oct. 1.—Altho Harry Lehr denies that he gave a monkey dinner last summer, he cannot deny the fact that a few evenings ago he gave a genuine dinner to dogs. The reason of 1904 is getting dull and in order to keep up the spirits of the few remaining cottagers, Harry decided to celebrate the third anniversary of the birth of Mrs. Lehr's tiny Pomeranian dog, which she calls "Mighty Atom."

It is about eleven inches long and wears a jeweled collar. He accompanies Mrs. Lehr everywhere. On Monday cards were issued which read like this: At home, Wednesday evening, Sept. 28.—Mighty Atom requests the pleasure of a company for dinner. "Arleigh" 8:30. All invited guests come. Seven invitations were issued and all the invited came. The pride of "Arleigh" sat on the bedecked table, the decorations being the dog's favorite flowers, the cactus, dahlias, and deep red roses. Silver candelabras were used at each end of the table, with red shades. The poodles were seated in high chairs around the table, their mistresses seated directly behind them to assist the five butlers in serving the guests to the delicate menu, which consisted of veal cutlets, frankfurts, salads, ice cream, cigars, cigarettes and chocolates. For an "extra" more meat was served, as the canines all howled for more.

Confessions of a Priest.

Rev. John S. Cox, of Wake, Ark., writes: "For twelve years I suffered from yellow jaundice. I consulted a number of physicians and tried all sorts of medicines, but got no relief. Then I began the use of Electric Bitters and feel that I am now cured of a disease that had me in its grasp for twelve years. If you want a reliable medicine for liver and kidney trouble, stomach disorder or general debility, get Electric Bitters. It's guaranteed by McDonald & Mahood Co."
