KENNEDY TO THREE-1. Ottumwa Manager Will Have Charge of Davenport Club Next Year. It has been announced that "Skipper" Kennedy, the successful manager of the Ottumwa base ball club of the Iowa State League during the past two seasons, will not be identified with the league next year. Mr. Kennedy has been tendered the position of manager of the Davenport team of the Three-1 League, and it is said he has decided to accept. Mr. Kennedy is an old ball man, and has developed some wonderfully good material during his management of the Ottumwa pennant winning team for two years. He is a good judge of men and a great organizer, and has a faculty of making of mediocre men good dependable players. Kennedy's friends in the Iowa league will watch with interest his success with the Davenport team next year.

HARD TO BELIEVE. Story That Will Interest Smokers, Told as Though It Were True. A well-known farmer, says an eastern exchange, fed his horse by mistake a quantity of poultry food, thinking it was stock food, and the mistake was not noticed until the horse had scratched up half the garden and showed signs of wanting to eat more. With this sounds a little improbable, yet one of the clerks at B. A. Morgan's, tells a story akin to it. He had recently secured the agency for Wadsworth Bros' Chicos, a cigar that sells for 5 cents, but is the equal in quality of 10 cent cigars, and in fact is preferred by many smokers. He induced one of his customers who had never smoked anything but an ordinary 5 cent cigar to try a Chico, with the result that he now wants high grade goods in all lines.

CARP GOOD WHEN PREPARED. Old German Residents Say the Sluggard of the Iowa Stream is Not Half Bad. The average fisherman turns up his nose at the German carp which has infested nearly all Iowa streams during the past few years, and are generally claimed to be in a measure, at least, responsible for poor fishing at usually good seasons of the year. Old time residents, however, say that carp aren't half bad when properly prepared, and that in the fatherland they know how to cook them so that they are palatable. The Germans propagate carp in their native land, and when they are large enough to fry or bake catch they alive and place them in the spring water for several weeks, before killing. This, it is claimed, removes from the fish the muddy flavor that is considered objectionable in this country. The carp grow to be of large size, and the big ones are claimed to be fine for baking. The carp found in Iowa streams are usually very sluggish until hooked, but then they can put up as good a fight as any game fish.

PRaise FOR PECKHAM. Press of the Iowa Circuit Has Good Word for L. S. Peckham. (The election of L. S. Peckham to be the second president of the Iowa State League, seems to have struck a popular chord with the papers of the Iowa State League circuit. With scarcely an exception they are words of praise for the Marshalltown man who will head the league next year. Even Oskaloosa, altho its candidate, Dr. C. H. Hare, was defeated, takes its defeat gracefully, and its words of encouragement for the new president, voiced by the Herald, are as follows: "Mr. Peckham will make an excellent official. He is an old base ball man, a fan of the first row, a capable business man, and he will give the office the full time and attention that it calls for. His election will meet the hearty approval of every town in the league."

NEW COUNTY ATLAS. Iowa Publishing Company Preparing to Issue Book for Marshall. Mr. Fred Nave, of Davenport, who was here attending the great council of Iowa Red Men, announces that work is soon to begin by the Iowa Publishing Company, of Davenport, with which he is connected, for the publishing of a county atlas. Mr. Nave is superintendent of field men for the company, and will have personal charge of the work, which is to be carried on at the same time as that for Tama county. You would think some of the manufacturers who made our shirts put two together instead of one, for they outwear anything I ever saw. I am honestly ashamed to have my shirts last so long.
