HE DECIDES FOR CUBA
Secretary Root Gives Americans
on Isle of Pines No
Hope

UNDER CUBAN JURISDICTION
Rights of the Residents of the Islands
Are Only Those of Persons Residing
in Cuba—United States Will Not
Interfere in Behalf of Those Wishing
Annexation.

Washington, Nov. 29.—The administration yesterday dashed the hopes of the little band of American colonists on the Isle of Pines who have been working toward the separation of the island from Cuba and its inclusion in the United States, when Secretary Root, after a consultation with the president, made public the text of a letter, which he had addressed to Charles Raynard, president of the American club of the Isle of Pines, defining the attitude of the United States government toward the proposed formation of a territorial government in the island as a part of the United States. The secretary was most pointed in the statements in his letter, which is as follows:

"I have received your letter of October 25 in which you say: 'Kindly advise me at your earliest convenience the necessary procedure to establish a territorial form of government for the Isle of Pines, West Indies, U. S. A.'"

"It is no part of the duty of the secretary of state to give advice upon such subjects. I think it proper, however, to answer your inquiry so far as it may be necessary to remove an error under which you appear to rest concerning the status of the Isle of Pines and your rights as residents of that island."

There is no procedure by which you and your associates can lawfully establish a territorial government in that island. The island is lawfully subject to the control and government of the republic of Cuba, and you and your associates are bound to render obedience to the laws of that country so long as you remain in the island. If you fall in that obedience you will be fully liable to prosecution in the Cuban courts and to such punishment as may be provided by the laws of Cuba for such offense as you commit. You are not likely to have any greater power in the future. The treaty now pending before the senate, if approved by that body, will relinquish all claim of the United States to the Isle of Pines in my judgment the United States has no substantial claim to the Isle of Pines. The treaty merely accords to Cuba what is hers in accordance with international law and justice.

At the time of the treaty of peace, which ended the war between the United States and Spain, the Isle of Pines was and had been for several centuries, a part of Cuba. I have no doubt whatever that it continues to be a part of Cuba, and that it is not and never has been territory of the United States. This is the view with which President Roosevelt authorized the pending treaty, and Mr. Hay signed it, and I expect to urge its confirmation. Nor would the rejection of the pending treaty put an end to the control of Cuba over the island. A treaty directly contrary to the one now pending would be necessary to do that, and there is not the slightest prospect of such a treaty being made. You may be quite sure that Cuba will never consent to give up the Isle of Pines, and that the United States will never try to compel her to give it up against her will. Very respectfully, ELIHU ROOT.

PACKERS NEED THE HOGS.
Demand Merely Indicates the Manner in Which Stuff is Going Out.
Chicago, Nov. 29.—"Packers may not want these hogs," said a number of the talent, "but their actions belie their printed interviews. Look at the manner in which they tried to get up on the market Monday, and then had to get up and do business. The secret of the matter is heavy consumption of hog product. Everybody is eating it, and the foreign demand is wide open." Lard and meats are going out at a country rate. Last week's exports of lard were 11,263,000 lbs., an increase of 1,500,000 lbs. over last year. Of bacon, 25,150 boxes were exported, an increase of 2,500 boxes over last year.

Packers are not responsible for developments of activity in the provision list. They are not in the humor to increase the speculative demand. Even country packers are not selling on the basis of 4 1/2-cent hogs.
